SAYS TOURIST TRAVEL WILL BE WORTH HALF A BILLION DOLLARS A YEAR TO CANADA

Toronto, Feb. 10—Speaking before the annual meeting of the Ontario Motor League at the Royal York Hotel last night, Ernest N. Smith, executive vice-president of the American Automobile Association, declared that at the present rate of growth, the American tourist business would be worth half a billion dollars to Canada in a very few years.

Citing figures to show that Canadian touring had in the past eight years increased more rapidly than any other individual in the Dominion, Mr. Smith predicted that this year's harvest would amount to close to \$350,000,000.

"Of this grand total," he said, "expenditures by motor tourists will account for close to \$300,000,000. Our affiliated motor clubs in the United States now estimate that 4,000,000 American cars, carrying 13,000,000 people, will cross the international border this year."

He continued: "If you glance through the records of your industries, you will find none that has made the progress of this great tourist business of yours. The increase has been consistent from year to year. In 1922 it amounted to \$92,000,000. In 1925 it amounted to \$180,000,000. And in 1929, it reached \$300,000,000—an increase of 240 per cent. in eight years. And bear in mind that this was accomplished without in any way impairing your natural resources."

Drawing Cards

Enumerating some of the facts that are operating to make Canada a great world touring mecca, the A.

A. A. executive stressed the following factors:

The constructive manner in which Canada is marketing her wholesale recreational assets; the progressive attitude of the Canadian government and the governments of the provinces toward the development of this basic industry; the development of service facilities by Canadian motor clubs, in close co-operation with motor clubs in the United States; close proximity to large masses of population below the border that are now definitely affected by the urge to travel.

Good Roads

Mr. Smith said in part:

"You have realized handsomely on the splendid roads that you have built. Along them has come a stream of gold in increasing volume from year to year. You would do well, however, to remember that there are great holiday reserves within your Dominion that roads have not yet reached and will not reach for some time. Here is where the big opportunity lies for your railways, your steamship companies, your air lines, and your fine hotels, all of which are contributing so much to the development of your tourist industry."

"The 1930 tourist will travel a wheel, a wing, a float. These agencies much be prepared to cater for the all-inclusive tour. That is precisely what we have done as regards the 1,000 clubs constituting the American Automobile Association. We have turned the motor club from a mere motor service organization into a travel agency—ready to serve and advise our members in every field of transportation and in their quest of diversified recreation."

APPEAL COURT WELL STARTED ON FEB. SESSION

(Continued From Page Eight.)

was made that if the security of costs is given within 20 days the case is to be heard next term. The cost of motion be to part of the costs of appeal. Peaks, Ltd., vs Higgins also was considered. An extension of time was ordered. Time extension was granted in the Bacon vs Murphy case. The first case on the Crown Paper, that of King vs Albinie Roy. Wm. E. Monagle appeared for the crown and A. J. Dionne for the respondent. The crown's case was finished this morning.

CAR DESIGNER PLANS SPEED OF 250 MILES

Wolverhampton, England, Feb. 11—Louis Catelen, designer of the Silver Bullet, in which Kaye Don will attempt to beat the world's automobile speed record at Daytona Beach, Fla., in March, said today the machine was capable of attaining 250 miles an hour.

"The engine is geared for 275," he said, "but, allowing for wind resistance and other forces, I am expecting to lose twenty-six miles an hour."

The car is undergoing secret tests with a view to bettering the record of 231.36 miles an hour, set at Daytona Beach last year by Sir Henry Segrave.

Mover and Seconder.

Premier Baxter has announced that the Address in reply to the Speech from the Throne at the approaching Session of the Legislature will be moved by G. Medley Siddall (Westmorland) and seconded by W. Benton Evans of Queens. Mr. Siddall is a merchant residing at Port Elgin and was first elected to the House in 1925. In 1911 he was a candidate for the Federal Parliament and came within a few votes of winning. Mr. Evans is a resident of Minto and is actively engaged in coal mining operations. He was born in Fredericton while his father, the late Rev. E. Evans, was father of the Methodist Church here.

Executive ability consists in getting a good man to do the work.

PROVINCIAL GOVERNMENT MEETING HERE

(Continued from page eight)

able their association to hold annual exhibitions in future. The matter was promised careful consideration by the government.

Appointments Made.

The following appointments were approved by the executive:

Miss Mildred McFarlane, appointed office stenographer for the Executive Council.

B. W. Webster, Wickham, and William J. Jones, Shannon, appointed Justices of the Peace.

Oscar Fenwick, of Bathurst, resigned as issuer of marriage licenses and Samuel A. Palmer appointed in his stead.

Harry Grant, Hawkshaw; Joseph Desjardin and F. Millen Ward, of Molus River, Kent county appointed provincial constables.

W. H. Wilson, Fredericton, appointed a commissioner for taking affidavits.

George H. Purdy, Rexton, appointed a Justice of the Peace and commissioner for taking affidavits.

Robert Atcheson, Saint John, appointed a Justice of the Peace.

LEPROSY IN FRANCE IS NOT REPORTED

Paris, Feb. 11—Although leprosy is more prevalent in France than most people imagine, and although the St. Louis Hospital in Paris has a special ward for lepers, it just has been revealed that there is no health law compelling the declaration of cases of the disease.

Associations of physicians are asking that the law be modified in this particular.

Not Yet Awarded.

It was stated at noon by Hon. D. A. Stewart, Minister of Public Works, that the government had not yet considered the Normal School contract. The tender of the Capital Construction Company, made up of a local syndicate is said to be the lowest.

"A South Carolina couple is enjoying a honeymoon on horseback." A one-horse honeymoon?

MONTREAL POWER STOCK WAS LEADER ON MONTREAL EXCHANGE

The stock market today displayed activity and there were some advances in several utility stocks. Consolidated Gas was up to 114 and U. S. Steel to 183.

On the Montreal exchange Brazilian was soft at 37½, but Nickel held well around 39. Montreal Power rose to 139, and Shawinigan was steady at 73½.

MAY BE CHANGE IN DESIGN OF NORMAL SCHOOL

Various committee meetings were held this morning at the Parliament buildings by government members in connection with the special meeting last night, and also preparatory to the opening of the legislature here on February 27th.

The expectation that meeting last night would result in announcement of the award of the contract for the Normal School, did not materialize as some discussion was held and no agreement reached. The price of the lowest bidder is deemed much too high for the contract. The estimate of the architect, H. C. Mott & Sons, of Saint John, was far below that of the lowest bidder. It is not known whether the matter will be decided today or not.

Four bids from the province will be considered. The lowest is that of the Capital Construction Company of this city. Forbes & Brown, Devon contractors are next in line. The two others are from Saint John and Moncton. The contract price of the lowest bidder is about \$415,000 and this amount is considered too high. It is probable that a change in design of the building may materialize should the government not see fit to pay such a sum. The price is greatly at variance with the architect's estimate.

Taken to Sussex

Milton Stairs of Hawkshaw, who was arrested on the Maine border by the provincial police on a charge of rum running, and taken to Moncton has been removed to Sussex where he will be tried.

In City Today

Hon. J. B. M. Baxter, premier of the province, is in the city today. He is here in connection with the meeting of the government, and this morning attended the sitting of the Appeal Court, as Attorney General.

A fountain pen is that small, cylindrical object, which you shovel into the furnace, along with your watch.

This has been one of the worst winters in memory for the cold-bath bore with the courage of his convictions.

COLLEGE TO PAY TRIBUTE TO LINCOLN

Graduates of Knox College, the first school to grant Abraham Lincoln a degree, will share with radio listeners a birthday tribute to their fellow alumnus Tuesday evening Feb. 11th. Stations associated with the National Broadcasting Company will carry proceedings of a dinner of Knox alumni in New York at 10.30 o'clock, Eastern Standard Time. John H. Finley, associate editor of the New York Times, and Albert Britt, President of Knox, will be the speakers. Both are Knox graduates, and Finley is a former President of the school.

"Lincoln and Knox College" will be the subject of Finley's address. He will tell of Lincoln's close association with the college during the early years of his political life, when he spoke on the steps of "Old Main" against Stephen A. Douglas in one of the historic Lincoln-Douglas debates. Britt will speak of the relation of "Knox College and the Middle West," since the school was chartered at Galesburg, Ill. in 1837 by a group of educational pioneers from New York. The program will be broadcast from the City Club in New York over WJZ and stations associated with the NBC.

GIVE UP BRIDGE, TEND TO HUBBIES

New York, Feb. 11—Dr. Bruno Roselli, a bachelor and a member of the faculty of Vassar, a women's college, believes that the hours which American women devote to bridge and clubs could be better given to the care of their husbands. He so told a convention of women's clubs in a debate with Fannie Hurst.

ASSESSOR NOTICE
