MARTIAL DISARMAMENT

Somebody is always taking the joy out of married life.

A New York legislator has introduced a bill under which if a man hit his wife or a wife hit her husband, the victim could sue for damages.

Under the present law in New York a man may beat or slander his wife and be immune from civil suit for damages.

No gentleman beats his wife. No lady beats her husband. It may be that the legislator could do a public service by stating in his bill just how much it would cost for a husband to hit his wife or for a wife to sock her spouse.

But we see complications. We see a man getting insurance to cover himself against civil suit when he beats his wife. We see fraud creeping in. We see a husband and wife framing it so that the wife lets him give her an affectionate sock on the chin, then she sues him and they split the proceeds.

No, we do not like the looks of this bill. We abhor wife beaters. We cringe at the thought of husband beaters. But we know the tradition about what happens to the fellow who interferes in a fight between a man and his wife. So we pipe down.

UNDER THE HOOD

Automobile mechanics have been known to say that the man who knows nothing about a motor and never looks under the hood has less trouble with his car than the amateur machinist who is always trying to improve performance or silence imaginary squeaks. There are doctors who say our health would be better if we didn't watch it so closely. If we start noticing with a worried look every squeak in the human system we are going to let ourselves in for a lot of unnecessary unhappiness. Your health thrives on reasonable habits and a fair amount of neglect. Don't always be lifting the hood to see what's the matter.

Personally, we think this predicted war between the sexes is a lot of hokey; no man can fight on an empty stomach.

Dr. Cook's release from prison reminds us once more of time's flight. Fact since has been so much stranger than his Arctic fiction.

The main trouble with an epidemic psittachosis, or a situation in Manchuria, is that the crisis is passed before you can spell it.

"It is ridiculous," says an educator "to call a man ignorant just because his English is not good." Sure it is; he may be a Russian.

The School of Experience has a correspondence course, the degree being given the candidate when his letters are read in court.

Dora got eight book ends for Christmas, she reports. That is four to each book.

"Afghanistan had four kinds in 1929." One at a time, though—the way we do at poker.

Slang is just sport model language stripped down to get more speed with less horsepower.

As that a bathroom barytone is probably an improvement on the old barroom battytone.

Add Memory Developers: Become a creditor.

Don't Dix, a writer of acute observation and keen discernment: "I should say that a girl's first aid to popularity is mediocrity." And it might be said by way of comment that mediocrity is a natural bounty—does not have to be acquired or affected.

THROUGH OUR SIEVE

Another ailment announced recently is a non-stop phonograph.

Noy is the season for reading about the "reperfected" automobile.

There would be fewer air castles if the dreamers had to put them together with hot steel rivets.

Nobody cares to be sick, of course, but the period of convalescence is fine for "catching up" with your reading.

We are reminded by prevalent weather of the man who called his horse January, because the critter was so skittish.

Where obscurity is desired there is nothing like long skirts for hiding legs never intended by Mother Nature for exhibition.

Hi Slocum says that he read where Sir Harry Lauder says the best novel a man can read is his own bank book. But he never cares for sad endings.

Ringling Brothers have effected the biggest circus combine and it still remains to be seen whether they have a white elephant on their hands.

PUBLIC OPINION

A RERTINENT QUESTION

Fredericton, N. B., Jan. 30, 1930.

The Editor,

"The Mail."

Dear Sir:—

What people we are, to be sure, in this Town, that so few native Sons became Aldermen, leaving the honors to new-comers from the rural districts! Is this WHY BOYS LEAVE HOME? If our Country Cousins remained at home they couldn't be Aldermen. How many of our present City Councilors were born in Town?

Yours forever,

METHUSALEH.

One reason for this is that new comers to be city are not as expert as passing the buck as the old timers.

MINTO POWER

Editor, Daily Mail.

Dear Sir:—

I noticed in the papers, where a delegation waited on the Provincial Government this week in regard to establishing a steam power plant at Minto to supply Fredericton and other places with electric power. About ten years ago the Board of Trade employed an expert from New York to report on this very matter. The gov't of this report was that it was cheaper to bring the coal from Minto and manufacture the power here, than have the electricity generated at Minto.

IF THERE IS A BABY IN YOUR HOME

There Also Should be a Box of Baby's Own Tablets

To keep her little ones well is the constant aim of every mother and to help her in this task she should always keep a box of Baby's Own Tablets in the home. These Tablets have saved many little lives when illness came on suddenly.

The majority of troubles which afflict little ones are those which arise from a disordered condition of the stomach and bowels. It is in quickly correcting these disorders that Baby's Own Tablets show their value. They banish constipation and indigestion; correct colic and diarrhoea; break up colds as simple fevers and allay teething pains. Concerning the Tablets Mrs. writes:—"I always keep Baby's Own Tablets in the house as I know of nothing to equal them for little ones."

The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

Candlemas Day

Tomorrow is Candlemas Day and as usual great interest is attached to it. Should the groundhog venture out tomorrow and see his shadow, it is supposed to mean that there will be another winter, and if not then we can expect according to tradition to have the rest of the winter pretty mild. Of course everyone is hoping that the old boy does not see it.

YOU CAN REST ASSURED

He brushed his teeth twice a day, was examined by his doctor and dentist twice a year, wore his rubbers when it rained. He slept with his window open at least eight hours every night. He stuck to a diet with plenty of fresh vegetables. He relinquished his tonics and traded in several worn out glands. He did his daily dozen daily, besides taking plenty of outdoor exercise. He was all set to live to be a hundred.

The funeral will be held next Wednesday. He is survived by 18 specialists, four health institutes, and numerous manufacturers of health foods and antiseptics.

He had forgotten about automobiles at street crossings.
