

WARDEN M'INERNEY OF KENT FORMER LIBERAL, TELLS WHY HE IS SUPPORTING BAXTER

Moncton, June 9—One the largest and most enthusiastic smokers and rallies ever held in the city was that held in the Government committee rooms for men supporters in the new Humphrey building Friday night, when over three hundred men assembled to listen to the speakers who had been brought to the city to address the meeting, and enthusiastic applause greeted each speaker.

Ex-Mayor C. Hanford Blakney presided and before the introduction of the speakers, he said that this gathering marked the first meeting in the city of the campaign now under way, and the idea of having the speakers at this smoker and rally was for the purpose of bringing to the attention of the electorate the great accomplishments of the Baxter Government during their four and a half years of administration.

Warden McInerney

Warden Daniel C. McInerney, of Kent County, and Government candidate in the Provincial campaign, on being introduced to the audience, said that Mr. Doucet had rather offset the introduction by announcing that he (McInerney) was a convert to the present government, but he would reply, that like Saul on his way to Damascus, he had seen the light. I wish at this time to pay a tribute to Premier J. B. M. Baxter for the able manner in which he pulled this province out of the slough and placed the business on a sound basis, he continued. I wish also to

position party that the province of Quebec has the best liquor in the world, and the opposition blame Premier Baxter for looking across the border and taking a good Liberal Act and applying it to the Province of New Brunswick in order to obtain the needed revenue, he continued amid laughter and applause. Surely Mr. Jones can find no fault with an act that is founded on Liberal institutions. And is not better that the revenue from the sale of liquor should go into the coffers of the Provincial Treasury instead of into the pockets of rum-runners and bootleggers? But Mr. Jones says to forget the past, except the immediate past. In 1921, when the Prohibition Act was sustained by the votes of the people of New Brunswick, the Veniot Government shortly afterwards sent to the Province of Quebec and Province of British Columbia, E. S. Carter, to inspect the liquor acts in those provinces with a view of putting in force a similar act in the Province of New Brunswick, and later an act of Government control was even drafted by Messrs. McLellan and Hughes. This act was brought before a caucus of the Liberal Government but not a sufficient majority could be secured to carry it through. That was the manner in which that Government would have kept faith with the people of the province. Now that they are in the opposition they are warmhearted towards them to their bosoms. If the Liberal Government thought that Government control was a good thing for the Province, why should Premier Baxter be blamed.

Sale Of Valley Railway

Warden McInerney then dealt with the transfer of the Valley railroad to the Canadian National Railways, saving to the people of this prov-

NOMINATIONS IN ALBERTA MADE TODAY

Edmonton, Alta., June 8—Monday is nomination day for the Alberta provincial election, the electorate going to the polls on June 19, and from indications tonight there will be few acclamations. In but five of the more than two score constituencies are acclamations looked for. In the ridings of Ponoka, Luc Ste Anne, Little Bow, Taber and Sedge-wick, United Farmer party candidates, including Premier J. L. Brownlee, will be unopposed, according to forecasts here.

Premier Brownlee, whose former Government has been in power in Alberta for nearly a decade, has been nominated in the constituency of Ponoka, while a member of his cabinet who is likely to receive acclamations is Hon. O. L. McPherson, who is the U. E. nominee in Little Bow riding.

Farmer party candidates will number 47, Conservatives, no more than 22, Liberals, 35, while there will probably be 11 Labor nominees and 26 Independents. Edmonton city will have four Labor candidates and Calgary, three.

* SPECIAL ATTRACTION *
* AT GAIETY THEATRE *

SALLY AT GAIETY

Marilyn Miller, the darling of Broadway, in her most successful comedy, "Sally," is at the Gaiety the first half of the week.

"Sally," a technicolor dialogue film shows Miss Miller for the first time on the screen and presents the charming star in the greatest role she ever played, that of the little waitress who becomes premiere danseuse of the Follies.

A cast of excellence is seen in support of Miss Miller. Three famous comedians are included therein, John E. Brown, T. Roy Barnes and Ford Sterling. Others in the cast are Maude Turner Gordon, Jack Duffy, E. J. Ratcliffe and the Albertina Rasch dancers.

THE SENATORS ARE GOING GREAT AT BALL

New York, June 9—When Clark Griffith picked Bucky Harris to manage the Senators it sort of shocked the baseball world and particular the experts. Harris made good to the extent of two pennants and one world's championship.

When it came time to pick a new manager Griffith took Walter Johnson. For sentimental reasons Washington, and some parts of the whole baseball world, applauded. But experts and students of the game didn't think it a good move. It looked as if Griff was naming a gate attraction and not a manager.

A mediocre year, due to a bad start following but now Sir Walter is getting somewhere. His fine work with the pitchers is showing results. It's a young staff and going somewhere. Washington is back in the limelight and Griffith is satisfied with his judgment.

Love is a quest and marriage a conquest, says a contributor. And, to carry the scheme through, we'll say divorce is an inquest.

Since the sum of \$250,000 yearly in interest charges. This had been obtained following one visit made to Sir Henry Thornton by Premier Baxter.

Hydro development and the establishment of paper mills in the province was then dealt with by the speaker at some length.

Is any Liberal to be condemned because he wishes to support Premier Baxter for bringing in such wise legislation? If Saul saw the light on the way to Damascus I fail to see why I should be condemned because I have also seen the light and have come into the fold to support a wise and efficient administration, concluded Warden McInerney.

MEXICO TACKLES TOURIST PROBLEM

The Mexico Government has established a "National Board of Tourism", which progress not only to "invite, attract and entertain" foreign visitors but to study and introduce modern transportation methods and equipment throughout the republic.

The board is constituted as an independent governmental department directly responsible to the President of Mexico. Each one of the nine departments of the board will study specific problems, one concentrating its efforts in perfecting hotel and general lodging conditions, another in organizing and promoting tours and excursions, and a third is expediting the handling of tourists at the sea and border ports of entry.

BERGER BRAVE SENSATION HAD BIG STRUGGLE

New York, June 9—Wallie Berger, sensation of the Braves, had two spring tryouts with San Francisco, his home town club, but that club couldn't see him. Neither could several others.

Berger played with Pocatello, of the Utah-Idaho league after the Seals let him pass. Los Angeles bought him late in 1927, and he played there the two following years. William Wrigley, owner of the Cubs, owns Los Angeles, and the Cubs could have had him. They passed him by. So did many big league scouts who closely followed the play of the coast clubs.

A STRIKING COMPARISON WHICH THE ELECTORS SHOULD PONDER OVER.

Although the Foster-Veniot Government went into power in 1917 pledged to keep the ordinary expenditure within the income, not in any year did it succeed in making ends meet. From the years 1921 to 1925, inclusive, it had deficits totalling the stupendous sum of \$1,718,841.74, upon which the people are now paying interest

Here are the figures:

LOOK ON THIS PICTURE

1922 (deficit)	\$189,511.42
1923 (deficit)	524,611.55
1924 (deficit)	248,129.31
1925 (deficit)	756,589.51

Total deficits for four years \$1,718,841.79

AND THEN ON THIS

The Baxter government during its first year of office estimated a deficit of \$666,334 but came through with one of only \$61,523.44. Here is the record for four years:

1926 (deficit)	\$ 61,523.44
1927 (surplus)	15,792.36
1928 (surplus)	198,209.32
1929 (surplus)	9,377.80

Total surpluses, Less 1926 deficit\$163,379.48

The Baxter government paid the Valley Railway interest out of current revenue.

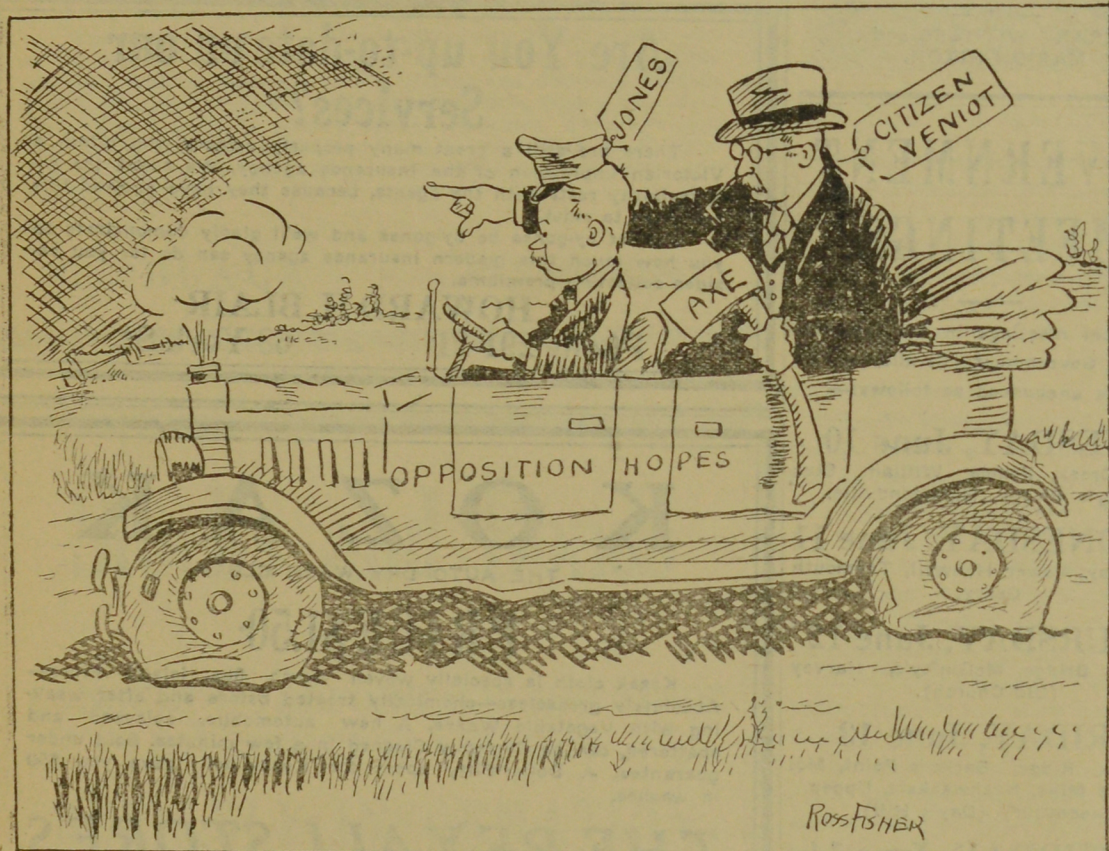

An Object Lesson.

The immortal Charles Dickens, one of the world's greatest teachers, had something to say on the subject of deficits which is just as true today as it was a century ago and is just as applicable to governments as to individuals. Here are the words which he put in to the mouth of one of his characters:

"Annual income twenty pounds, annual expenditure nineteen pounds, nineteen shillings and six pence, result happiness. Annual income, twenty pounds; annual expenditure, twenty pounds, ought and six pence, result misery. The blossom is blighted, the leaf is withered, the god of day goes down on the dreary scene and you are forever floored, as I am."

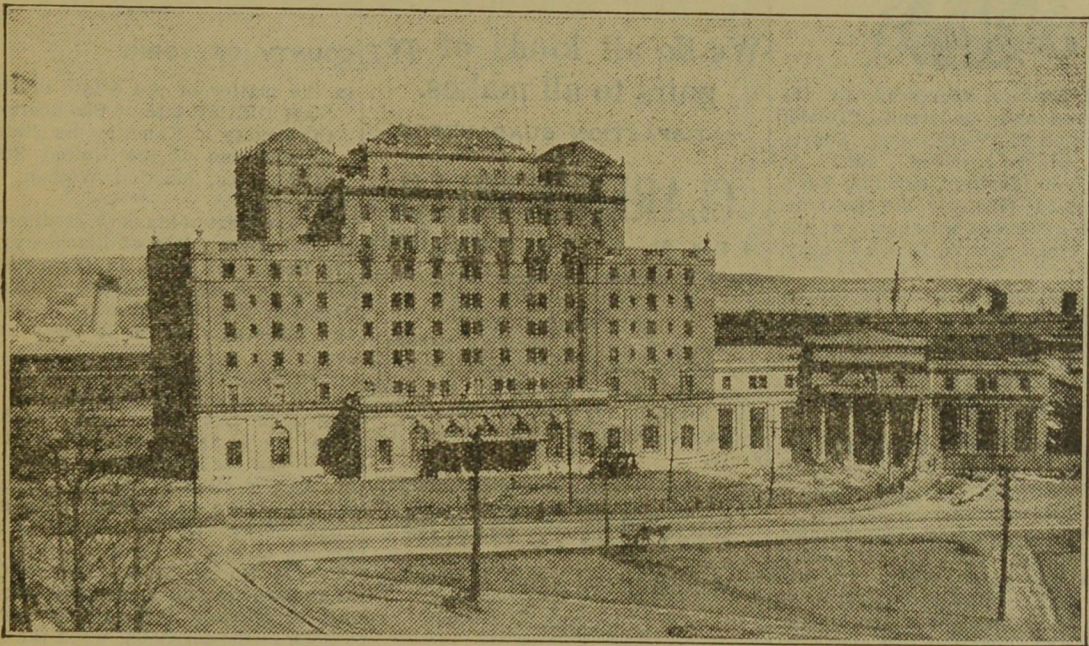

The Veniot government failed to act upon the advice of Dickens and in 1925 on appealing to the electors was completely floored, and the god of day went down upon a dreary scene. All indications point to a similar experience for Leader Jones on the night of June 19th, A. D.

If the electors of New Brunswick prefer happiness to misery they should vote for the candidates of the only government of surpluses which this province has had since Confederation.

The Back Seat Driver

New Nova Scotian Hotel, Halifax

The Nova Scotian Hotel of the Canadian National Railways at Halifax, which will shortly be opened, will give the Canadian National Railways an up-to-date hotel adjoining their terminal station and will provide a needed facility for the travelling public. The hotel has 160 bedrooms, each with bath, besides the necessary complement of public rooms. A feature of the new hotel is the large garage which has been provided in the basement of the hotel,

where tourists may store their cars while remaining in the city or while visiting other parts of the province by train. The hotel connects with the new modern terminal and from its roof gardens furnishes remarkable scenic views both to the harbor and the landward side. Constructed of Nova Scotia brick and stone, in the Georgian style of architecture, the Nova Scotian has many pleasing features about it. One of these, the radio broadcasting studio on the

eight floor, will give to Halifax a radio voice in the national broadcasts of the Canadian National System. Visitors to Canada, entering the Dominion through the Halifax gateway will receive a splendid first impression of the country when they step from the train into this magnificent building which is connected with the station, permitting the passenger to reach his hotel room without having to step outside into the open air from the time of leaving the train.
