WANT BEER AND WINE SOLD BY THE GLASS

But Premier of Ontario
Says That he Does Not
Think Public Opinion
Favors it.

Toronto, Jan. 14—Ontario is not even close to having been by the glass because public opinion does not justify it, Premier Ferguson told William Varley, secretary of the Building Trades Council of Toronto, who presented the argument of the Trades and Labor Congress of Canada to the Ontario cabinet this afternoon, asking sale of beer by the glass.

"I think there is a tremendous amount of opposition against it," said Premier Ferguson. "Not for the reason that the public object to having it by the glass, but the effect it will have on the law enforcement, and standards generally among the people of the province. I don't think opinion is in favor of it. I may be wrong."

Premier Ferguson's pronouncement on the situation came during a lengthy plea made by Mr. Varley.

Beer and wine by the glass, reductions of taxes on beer, eight-hour day legislation, unemployment insurance and application of the minimum wage law to both sexes, were among the requests submitted.

Other forms asked by the executive included separation of the old age pension system from poor relief or charity legislation; amendment of the Parents' Maintenance Act; compulsory safety doors on all passenger elevators; investigation into the present laws governing commercial motor transportation; compulsory public liability insurance for auto owners; and fair wage regulations.

THE PRAIRIE OYSTER AS A BEVERAGE

Monte Carlo, Jan. 15—While the side-car cocktail makes furore in Paris, the Riviera drinks nothing but "prairie oyster" and the oyster's cocktail as its apertif.

The prairie oyster cocktail is made with the yolk of an egg, a dash of Worcestershire sauce and malt vinegar, a little cake of Cayenne pepper and a pinch of salt. It has to be washed down with champagne as a sort of fire extinguisher.

The sherry pearly, or coster's cocktail, is popular with the golfers atop Mont Agel. It is only a glass of dark sherry in which is placed a little picked white onion. It is said to have an immediate effect on jaded nerves.

Here and there in this snowbound land, warm gentlemen in their shirt sleeves are patting bright red tomatoes for the seed catalogues.

Residents of the Isle of Bardsey May be Starving

No Word Received From the Inhabitants of Lonely Spot in the Irish Sea For a Month—Tempestuous Seas Have Made it Impossible to Land Provisions—Signals Unanswered.

(Special to THE DAILY MAIL by the British United Press.)

PWLLHELI, CARNARVONSHIRE, WALES January 15—It is feared that forty inhabitants of the lonely island of Bardsey in the Irish Sea are either dead or dying of starvation as a result of tempestuous seas which have made it impossible for the weekly provisions boat to make its calls for a month. HOTEL OWNERS TO LOSE SHARE OF THE TIPS

Paris, Jan. 15—Who gets the tips when hotels add 10 per cent. "for service" is by way of being decided.

Senator Justin Godrat told parliament that many hotelkeepers took a considerable share for themselves. That is to be stopped by a law which already has passed the Senate.

Tips in hotels which leave customers to fight their own way out past a line of extending palms seem to be growing. France's prosperity and years of publicity about Wall street profits have whetted the appetites of those who receive.

Ten per cent. is the unwritten law everywhere, but in the best restaurants 15 per cent. is more usual. Then the wine steward, hat boy and doorkeeper get in line for a few crumbs more.

THE DAIRYMEN URGE GREATER PROTECTION

Ottawa, Jan. 14—Arguments on behalf of the National Dairy Council of Canada showing why, in the opinion of that body, the trade treaty between Canada and Australia should undergo some adjustment in order that the dairy interests of this country might not be sacrificed for the sake, as one member phrase, it, of selling paper and automobiles, were presented to the Advisory Board on tariff and Taxation today.

F. E. M. Robinson, president of the Council, presented a brief, outlining a request which would have the effect of bringing the rates under the Australian treaty to the same basis as the British preferential tariff on imports of butter and cheese. He was supported by Father Leon Lebal, S. J., representing the Quebec Council of Agriculture; Robert Ness, of the Beaulieu Livestock Breeders' Association; Dan Morkeberg, of the Alberta Dairy and Creamery Council; T. A. Gillespie, Peterborough, representing the Ontario Creamerymen's Association; and T. C. Colquhoun, of Maple Creek, of the Saskatchewan Dairy-men's Association.

Opposing the dairymen's request were A. E. Darby, secretary of the Canadian Council of Agriculture; K. J. Deachman, of the Consumers' League of Canada; B. MacNiven, of the United Farmers of Ontario; and T. F. Gilroy, of the United Farmers of Ontario Conservative Society.

The present import rate on butter and cheese under the Australian trade treaty is one cent per pound and free, respectively. The dairymen ask for a four-cent rate on butter and two cents on cheese.
