

## THE JOY OF BEING ALIVE AND WELL

Restored To Health By "Fruit-a-tives"  
The Famous Fruit Medicine

MDE. ROCHON

Rochon, P.Q. March 2nd, 1915.

"I have received the most wonderful benefit from taking 'Fruit-a-tives'. I suffered for years from Rheumatism and change of life, and I took every remedy obtainable, without any good results. I heard of 'Fruit-a-tives' and gave it a trial and it was the only medicine that really did me good. Now I am entirely well; the Rheumatism has disappeared and the terrible pains in my body are all gone. I am exceedingly grateful to 'Fruit-a-tives' for such relief, and I hope that others who suffer from such distressing diseases will try 'Fruit-a-tives' and get well."

MADAME ISABEL ROCHON.

The marvellous work that 'Fruit-a-tives' is doing, in overcoming disease and healing the sick, is winning the admiration of thousands and thousands. 50c. a box, 6 for \$2.50, trial size, 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

## Overseas Soldier Commits Suicide

Winnipeg, Man. March 31.—The Free Press publishes a despatch from Swift Current, Sask., stating that Gus Leiding, a private in the 209th Battalion, committed suicide, because, being a Mennonite, his family and fiancée deserted him when he enlisted.

## HOW I CURED MY EYES

This Free Prescription Did It.

"My eyes were in a terrible state; I could hardly stand it. They were red and inflamed, felt as though they had sand in them. They would ache and burn dreadfully and caused incessant headaches. I could hardly read at all. After wearing my glasses my eyes felt strained and overworked. By chance I met a man whose eyes had bothered him the same way. He gave me the following prescription, which he said had cured him, and had enabled him to discard his glasses: 5 grains of Bon-Opto in 1/4 glass of water. Use as an eye-bath by means of an eye-cup, three or four times daily—often if convenient."

"This healing, cooling, soothing lotion does not smart or burn, and is absolutely harmless. Your druggist can fill this prescription, or the Valmas Drug Co. of Toronto can fill it for you by mail."

"If you try it I am sure you will be just as enthusiastic over it as I am. Cut this out so you will always have the prescription."

A prominent City Physician to whom the above article was submitted, said: "Bon-Opto is a very remarkable remedy. Its constituent ingredients are well known to eminent eye specialists and widely prescribed by them. It can be obtained from any good druggist and is one of the very few preparations, I feel should be kept on hand for regular use in almost every family."

Acting Premier Murray admitted in the House the other day that Mr. A. R. Gould had made a claim against the province on account of the St. John and Quebec Railway. He intimated that the claim was based on the action of the Government in cutting off business and other relations with Mr. Gould, but he pretended not to know the amount of compensation which Mr. Gould thinks he ought to have. The chances are that the Government will not be kept long in the dark on this point.

I'm free to say;  
For many of the girls you meet  
Are so base.

## MR. DUGAL'S RESOLUTION ON STEWART RULED OUT

Government Supporters in the Legislature Stand Squarely Behind Boodling Member for Gloucester—Premier Clarke Upholds the Speaker's Ruling and Stewart Holds the Fort.

Premier Clarke led the House on Friday and he and his supporters stood squarely behind Albert J. H. Stewart, M. P. for Gloucester, when he supported the speaker's ruling that Mr. Dugal's resolution that Stewart was not a fit and proper person to sit in the House, was out of order.

When Mr. Dugal began to put his motion, Speaker Melanson rose and ruled that because Mr. Chandler's report was not on the table of the House his (Dugal's) motion was not in order.

Mr. Dugal immediately challenged the Speaker's decision in these words: "The report of Mr. Chandler has been before the House many times this session, and extracts from it have been read and answered by ministers. If my resolution is ruled out of order, what will the people think? I maintain that I am perfectly in order and that the resolution should go before the house."

Premier Clarke was leading the House, and he at once took issue with Mr. Dugal's statement claiming that as the report of Mr. Chandler was not before the House the motion reciting portions of it was not in order. He made some references as to the taste of the inquiries that had been based upon Mr. Chandler's report, and said that because they had been answered was no reason why Mr. Dugal's motion should be entertained.

As a matter of fact, the Chandler report has been quoted many times during this session. It was an accepted fact that the report had been laid before the people, and that is the final tribunal since it was handed out by Attorney General Baxter at the request and by consent of Premier Clarke last December. True, it has not been brought down in the House, and yet there was no reason why the first day of the session it should not have been. It was ready and it was a public document, one of the most important, and it belonged to the people.

"I am sorry for Premier Clarke," said one of his admirers after the House incident. "He should have kept a better record. To appear from a sick bed to protect a member who has been condemned so utterly by a royal commissioner of the reputation of W. B. Chandler, K. C., will not add to his reputation."

"What is New Brunswick coming to that such a quibble should prevent the Legislature from condemning Stewart and his actions? The report could have been laid on the table even today if the Premier had wanted to do what was right. The Premier and the members who whitewashed Flemming endorsed A. J. H. Stewart by their action today."

Mr. Dugal said afterwards: "I have done my duty and Mr. Pelletier and I can only regret that Premier Clarke asked the Speaker not to permit me to make my motion. When I appealed to the Speaker I am sure I was right, but when Premier Clarke asked him to stick to his ruling of course I was powerless. Some day there will be a change in this Legislature. I hope that men will see public matters in a different light."

It was rumored yesterday that the course adopted had been decided upon, but at the same time there was also a

statement that Stewart proposed to go down fighting, and he was going to speak on the resolution and tell some things that the Government would not like to hear. There was much uneasiness and the course adopted seemed the easiest way out. The very attitude of the Government supporters showed their relief and they evidently knew there would not be a rumpus.

After the resolution was ruled out there was open exultation on the part of many, but to the credit of others they seemed to regard the action of the government with greater seriousness. Stewart was in the House when Mr. Dugal rose to make his motion.

### Little Business.

The House met at 3.45 o'clock.

Capt. Tilley presented the report of the corporations committee.

The House went into committee of supply with Mr. Munro in the chair. On the item for \$12,500 for the Patriotic Fund, Capt. Tilley asked if that was the total amount the province proposed to give the fund this year. Hon. Dr. Landry said that last year the Government had promised to make a donation of \$25,000 to the fund payable by monthly instalments, and two such instalments were paid in September and October last. However, the Government had been informed that the fund was in need of assistance and to help it out paid \$12,500, half the donation, in a lump sum. The amount in the estimates was the balance which would be paid monthly.

On the item of \$25,000 for the Jordan Sanitarium, Mr. Lockhart asked if there couldn't be provided at the institution a few free beds.

Captain Tilley made a strong plea for free beds. He would be prepared to vote for the payment by the province of the entire cost of the upkeep of the institution if they would make the beds free. Mrs. Jordan's munificent gift was intended for the benefit of the sick and afflicted of all classes, but it appeared to him that only the well-to-do could go there. The institution did not appear to him to be very economically managed. A big staff appeared to be kept and salaries amounting to \$9,000 a year were paid to them. All for the sake of looking after a few patients. It would be far better to have them looking after 100 patients who needed treatment, even if the government had to pay the extra cost.

Mr. Carter said he thought that the institution was not doing the work it ought to do in the interests of the public. It seemed to him that the sanatorium was too exclusive. Some steps should certainly be taken to provide free treatment for the poor people.

Hon. Dr. Landry defended the work of the management of the institution and suggested that the members attend the meeting to be held by the commissioners in Fredericton next Wednesday.

## ANGUS W. McLEOD TELLS OF HIS LUCK

Friend Called And Told Him of Dodo's Kidney Pills.

He Found a Cure for Rheumatism That Crippled Him, and Has Never Since Had a Twinge of Pain in Limbs or Body.

Barboursville, Victoria Co., N.B., March 31.—(Special)—Cured of rheumatism that had crippled him, Angus W. McLeod, well known and highly respected here, feels it his duty to let everybody know that he found his cure in Dodo's Kidney Pills.

"Last fall," Mr. McLeod states, "I took sick with a severe attack of rheumatism. The rheumatic pains lodged in the small of my back and left hip."

"I could feel darts of pain shooting through my loins like shocks from a galvanic battery, and in two days I was a cripple. I was obliged to limp around with a stick and I looked slewed to the right side because I could not let my weight on my left foot."

"I suffered in this way for a week, when luckily a friend came to see me who recommended Dodo's Kidney Pills. Before I had finished the second box the pain was entirely gone."

"I have since been exposed to cold and wet every day, but I haven't had a twinge of pain in my body or my limbs."

Dodo's Kidney Pills cure rheumatism by removing the cause. They put the kidneys in shape to strain all the uric acid out of the blood. With no uric acid there can be no rheumatism.

## SAYS COM. TEED HAS NOT REPORTED

An enquiry in the House by Mr. Dugal on Friday in reference to the Teed investigation, elicited the following reply:

1. Has the government received the report of Commissioner M. G. Teed, K. C., who was appointed to inquire into the charges contained in the affidavit of E. C. Colby, formerly manager of the Concrete Constructions, Ltd., of Ottawa?

Answer—No.

2. If the government has not received a report, when does it expect it will be ready?

Answer—The Government will inform the House when it receives the report and has considered it.

Agricultural Officials.

Hon. Dr. Landry, in reply to Mr. Pelletier's inquiry:

1. Is there an arrangement with any or all railroads in the province whereby Agricultural Department officials get a special rate of one cent per mile?

Answer—No.

2. Are all expense accounts subject to departmental inspection and by the Auditor General?

Answer—Yes.

3. Has the Auditor General ever refused to pay an expense account of any official because it was, in effect, a duplicate account?

Answer—No. No duplicates of accounts have been presented for payment.

4. If so, what reason did he give for refusing to pay the expense account, and to what official did he refer?

Answered by answer to question 3.

The Crown Lands.

Hon. Mr. Morrissey, in reply to Mr. Pelletier's inquiry:

1. Who has been engaged to classify the Crown Lands of New Brunswick?

Answer—Mr. P. Z. Caverhill.

2. What are the terms of his engagement?

Answer—\$2,400 a year.

3. Where has he been engaged in forestry or other work for the last few years?

Answer—Mr. Caverhill, a native of this province, graduated in forestry at the University of New Brunswick, and for the last few years has been engaged in Forestry work in the province of British Columbia.

### Mr. McMullin's Position.

Hon. Mr. Murray, in reply to Mr. Dugal's inquiry on Thursday:

1. Who was Mr. McMullin, acting in the place of Mr. T. G. Loggie in the Crown Land Department last year?

Answer—When in 1908, because of the tragic death of the Deputy Surveyor General as a result of the operation of the financial system maintained by the previous government, Colonel Loggie was appointed to that position, Mr. McMullin, who then resided in St. John, was appointed to the place thus vacated, a position which he occupied from 1908 to 1913.

2. Did Mr. McMullin come originally from the province of New Brunswick?

Answer—The Government has no record of Mr. McMullin's birthplace, but Mr. McMullin can in all probability supply the information sought in this question.

3. Was it not possible to find a New Brunswick man who was capable of filling Mr. Loggie's position during his absence?

Answer—Because of the experience gained by Mr. McMullin during his service in the Crown Land Department, and his intimate knowledge of the work of the Department, the Government deemed it advisable to employ him during Colonel Loggie's absence from the Province.

If wives would continue to be sweethearts, most husbands would forget to pay their club dues.

All Pure Tea Free from Dust

Sealed Packets Only :-: Never Sold in Bulk

## GRUESOME STORY FROM THE TRENCHES

Vancouver, B.C., March 31.—An Irish baronet serving in France, writing to relatives in Canada, gives a most remarkable instance of the pranks played by a 5.9 high explosive shell.

A grave over which lay a huge slab fully six feet long and several inches thick, was completely turned over. The rotten timbers of the coffin had been torn open by the force of the explosion and the remains which it contained had been thrown into a sitting position against the upturned stone, the head twisted back and resting against the stone, slightly to one side on the right shoulder, the vertebrae of the neck having been snapped in the upheaval.

Here it set for several months before being reinterred. The date on the slab was 1814.

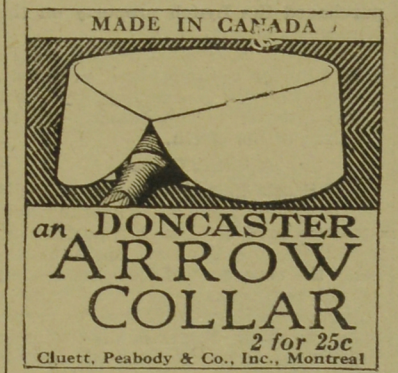

When the skeleton was first thrown up the shroud had retained its whiteness to a remarkable degree, though before being buried again the weather changed it to a dirty grey.

For a long period the uncanny sight was visible to the troops of both belligerents, and in fact occupied a central place in No Man's Land, the grim specter of battle after battle.

In a similar case the shroud encircling a body thrown up had been in the earth since 1848, but the fabric had retained its texture and appeared durable. So many corpses have been blown out of the ground in this manner that in many cases it was impossible to properly identify them when interred again.

## HOW PNEUMONIA STARTED AND HOW OFTEN PREVENTED

You catch a little cold today, and by tomorrow it has reached the throat, next day the lungs are affected and you wish you had used "Catarrhzone," which kills colds in five minutes. In the first place, Catarrhzone soothes the irritated membrane and relieves congestion—then it cuts out the phlegm and destroys the germs. It enables the blood to retain a natural supply of oxygen, lung-food, and vitality. In any cough, bronchitis or catarrh, it's guaranteed to positively cure. Beware of dangerous substitutes offered under misleading names for genuine CATARRHZONE, which is sold everywhere. Large size, containing two months' treatment, costs \$1.00; small size 50¢; trial size 25c.

## Personal Automobile Talks

Number 5

WHY IS IT IMPORTANT THAT ORDERS FOR FORD CARS  
BE PLACED AT ONCE ?

Up to and including March 10th, the Ford Motor Company of Canada had manufactured and shipped 144 more cars than it had produced in the whole season of 1915.

Notwithstanding this record production (by far the greatest in the British Empire), they are today 10,000 cars behind with their orders.

As the Auto season advances the situation will become worse. Consequently it is well to have your order booked now, and avoid an exasperating delay in June and July.
