LABOR AND INDUSTRIAL PROTECTION DEALT WITH BY BENNETT IN NOVA SCOTIA

Inverness, July 8—In clear cut and emphatic terms, Hon. R. B. Bennett, here tonight, and earlier at St. Peters, dealt with railway facilities on Cape Breton Island, the fishing and agricultural industries and pledge for a national full policy and protection of Canada labor.

At the same time he renewed his pledge for a national full policy and the development of Canadian trade through Canadian ports. "These old provinces, these old communities," the Conservative chieftain exclaimed, "must not be neglected in the providing of railway facilities. They must be provided, because you have a right to them. You have maintained the faith and contributed to the national wealth, and if elected to office we will provide the facilities necessary for you to compete on even terms with the nations of the world. That is my conviction and it is a groundless obligation to you."

Fisheries—Agriculture

Touching upon fisheries and agriculture, Mr. Bennett declared, "the collective power of the Dominion must be put behind the development of the agricultural and fishing industries because they are the great food industries upon which lives depend."

Co-operation and organized effort on the part of fishermen "aided by the Government," he declared was the only way to make the fishing industry profitable.

"What has the Government done in this regard during the past eight years?" the Opposition leader questioned. "What has the appointment of the Minister of Fisheries Dr. Cyrus McMillan, done for you to help you towards prosperity? Has the Government done anything that will justify its return to power?" American fish to the value of several millions of dollars were being imported annually from the United States Mr. Bennett remarked, and he proceeded to emphasize the im-

portance of preserving the home market for Canadian fishermen.

Unemployment

The unemployment caused by the neglect of the iron steel and coal industries the Conservative leader asserted, had deprived fishermen and agriculturists of Cape Breton especially, and of the Maritimes, of their "home" market.

The whole fiscal policy of the Liberal Government, Mr. Bennett declared, "had made it easier for the product of cheap labor and longer hours of foreign countries to get into this Dominion and made it easier for the United States to dump the surplus out its mass production into Canada."

This was most unfair he pointed out to Canadian labor.

At the Winnipeg convention of 1927, the Conservative party had pledged itself to a fuel policy and the policy of "Canadian goods through Canadian ports." Both these pledges he declared, would be carried out by his party.

The Opposition chieftain spoke here tonight in the Labor Temple to an audience composed largely of miners. The schedule called for an open air meeting but the inclement weather forced his listeners to enter the hall.

Tonight Mr. Bennett spoke in support of I. D. MacDougall standard bearer of Inverness.

His speech at St. Peters was in endorsement of Dr. J. A. MacDonald Conservative candidate for Richmond Cape Breton West. To both of these standard bearers Mr. Bennett paid tribute.

Tomorrow the Conservative leader will return to the mainland and speak at Antigonish. I. D. MacDougall party standard bearer for Inverness denounced the "machine campaign which hopes to defeat me." The Liberal candidate who was opposing him, he declared was a product of the "Liberal political machine at Halifax."

LATE ADAM MOORE NATION BUILDER SAYS PREMIER

(Continued From Page Eight.)

band and congratulating him on some useful things which he had said to the Mail. Now the great work that he has done for his community is over, and I feel I would like to take the opportunity of expressing to you how much his work was appreciated. In his way he was a nation builder, for he was of the stamp of men who impress themselves upon a community and do all they possibly can for its upbuilding. If we had more citizens of that stamp in New Brunswick our position as a Province would be much greater than it is. I do not forget the other side; from what I have heard Mr. Moore was the kindest of husbands and fathers, and I wish to express such sympathy as is possible for me to do with you and your family in your great and irreparable loss.

I remain,
Yours sincerely,

(Sgd.) John B. M. Baxter

The reference to The Mail in the above letter is easily explained. As was pointed out in these columns Mr. Moore was the first man in his settlement to own an automobile and the first to own a motor truck, which goes to show that he had progressive ideas. He was not a political partizan, but believed in giving credit where credit was due. Two years ago the provincial government made extensive improvements to the highway leading through his settlement, which included a coat of gravel. Mr. Moore was so pleased that on his first visit to Fredericton he called at The Mail office and made a statement for publication thanking the Baxter government for what it had done to improve conditions for travel in a section of the county without railway facilities. The paragraph which The Mail published came under the notice of Premier Baxter, who lost no time in writing

REGULAR MEET OF A. & B. CLUB LAST NIGHT

(Continued from page eight)

which will now be held on the 22nd day of July instead of the 23rd, was at first arranged. The reason for this shift is that the first date would conflict with the racing program at the exhibition grounds. There are at present about 30 silver cups for prizes in connection with the water sports to be held on the afternoon and evening of July 22nd.

AL LASSMAN GRIDIRON STAR WAS DROWNED

Harrison Maine, July 8—Al Lassman former star tackle of the New York University football team was drowned in Long Lake yesterday. The body was recovered early this morning after several hours of grappling.

Lassman who was 24 years of age was a guest at a boys' camp. In mid-afternoon yesterday he went out on the lake in a canoe alone, which is forbidden by camp rules.

Lassman was an expert swimmer and a good boatsman and friends at the camp express the belief that he probably died of shock when he fell or was thrown into the water during the wind and rain storm which swept the lake yesterday.

Lassman was a star on the New York University team in 1928. In a game with Carnegie Tech he received head injuries from which he never fully recovered. His injury prevented his election to the mythical all-American eleven.

There isn't always safety in numbers. One fool driver is reasonably safe until he meets another one.

Mr. Moore and thanking him for his kind words of encouragement. d/occcrftbtee,wio1vvo llaawdbt, cou

MIKE CALDER HURLED NO-HIT PERFORMANCE

Fredericton Imps turned in an impressive victory over the Devonites last night by a 4-0 score, which certainly gave the fans something to talk about, as it is the first home game of the locals that has shown any class. The Imps have maintained a footing in the league through their victories on foreign soil, where they put up very creditable exhibitions so far.

Mike Calder, 190-pound giant of the Imp hurling staff was in fine fettle and turned in a no hit performance against the usually hard hitting suberb clan. Incidentally, the Devon team have collected only a solitary hit in fourteen innings off the Fredericton pitcher.

The Imps bunched hits against the veteran "Johns" Keene in two innings scoring two runs in the third and two again in the fifth.

The scoring:

R. H. E.
Fredericton .. 0 2 0 0 2 0 0 — 4 7 4
Devon .. 0 0 0 0 0 0 0 — 0 0 1

MUST REPEAL THAT FOOL LAW

(New York Sun)

Gov. Smith has a bag full of good stories, and in his political campaigns he draws upon it liberally illustrating his serious discourse with witty anecdotes. If he wins the nomination for President and goes on tour, his audiences will get their money's worth.

One of the stories the governor likes to tell and which he will be pretty apt to use in the campaign had to do with the very green member of the Assembly, who came to Albany in the days when the Governor was Democratic leader of the Assembly. The new comer had an idea that the Legislature could do a lot for the farmer in the way of making prices—even set the price of commodities by law. The Democratic leader reasoned with him and tried to explain why that wouldn't work.

"The price of almost everything is regulate by the law of supply and demand," explained Mr. Smith.

"Is there such a law as that? I never heard of it," said the new member.

"Oh, yes," said Mr. Smith, keeping a straight face. "We've had that law quite a long time."

"Well, by gosh!" exploded the new legislator. "That fool law has got to be repealed! We'll just have to repeal it this session!"

ALL "Z-Z'S" ARE FISHY

New York, July 9—The telephone company has routed from the pages of its Manhattan directory the bogus last names invented by ingenious subscribers so they might be listed last in the phonebook.

An epidemic of Zzyzvaras, Zzyzys caused the company to look carefully into the authenticity of any which began with a ZZ. All the ZZ's were found to be invented names, and were thrown out.

The last name is the new book is D. Zywokarta—and it's on the level.

MOVIES MADE IN FIERY KINGDOM

Moscow, July 9—Movies have been made of one of the hottest countries in the world, the kingdom of Yemen, where the temperature is sometimes as high as 160 degrees Fahrenheit. A Russian expedition could work only between 8 and 10 A. M., and at times it was impossible to touch a camera with bare fingers. Sand burned the feet despite thick soles. The population consists of Arabs, some of them nomads.

SUMMER SLUMP CRAMPS TRADE AT MONTREAL

With a breezy rally to make things interesting as the market closed Wall Street presented a livelier exchange than the Montreal market, described as typical summer trading, slump followed slump with monotonous evenness.

In the spring time, a young man's fancy lightly turns to thoughts of love. But if he hasn't laid away enough money for a honeymoon, June doesn't mean much to him.

What becomes of the chap who shows up so well in the high school prophecy?

Corns Loosen and Drop right off

An amazing remedy—acts in 5 few seconds and causes no pain. The corn shrivels up and loosens. Another application or two and the corn drops out. Wonderful—yes it is—but that is just how Putnam's Corn Extractor works. You can buy Putnam's Corn Extractor from any druggist. Get your bottle today. Refuse a substitute for "Putnam's".

PUTNAM'S CORN EXTRACTOR
Is Painless, Safe, Efficient

Sealed Tenders addressed to the undersigned and endorsed "Tender for alterations to heating, etc., Lancaster Hospital, West St. John, N. B." will be received until 12 o'clock noon (daylight saving), Friday, July 13, 1930, for alterations to the heating, etc., in Lancaster Hospital, West St. John, N. B. Plans and specifications can be seen and forms of tender obtained at the offices of the Chief Architect, Department of Public Works, Ottawa, and the Resident Architect, Old Post Office Bldg., St. John, N. B.

Tenders will not be considered unless made on the forms supplied by the Department and in accordance with the conditions set forth therein. Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Minister of Public Works, equal to 10 p. c. of the amount of the tender. Bonds of the Dominion of Canada or bonds of the Canadian National Railway Company will also be accepted as security, or bonds and a cheque if required to make up an odd amount.

By order,
N. DESJARDINS,
Secretary

Department of Public Works, Ottawa, July 4, 1930.

FREE VACCINATION

Dr. Loggie, Medical Inspector of Schools will be at the High School on Tuesday the 8th instant from 10.30 to 12 noon, and from 1.30 to 3.30 P. M. to vaccinate free of charge all pupils who intend to enter the Public Schools of the City this term.
