

DELEGATION
FROM CHATHAM
RE FERRY

Waited on Government
at This Morning's
Meeting — Improved
Service Required —
Other Matters Taken
Up Today.

A delegation from the town of Chatham, N. B. appeared before the government at a meeting today in connection with having the ferry running between Chatham and Ferryville taken over by the government.

The ferry is now operated by the township of Chatham. Premier J. B. M. Baxter advised the delegates that the matter would be given consideration. The following were members of the delegation: Hon. J. Leonard O'Brien, the Speaker of the House, S. D. Heckbert, Akerley Holmes, member for Northumberland; Mayor James Nichol and aldermen T. J. Aube and T. M. Murray of Chatham.

Details for the construction of a marine slip for the ferry were worked out this morning when the delegation interviewed the government. The boat in question is a motor ferry, the Frances Ullock.

The government was in session this morning on a number of matters, though nothing was divulged to the press upon the completion of this morning's session. A meeting of the Hydro Commission, was held previous to the regular government meeting. Hon. E. A. Reilly stated this afternoon that there was nothing for publication from the meeting. Another session of the Commission is being held this afternoon at 2.30 o'clock.

CITY AFFAIRS

Fires Reported

A forest fire was reported by the New Brunswick Forest service this morning at Petersville, Queens County. The fire is believed to have started at an early hour this morning. Bands of five fighters are now fighting the blaze.

The Angling Season

Some good catches of trout at Lake George, which is the head of the Pokok stream, are being reported. This lake was stocked a few years ago with trout and land locked salmon. It is located in the Parish of Prince William and can be easily reached by auto.

Fishing Party Here

Dr. C. R. C. Borden and Mrs. Borden, of Boston, Mass., are in the city today and will leave for the Cain's River tomorrow morning with Guide Harry Allen, on a two weeks' fishing trip. Dr. Borden has made yearly visits to the fishing waters of New Brunswick since 1920, and stated this morning that he always enjoyed his trips immensely.

Enquiry Going On

The inquiry into charges preferred by A. A. Dysart, late opposition leader in the Legislature against W. Tweedie Hargrove, road supervisor for the Parish of Sheffield, are being investigated before Hon. D. A. Stewart, Minister of Public Works in the Parliament Building this afternoon. C. L. Dougherty is appearing for the government and J. B. McNair for the opposition. The charge against Mr. Hargrove is that two men drew pay for road work, while at work on his farm.

Had Pleasant Visit

Mr. and Mrs. Luke S. Morrison are being warmly welcomed home from a month's trip to California. It was Mr. Morrison's first trip to the far west and he enjoyed it very much. He was particularly impressed with the booster spirit, which was much in evidence, particularly in Los Angeles. Mr. and Mrs. Morrison visited Mrs. A. B. Atherton, a former resident of this city at San Diego, and found her enjoying excellent health. Other former Frederictonians whom they visited, included Mr. and Mrs. G. A. Burkhart, and Miss Alfretha Whitehead, who occupy a bungalow near San Diego. Mr. Burkhart enquired about his old friends here and asked to be remembered to them.

INSPECTOR FOX
PRESENTS REPORT
TO TRUSTEES

Mr. Fox Lauds Splendid
Supervision in Public
Schools Here in Re-
port—Regular Monthly
Meeting of Board
Yesterday.

The regular monthly meeting of the Board of School trustees was held last night with the following members present:—Dr. VanWart, Dr. Crockett, Mrs. Clark, Mr. Quinn, Mr. Campbell, Hon. C. D. Richards, Mr. VanDine.

The Secretary's report for the month showed that while there had been some irregularity of attendance among the pupils of the lower grades chiefly due to illness, the general attendance had been good. Among the pupils reported absent four had been classified as truants. Of these two were over age and therefore did not come under the compulsory attendance act. All cases had been investigated by the Trust Officer.

Terminal Exams

The terminal examination had been completed and in the case of the High School the marks obtained by each pupil had been sent to his or her parents.

ANGLERS MADE
A FINE CATCH
ON CAIN'S RIVER

Record Spring Salmon
Taken by David Hayes
of Bridgeport, Conn.
Party Landed 342
Fish in Period of
Thirteen Days.

A bright Atlantic silver salmon weighing 28 lbs. hooked on Cain's River on April 28th, by David Hayes, Vice President of General Electric Company, Bridgeport, Conn., is regarded as the record spring run salmon ever taken by early anglers in New Brunswick.

Mr. Hayes was on his first fishing trip to New Brunswick, accompanying John Taylor Arms, of Greenfield Hill, Fairfield, Conn., who spends two weeks each spring with W. Harry Allen's guides on Cain's River. They were 13 days making the trip down Cain's River from Bantalor to Howard's, and they caught and landed 342 salmon, all of which they returned to the waters with the exception of two which they used in the party's larder on the trip and eight apiece which they took home with them last evening.

Mulch Paper
Mulch Paper is an unusually tough and strong asphalt impregnated paper made by the Largest Paper Manufacturers in the world. Unlike some other papers, with which planters have experimented, it sets up no chemical reactions in the soil that are injurious to plant life. Unrolled directly over prepared soil before planting and anchored by rocks, wire, earth or other suitable material, it stimulates plant growth by storing up solar heat and at the same time retarding moisture evaporation. Planting is accomplished by holes made in the paper or between successive strips of the paper.
LET MULCH PAPER WORK FOR YOU.
