REPORT OF THE N. B. ELECTRIC POWER COMMISSION SUBMITTED TO THE LEGISLATURE TUESDAY

The annual report of the New Brunswick Electric Power Commission for the fiscal year ending October 31, 1930, tabled in the Legislature here yesterday, tells of progress made and the start of the construction of the new plant at Grand Lake.

During the year there were placed in operation an additional 138 miles of distribution lines and 877 were added to the number of customers directly served by the Commission, bringing the total served up to 3,720. The Commission serves indirectly 14,590 customers, making the grand total 18,310. Fifty-two per cent. of the electrical meters in the province are on the Commission's system.

The southern system supplied in the year 28,075,500 k.w.h. of energy, of which 20,103,300 was generated at Musquash and 7,972,200 purchased from the New Brunswick Power Co. In the previous year the entire amount sold was 27,906,850, an increase for last year of 168,650 k.w.h.

A Gross Surplus

The operating account shows a gross surplus for the southern system of \$80,389.45, which after all charges and reserves have been provided for leaves a deficit of \$19,182.75; for the northern system there is shown an operat-

ing deficit of \$5,849.31, and after providing for reserves, a deficit of \$9,740.11; for the Port Elgin system, three months' operation, there is shown an operating deficit of \$429.83, and after providing for all reserves a deficit of \$792.14.

The investments of the Commission in plant at the end of October, 1930, amounted to \$4,264,525.82, an increase of \$275,296.23 over the preceding year. The service was maintained at high efficiency, with the exception of two serious interruptions east of Saint John, one due to lightning and the other to damage by wind to the transmission line.

The total precipitation as Musquash for the year was 43.64, compared with 51.26 for the previous year, and the power generated was 20,103,300 k.w.h., as compared with 21,260,100 in the previous year.

The amount of current used in each district served by the Commission was as follows: Saint John, 13,015,500; Moncton Tramway Electricity & Gas Co., 4,596,350; Canadian National Railways, Moncton, 3,805,875; Westfield, 1,774,730; River Glade, 445,800; Shediac-Dorchester, 733,400; Sussex, 653,000; Hampton, 145,600; Norton-Apohaqui, 68,900; Fair Vale, 42,800; Hillsboro-Albert, 94,380; Gagetown, 109,000.

REGISTRAR OF SUPREME COURT PASSES AWAY

(Continued from page eight)

barrister of that town. His early education was received at the common schools of Sussex and in 1900 he entered the U. N. B., graduating in 1903, after a brilliant course, with the degree of B.A. His studies did not cease with his graduation, and therefore it was not surprising that in 1906 he should be chosen a Rhodes Scholar for New Brunswick, being the second from the U. N. B. His course at Oxford was highly successful and soon after his return to New Brunswick he was admitted to the bar, practising at Sussex until three years ago when he was appointed registrar of the Supreme court and Deputy Attorney General, succeeding the late Dr. T. C. Allen, K.C. He discharged his duties in a most efficient manner and was held in high esteem by members of the bench and bar.

The deceased was forty-eight years of age, and is survived by his parents, Mr. and Mrs. J. A. Freeze of Sussex, a sorrowing widow and family of one daughter, Elizabeth and two sons, Ralph and Arthur all at home. One brother David resides in Vancouver and another George in Kansas City.

The funeral will take place at 2.30 o'clock on Friday afternoon with service at the Kirk apartments by Rev. G. W. Guion. Interment will be made in the rural cemetery extension.

The Premier's Tribute

Hon. J. B. M. Baxter, Premier and Attorney-General, this morning made the following statement:

"The death of my friend, Ralph St. John Freeze, is a distinct loss to the legal profession. From his entry into his present office he showed a familiarity with the work which made the transaction of business with his office easy and expeditious.

"Scrupulously careful in matters of detail, he was essentially fitted for his position while his extensive reading and cultured mind lent breadth to the treatment of all matters coming before him. The profession will deeply regret his passing, while, from a larger viewpoint, thousands of friends will think of him as a man who has died before his time, and who has left behind him a family to which he was deeply attached."

Party Budget

Both parties in the Legislature held caucuses following the sitting of the House last evening. The Government members considered proposed legislation, while the opposition was engaged in doing out some ammunition to be used in the budget debate.

Max Cormier, M. P., of Edmundston is a visitor to the city.

STOCK MARKET WAS IRREGULAR THIS MORNING

The stock market both in New York and Montreal was irregular and weak this morning due to excessive profit taking. Canada Dry sold at 37½. Cons Gas at 98, Radio 22½, U. S. Steel, 144½, Brazilian 25½, Nickel 18 and Montreal Power 60.

(Quotations by McDonald & Co., Members of the Montreal Stock Exchange, as furnished to The Mail daily by C. F. Tilley, Investment broker, 478 Queen Street, Fredericton, N. B.)

Heart and Nerves So Bad Was Unable To Sleep For Hours

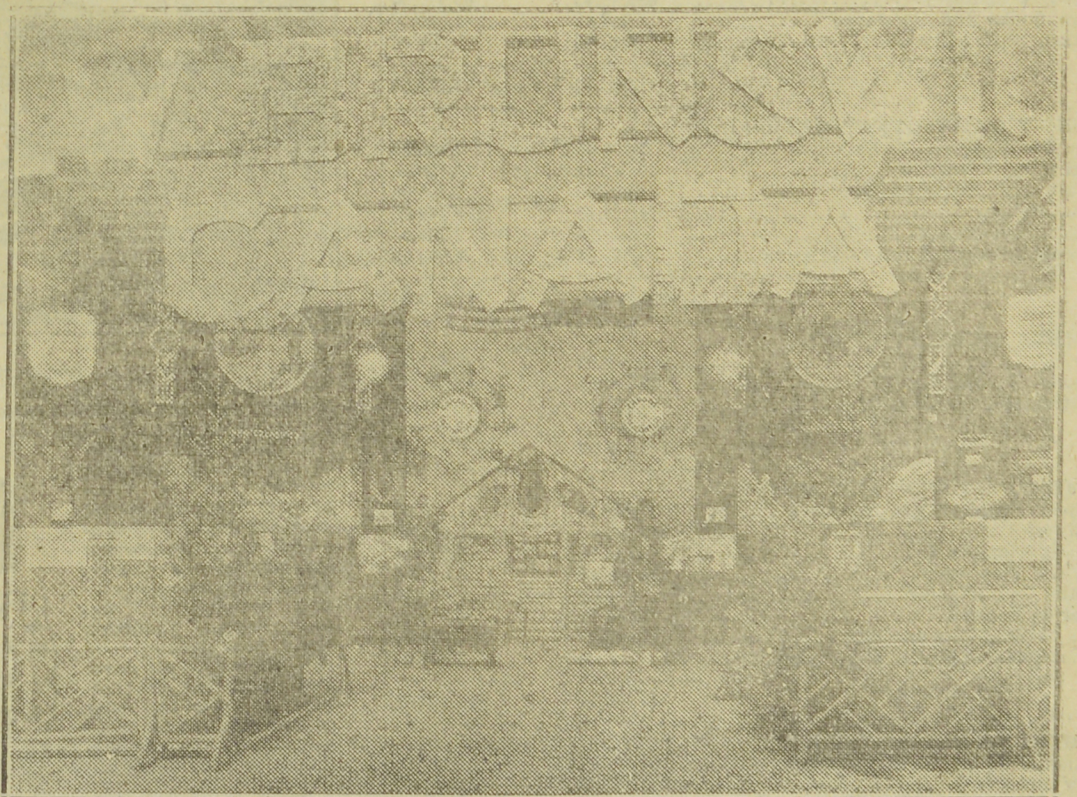

Price 50c a box

Sold at all drug and general stores, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

Miss Theresa M. Ravary, Gallington, Ont., writes:—"I was troubled, for almost a year, with my heart and nerves, especially on retiring at night when I would be unable to sleep for hours. I was easily fatigued, and became very excitable and irritable. A friend recommended Milburn's Heart and Nerve Pills and after taking them for a few weeks I could enjoy a good night's rest, and rapidly regained my former state of health."

CHARITY covers a multitude of sins. Evidently it is something like ginger ale.

THE NEW BRUNSWICK EXHIBIT AT THE PHILADELPHIA SPORTSMEN'S SHOW

New Brunswick Bureau of Information Photo.

This view shows the central features of the New Brunswick Exhibit at the Philadelphia Sportsmen's and Motor Boat Show. The New Brunswick Exhibit occupied more than 4600 square feet.

This picture shows the log cabin which was the central feature about which the exhibit was built.

The various recreational attractions of the Province of New Brunswick's resources, were alluringly depicted.
