James M. Scott, M. L. A., for York who recently passed the three score and ten mark is certainly doing his bit to provide employment for men who are not afraid of work. He has just completed loading his fourth steamer at Richibucto with pulpwood consigned to an American port and he is preparing to cut during the coming winter a million and a quarter feet of hardwood on lands, which he holds under lease near Magaguadavic Lake, York County. A large part of this call will be utilized to fill a contract for twenty thousand ties, which he has lately secured from the Canadian Pacific Railway. Robert McKay, of Nashwaak Bridge, has been engaged by Mr. Scott to get out the lumber under contract and he will employ a crew of fifty men.

A Portable Mill

Mr. Scott's portable at Magaguadavic Lake, destroyed by fire last spring has been restored and the logs will be hauled across the lake to this mill, and manufactured. The mill will start sawing in January and will employ a crew of twenty five men. After filling the contract for ties there will be a surplus of about 4 hundred thousand ft. of sawn lumber but Mr. Scott anticipates no difficulty in disposing of it.

To Be Creosoted

The ties purchased by the C. P. R., from Mr. Scott will be loaded upon cars and taken to Montreal and creosoted. They will then be returned to New Brunswick and utilized on the Atlantic division. Up to within a few years ago the Canadian railways used soft wood ties, but they are now used only on branch lines as they have been found unsuitable for the heavy traffic today on the main lines.

NO WORD YET IN PLEA FOR DUNLOP'S LIFE

The appeal to the Department of Justice at Ottawa, by members of the York Circuit court jury, which found Harvey Dunlop, 53-year-old farmer of Campbell Settlement, guilty of first degree murder, on Oct. 11th, has so far elicited no answer. According to officials here, no word has been received from the supreme authorities at the Dominion Capital. A mercy plea to commute Dunlop's sentence to life imprisonment had been asked.

The jury of which J. B. Johnston, of McAdam, was foreman, in its verdict recommended mercy, but such clemency was out of the Judge's power though he recommended the plea to the Department of Justice. Two days after the sentence of death was pronounced on Dunlop, the petition of the jury for mercy was sent to Ottawa.

Government Criticized

London, Oct. 24—From Liberals and from within the ranks of its own party, the Labor Government of Britain tonight faced criticism and opposition to its Palestine policy of curbing Jewish immigration to the Holy Land and of defending at all costs the position of the native population.

Rt. Hon. David Lloyd George declared in an address in Wales this afternoon that the British statement of Palestine policy, differing so much from the Balfour Declaration of war days, savored "too much of a breach of national faith."

The Conservative Leader, Rt. Hon. Stanley Baldwin added his voice to that of the Liberal Chief and was supported in his attack on the Government by Sir Austen Chamberlain and Rt. Hon. L. C. M. S. Amery. Lord Melchett, the great industrialist resigned his place in the Jewish National Agency as a protest.

FOOD GOES DOWN IN PRICE IN LONDON

London, Oct. 25—Because of the sharp drop in food prices John Bull now is enjoying his "three squares" daily at a cost of 10 to 15 per cent. below that a year ago. Food taxation is likely to be the great issue in the next general election, but at the moment the heavy importation of untaxed foodstuffs has reduced the price of bacon 5 to 16 cents a pound, butter 8 to 12 cents and eggs 2 to 14 cents.

Several of the large popular chain restaurant systems have reduced prices. Some varieties of fruit and vegetables are cheaper than before the war. Tons of home-grown plums were allowed to rot on the trees because it was unprofitable to bring them to market.

It is John Bull's breakfast which benefits most, for important reductions have been made on bread, butter, sugar, bacon, eggs, coffee, and cocoa.

Unemployment Relief

As a means of solving the unemployment situation, or at least assuaging it somewhat during the coming winter, will be undertaken according to Hon. D. A. Stewart, Minister of Public Works. It is stated that the government had received an offer from the Smith Foundry Co., Ltd., for the sale of its extensive plant. No action has yet been taken in the matter however, by the Government.
