Would put a Stop to The Soviet Crusade Against Religion

A Parallel Attack by the Heads of the Roman Catholic and Anglican Faiths in England May Have Far Reaching Political Consequences—Are United in Demand For Action.

(By Keith Jones, United Press Staff Correspondent)

LONDON, February 13—A parallel attack by heads of the dominating religious faiths in England against the Russian government's alleged persecution of religious institutions may bring about far reaching political consequences.

More closely allied than ever before in the centuries since their separation, the Church of England was represented by the Archbishops of Canterbury and York and the Bishop of London, and the Roman Catholic Church headed in England by Cardinal Bourne, are united in a demand for action to end the soviet's anti-religious movement.

APPROVAL OF LEAGUE'S STAND ON SUBMARINES

(Special Cable to THE DAILY MAIL by British United Press.)

Paris, Feb. 13—While there has been a continuous chorus of approval in France of Georges Leagues' stand on submarines—Coupled with indignant attacks on the suggestion that France might employ them as they were used in the World War—there is a pacific group, which fails to understand the French position.

This group declared that 3,000 ton submarines are not justified and that they are as powerful as many of the destroyers in the English and American fleets.

COMMUNIST AGITATORS TO BE THAWARTED

BY FREDERICK KUH
British United Press Staff Correspondent

Berlin, Feb. 13—Police reinforcements arrived from Darmstadt were thrown into the entire Russelsheim district today, to prevent a wholesale communist attack on the General Motors Automobile Works. The rest of the communist agitators involved in an assault on the plant yesterday continued through the night and thirty leaders were in custody today.

MANY FOXES WERE SHIPPED FROM P. E. I.

Charlottetown, Feb. 12—Live foxes shipped by express from Prince Edward Island to foreign countries during 1929 show a considerable increase over the preceding year, 2,558 animals making up the total for the year, as compared with 907 shipped in 1928.

Germany was the largest importer taking 759 animals. Norway had 305 the United States 379, Sweden 669, England 142, and Russia 131, while France, Holland, Finland, Belgium, Scotland, Czechoslovakia and the Labrador also imported island foxes.

A total of 2,731 foxes was sent to other provinces of the Dominion. Quebec importations numbering 2,249.

PRIEST WAS ACQUITTED OF MANSLAUGHTER

Kitchener, Ont., Feb. 12—After nearly four days of deliberation, a verdict of not guilty was returned here this afternoon in the Supreme Court in the manslaughter charge against Rev. Father Aloysius Beechey, teacher of chemistry in St. Jerome's College. Ten minutes previously the jury had asked if it could add a rider to the verdict, Mr. Justice Jeffrey replying he could see no reason for such contemplated action.

Two cases of criminal negligence are still against Father Beechey in connection with the same accident which occurred on the Kitchener-Guilph road, near Breslau, on October 9. Archie McLean, of Kincardinn, was killed when the buggy in which he was riding was struck by Beechey's car. The criminal negligence charges will not be proceeded with now and it is doubtful if they will come to trial. The Attorney-General's department will be consulted.

His Lordship declared that it would be futile to proceed with the criminal charges unless new evidence could be produced as the degree of proof necessary for continuation was practically the same as in the manslaughter charge.

Father Beechey, who had been out on bail of \$10,000, was allowed bail of \$1,000 pending the disposal of the other charges.

CUSPIDOR SALES ARE BOOMED BY PORTUGAL

Libson, Feb. 13—The unesthetic and unhygienical practice among the Portuguese of spitting in public is under the ban.

Restaurant and cafe proprietors have been advised to provide their establishments with cuspidors in the interests of public health. Street cars, steamers, trains and movie houses are posted with placards in which the public is requested to give up this objectionable habit.

The people are told that one of the causes of the spread of epidemics which decimate the Portuguese nation is due to their non-observance of one of the most elementary rules of hygiene.

WILL HELP CITY OF CHICAGO OUT OF DEEP HOLE

Citizens Have Plan to Raise Money to Protect the City Payroll.

Chicago, Feb. 13—"We are not trying to lift any crowns off the heads of the gentlemen who are wearing them. It's simply a fact that it is incumbent on public spirited citizens to raise some money to carry on the business of the City of Chicago—and we are trying to do it."

In these words, Silas H. Strawn, former president of the Illinois Bar Association and one of Chicago's most prominent attorneys, explains the aim of the Citizens' Committee with which he and others were trying to bring order into Chicago's chaotic financial situation. It is his answer to charges of "Big Bill" Thompson and other politicians that "Big Business," as represented by the rich loop district, is using the present situation to gain control of the city.

Raise \$50,000,000

The plan that Strawn offered was simple—but revolutionary. With the city unable to collect taxes until a reassessment is made and \$11,275,000 in unpaid salaries due 40,000 city employees, Strawn's committee of leading business men offered to raise approximately \$50,000,000 to protect the city payroll, pay pensions and other vital expenses until tax collections started coming in. They offered to buy tax anticipation warrants in this amount.

But—and here's the rub—in return for lending their money the business men demanded virtual direction over the city's finances. They insist that every penny go where the need is greatest. They do not want to see this money wasted by the politicians as millions have been wasted heretofore. This cases a terrific shadow over the municipal pie counter—and the politicians are talking about "usurpation of power by big business" and "destruction of the citizens' confidence in their elected officials."

ONTARIO TOWN GETS MANY OF THE EMPTIES

Sandwich, Ont., Feb. 12—One of the major problems confronting the Town Council of Sandwich is that concerned with the manner in which American visitors dispose of their empty bottles as they drive onto the new Ambassador international bridge to Detroit.

Just as they reach the Canadian approach to the bridge the Americans throw their bottles over the bridge railing into the streets of Sandwich. A suggestion that barrels be placed along the approach is being considered.

WOODEN MATCH BOXES MAKE HIT

London, Feb. 13—Wooden match boxes have captured the imagination of some collectors. One Londoner who has been at it for two months, has assembled nearly 100 different varieties. The wrappers are soaked off and mounted in an album. A hotel keeper has collected 2005 wrappers.

NORTH PACIFIC HAS WINTER ATTRACTIONS

The C.P.R. Trying Hard to Put This Fact Before the World.

SEATTLE IS HELPING OUT
Mid Winter Gold Tourney at Victoria to Open Feb. 22.

Victoria, B. C., Feb. 13—Through its second annual Empress Mid Winter Golf Tournament which opens here Monday at Gelwood course and continues till February 22, the Canadian Pacific Railway is making an outstanding effort to put before the world that the North Pacific coast is as much a winter as a summer playground.

This is the statement of Johnny Dreher, veteran golf writer of the Seattle Times, who says: "It becomes a matter of pride on the part of Seattle and other communities to play a part in helping the Canadians put over their second venture in the mid-winter gathering of golfers."

Tens of thousands of dollars are spent annually to advertise the Puget Sound region as a summer playground, the Seattle writer continues but it remains for Canadians unaided to take up the task of pointing out the good things that obtain here in winter months.

Seattle's leading golf clubs, Seattle Golf and Country, Renier University and Inglewood, according to Dreher are organizing parties to participate in the tournament here next week and will add much to the success of the event.

CHANGED BY LAW AT MEETING

A special meeting of the Agricultural Society No. 34 was held last night in the offices of the Exhibition Association for the purpose of amending the by-law No. 11, so as to make it necessary for members of the association to pay their fees by June 1 in order to be entitled to voting at any meeting throughout the year. This was done for the reason that the grant from the provincial Department of Agriculture is made on a pro rata basis, according to the number of members of the organization and a list of paid up members must be sent to the department by June 1st, in order to receive the grant. Dues received later than this are not considered in the grant.

The directors of the Fredericton Exhibition, Ltd., also held a meeting afterwards and considered routine matters. The president, Joseph A. Cain, was in the chair on both occasions. It was settled that the Association pay a visit to Mr. John A. Campbell, honorary president, at his home in Kingsclear on February 18th, the occasion of his 93rd birthday. It was further arranged to engage the Fredericton band for the fair this fall.

Old Fashioned Tea

An old fashioned tea was held between five and six o'clock last evening in the Fraser Memorial Hall, at which a very large number were in attendance. The event was an unusual one, and the quaint garments used by some of the ladies, who dressed in garments as used 50 years ago, was something to behold. Their entrance into the hall was a startling one, but those present recovered from the shock of seeing such antique apparel, they burst into hearty applause. Some of the garments were really laughable. One lady appeared with a wedding hat of long ago, while another was fitted out in a coat of Irish point lace. Mrs. Gordon Scott, the president of the ladies' Aid, looked after affairs.

Greenfield Says Wheat Crisis is Disappearing

Agent General For Alberta in London Explains Situation in a Speech Before the British Chamber of Commerce—Claims That Canadian Wheat Pool Was Justified.

(Special to THE DAILY MAIL by the British United Press.)

LONDON, February 13—The wheat crisis is gradually being dissipated according to Herbert Greenfield, Agent General in London for Alberta, Canada, who explained the situation in a speech before the Canadian Chamber of Commerce in Great Britain yesterday.

Greenfield said the Canadian wheat pool was justified in withholding its crop from the market because Canada can not meet the price at which Argentina has been selling. There would be no profit at these prices for the small high grade Canadian crop, he said, and to sell now would mean a deficiency of 40,000,000 pounds sterling in Canada's buying powers.

NEW SCHEME FOR HANDLING MOTOR TRAFFIC

Paris, Feb. 13—Jean Chlappe, head of the Paris Police Department, plans to make every Paris pedestrian his own traffic officer.

An ingenious signal has just been installed at one of the busy corners in Paris whereby a person wishing to cross the street can pass a signal halting all the automobile traffic.

The buttons are placed on either side of the street on the electric lamp poles. By merely giving the button a push, a red signal is flashed from a traffic light forcing all motorists to stop. The signal remains lighted 15 seconds in which the pedestrian must secure across the street.

In order that irate pedestrians will not keep the red signal up all the time, the police have regulated the instrument so that it will not flash red for at least 45 seconds after it is extinguished. If this apparatus proves successful the police hope to install the instruments on all corners where no regular traffic officers are stationed.

IMPORTANT PROPOSAL FOR BRITAIN

(Special Cable to THE DAILY MAIL by the British United Press.)

London, Feb. 13—A proposal to slice 10,000,000 pounds sterling from Great Britain's fighting forces and put it into the development of air-fines, particularly dirigibles was made last night by Commander Sir Charles Dennistoun Bournay, constructor of the Dirigible R-100.

A JOB FOR THE FOOL KILLER

Niagara Falls, N. Y., Feb. 12—Frank W. Myers, of Boston, plans to try a new way of going over Niagara Falls, he announced today—in an outboard motor boat with wings attached, so that it will glide him to safety.

Myers said he would try his boat, when completed, on a small waterfall first, so officials here and one the Canadian side are withholding until then their usual refusal to countenance such stunts.

THE DICTATOR MUST RESIGN FROM THE ARMY

(Special Cable to THE DAILY MAIL by the British United Press.)

Madrid, Feb. 13—Military officers, who are members of Primo De Rivera's patriotic union must sever all connections with the ex-dictator's political movement, under telegraphed orders of Premier Damaso Berenguer.

The Premier's order disassociating the armies from politics was viewed as a notice to De Rivera that he too can take no part in his projected political campaign unless he resigns from the army.

TO RECOMMEND AMENDMENT TO CRIMINAL CODE

Toronto, Feb. 12—Recommendations will be made to the Federal Government chiefly suggested amendments to the Criminal Code and to the Dominion Companies Act, at the close of the conference of representatives of the Canadian Attorneys-General, now in session here, it was declared tonight by Col. W. H. Price, Attorney-General for Ontario, who has been presiding. It is possible that a delegation from the conference will wait on Hon. Ernest Lapoint, Minister of Justice, in Ottawa later in the week. The conference is expected to conclude on Friday.

Young Couple Wed

Two young people were united in the bonds of matrimony last evening at the George Street Baptist parsonage by Rev. M. H. Mason, the pastor. The parties were William Summerville, son of Mr. and Mrs. J. S. Summerville, of Taymouth, and Mary Louise Jones, daughter of Mr. and Mrs. Harry Jones, Regent street. The marriage took place at six o'clock. The parents, sisters, and brothers of the both parties were in attendance at the event. The bride was becomingly dressed in madeline blue with hat to match and blonde shoes and stockings, and carried a bouquet of American Beauty roses. Following the ceremony a delightful luncheon was served at the home of the bride in Regent street. The happy couple will reside in this city.
