

LITTLE WORRIES IN THE HOME

It is These That Bring Wrinkles and
Make Women Look Pre-
maturely Old.

Almost every woman at the head of a home meets daily many little worries in her household affairs. They may be too small to notice at four afterwards, but it is these same constant little worries that affect the blood and nerves and make woman look prematurely old. Their effect may be noticed in sick or nervous headaches, fickle appetite, pain in the back or side, sallow complexion and the coming of wrinkles, which every woman dreads. To those thus afflicted Dr. Williams' Pink Pills offer a speedy and certain cure; a restoration of color to the cheeks, brightness to the eye, a hearty appetite and a sense of freedom from weariness.

Among the thousands of Canadian women who have found new health through Dr. Williams' Pink Pills is Mrs. N. Worrell, Broughdale, Ont., who says:—"After the birth of my second child I was so weak and run down that I was unable to do anything. The doctor said that I had scarcely any blood in my body. I could not walk half a block without being completely exhausted and all the treatment of the doctor did not seem to help me. I called in another doctor, but with no better results. My feet and legs became frightfully swollen, I suffered with severe pains in my back and sides. I would be all day dragging around at my household work and I was beginning to give up all hope of recovery. I had been urged to try Dr. Williams' Pink Pills, but like many others, thought they could not help me when doctors had failed to do so, but after much urging I decided to try them. To my surprise in a few weeks I found myself getting better. I then gladly continued their use and found myself constantly growing stronger, and eventually able to do my household work without fatigue. I strongly advise every weak woman to give Dr. Williams' Pink Pills a fair trial."

You can get these Pills through any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

\$3,500,000 WILL BE SPENT BY C.P.R. ON FARMS FOR SOLDIERS

J. S. Dennis Amplifies Announcement Made by Lord Shaughnessy and Upholds Latter's Views on Enlistment, Transportation and Shortage of Labor in the West

The providing of employment for returned soldiers is a question that is demanding nation-wide attention, and it is with great satisfaction that Canadians learn that the Canadian Pacific Railway is to take action in this regard.

Mr. J. S. Dennis, assistant to the president of the C.P.R., has just returned to Calgary, and was asked details of the scheme planned by Lord Shaughnessy. Mr. Dennis replied:—

LORD SHAUGHNESSY'S DECISION

"The decision of Lord Shaughnessy to provide through the Department of Natural Resources of the Canadian Pacific Railway farm homes for our returned soldiers is a further proof, if any were needed, of his willingness at all times to devote his great energy and ability, and the resources of the company, to the solution of the problems facing Canada as part of the empire.

The extent and magnitude of the work of preparing 1,000 farms will be realized when it is noted that it involves: Building 1,000 houses; building 1,000 barns; constructing 1,300 miles of fence; digging 1,000 wells; breaking and cultivating 50,000 acres; the buildings will require about 20,000,000 feet of lumber to erect. The preparation of these farms will entail an expenditure of about \$3,500,000.

ENLISTMENT QUESTION

"One thousand farms will, of course, provide for an extremely small proportion of returned soldiers who will want to obtain farm homes, and the Dominion Government must adopt some general policy of providing these homes. However, the Canadian Pacific Railway has led the way in trying to solve the pressing and troublesome question and no doubt before long the Dominion Government will announce its general scheme.

AN IMMENSE PROJECT

"The enlistment of the 250,000 additional men called for by the Government will, of course, double the number to be taken care of after the war is over, and also causes a serious present problem. The western provinces have responded nobly to the call of the empire in enlisting men to fight our battles, and already there is a serious shortage of labor of all kinds, due to this enlistment. In the effort to meet this shortage, the Dominion government is now advertising in some 4,000 papers in the United States for 50,000 laborers to come west and help put in the crop this spring. They find that there is no chance of getting this number of men, and have announced that

from 2,000 to 5,000 is the greatest number that can be obtained.

SHORTAGE OF LABOR

"The recognition of this shortage of labor by the Department of the Interior, and the efforts they are making to meet the situation by bringing men from the United States is a contradiction of the statement made at a meeting in Montreal a short time ago by Gen. Sir Sam Hughes, Minister of Militia, that the enlistment of men in the west was not causing any shortage of labor, and is a proof, if any were needed, of the soundness of the policy of recruiting advocated by Lord Shaughnessy at the same meeting. Every true Canadian realizes that Canada must ultimately send her last man and spend her last dollar to enable the empire and her allies to bring the war to victorious termination, but why enlist men before they can be used.

TRANSPORTING TROOPS

"It is now recognized that under the most favorable circumstances it will be the end of the year before all the men now enlisted can be transported across the Atlantic, and after that date, at most, 10,000 men a month can be sent forward. Many of the battalions now authorized are very much below their full strength, and it will be many months before they will have succeeded in enlisting their full quota of men. Why then go on authorizing additional battalions and removing men from the useful employment of helping feed the empire or supply it with munitions until they can be utilized in the firing line?

WESTERN CANADA'S LOYALTY

"Of the men already enlisted, western Canada has provided much more than its share on the basis of population. As western Canadians we are proud of that fact, but why drive a willing horse off its feet, particularly when its energies can be utilized in the meantime to such great advantage in other ways, and it can be kept in good condition for the time when its full strength can be properly applied in the supreme crisis?"

Was Troubled With BOILS ALL OVER HIS BODY.

When the blood becomes impure the first symptoms manifesting themselves are a breaking out on some part of the body of various sorts of bad blood troubles, such as boils, pimples, abscesses, ulcers, etc.

How many times have you met a friend with a handkerchief tied around his neck, and have asked him: "What is the matter with you?" "Oh! I have a boil on the back of my neck; I guess I will have to take something for my blood."

The best blood cleansing remedy on the market to-day is Burdock Blood Purifier, and the speediest and most thorough method of expelling all the useless and corrupt matter from the blood is using this old and well tried remedy. It has been on the market for over forty years.

Mr. W. E. Cockerill, Galt, Ont., writes: "I was troubled with boils all over my body, and my blood was very bad. I tried all kinds of medicine and salves, but got no relief. I had to quit work, as I could not stoop to do any thing. My boss told me to use Burdock Blood Purifier, after I had told him I had tried nearly everything else. I got one bottle of B.B.B., and before I had finished it the boils were all gone. It is the best blood cleanser I have ever taken. I have told several others who were suffering with boils, and they all say it is great medicine. I am forty-seven years of age, but I feel like sixteen since I got rid of the boils."

B.B.B. is manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

TIP FROM THE GARDENER.

Many people make the mistake of setting dahlia roots in the ground upright. The plants never get a proper start when that is done. The right way is to plant the roots on their sides and to plant them deep, for shallow planting will result in poor growth.

Some growers make trenches ten inches deep and place the tubers in them, covering them with two inches of soil. As the plants develop, the trench is gradually filled until the ground is level. The old gardener says he likes this plan.

-this is what Studebaker COMFORT means!

Just look at that illustration a second time. Look at the roominess of this new Studebaker SERIES 17 FOUR—the individualized COMFORT that's built into the car for every one of the SEVEN passengers it carries.

Not a detail has been overlooked that will make the car easier-riding. The front seats, for example, are divided—and they are also adjustable—that is, they can be moved fore or aft to fit the passenger's wishes.

In the tonneau, roominess is especially evident—lots of room for five full-grown people. The rear seat is wide and deep and luxuriously upholstered with the finest straight-grain, semi-glazed leather. And everywhere roominess, convenience and a host of COMFORTS have been built into the car.

This new Studebaker is the most powerful 4-cylinder car on the Canadian market within hundreds of dollars of its price—the biggest car that any such price as \$1225 ever bought—but on COMFORT alone it stands as the GREAT value of the year. Come in and see this splendid "Made in Canada" Car.
