Hon. Stanley Baldwin Goes on the Warpath Against Press Lords

**Conservative Leader Resents Their Interference
in the South Paddington By-Election—Party
Candidate Has Been Won Over to Their Side
—May Be Refused Assistance by Head Office.**

(Special to THE DAILY MAIL by the British United Press.)

LONDON, Sept. 30—The press lords interference in the South-Paddington by-election, where the Empire crusaders won the official Conservative candidate, Sir Herbert Lidiard, over to their side, resulted in the Rt. Hon. Stanley Baldwin's going on the warpath immediately upon his return from continental holiday yesterday.

Mr. Baldwin's first move to reassert his authority is seen in Conservative headquarters ultimatum to Sir Herbert Lidiard that if he persisted in his intention to vote against the party the Conservative central office will refuse him any assistance in fighting the bye-election which practically puts him in the position of an independent candidate.

A Further Mixup

This confusion is made even worse by the announcement of Mrs. Stewart-Richardson, nominee of Lord Rothermere's United Empire party, that she intends to fight in South Paddington also.

Thus the prospect arises of the candidates of the two press lords fighting one another on programs which, superficially, at least, are very similar.

Syracuse, N. Y., Sept. 30—The Democratic party of New York state last night adopted a platform which called for repeal of the 18th amendment and restoration to the states of the power controlling the manufacture and sale of intoxicants.

LIVE POULTRY BEING SHIPPED TO MONTREAL

Moncton, N. B., Sept. 30—The seasonal movement of live poultry from the Maritime Provinces has commenced. Five thousand birds have left Prince Edward Island already this season for the Montreal market, travelling in what have been termed "hen pullmans" which can accommodate between two and three thousand. These are special cars fitted up for the handling of poultry with space in the centre for an attendant who travels with the car and feed. New Brunswick also is shipping large quantities of poultry this season. This might be termed a unique traffic movement in that the freight pays for itself while enroute. The eggs laid by the fowl enroute, are to be sold at different points along the line and considerable revenue is derived from this source, considering the number of birds carried in each car.

PRESIDENT OF C. N. R. ON VISIT TO MARITIMES

**Says Atlantic Region
Brightest Spot on the
Whole System as Re-
gards Earnings.**

Halifax, Sept. 30—We expect to have a decrease in earnings of about forty million dollars this year on the Canadian National Railway, while our expenses will decrease thirty million dollars, declared Sir Henry Thornton, President of the Canadian National Railways, in an interview on his arrival here tonight. "There is one thing, however about this period of depression," Sir Henry continued, "and that is, when reaction comes, we will make more money than we ever did before, due to the economies we have learned during this period." Questioned as to reported purchases of Nova Scotia coal, Sir Henry stated that the Canadian National Railways have ordered an additional 100,000 tons, which will make the total purchases for the year, 1,500,000 tons. In speaking of the routing of grain through Maritime ports, Sir Henry said that it was a matter which rested entirely with the shipper. The railways do not control the routing of grain and we will be perfectly delighted to carry it through Maritime ports if shippers will route in that way. "The Atlantic region," he stated, "is the brightest spot in the whole Canadian National System in the matter of earnings."

Ottawa, Sept. 29—Premier L. A. Taschereau's complaint in regard to the distribution amongst the provinces of the unemployment relief fund has not been without effect at the Federal Capital for it is understood that as a result of further consideration of this troublesome question and of a conference here between Federal Ministers and Premier John Bracken, of Manitoba, who has a similar complaint to that of the Premier of Quebec, a more equitable plan of distribution is being considered to meet the cases of municipalities financially unable to meet their share under the present division of 25 per cent. Federal, 25 per cent. provincial, and 50 per cent. municipal.

It is understood that in the cases of poor municipalities the percentage division of aid will be 40 per cent. Federal, 40 per cent. Provincial and 20 per cent. Municipal.

There has been further consideration too of the manner in which the \$14,000,000 remaining of the \$20,000,000 voted by the Federal Parliament after the announced allocation

CAT AND DOG FIGHT ENDS IN COURT BATTLE

Newark, Sept. 30—Acting Recorder Vreeland has given a draw decision in the row between two residents of East Orange which started as a cat and dog fight, developed into a melee between the owners of the animals and ended in Court.

According to the testimony, Claude C. Marcks led his dog by William Hinchman's house a few days ago and the dog slipped the leash and chased the cat which was standing near the sidewalk.

Two nights later the cat stood defiantly near the sidewalk and a similar performance resulted. The animals ran into the cellar and then upstairs and Hinchman is said to have thrown child's play-blocks at the dog.

Then the owners clashed and a couple of Hinchman's teeth were loosened.

"You're about even," Judge Vreeland ruled in Court.
