HON. J. A. LEGER BROUGHT DOWN THE BUDGET IN THE HOUSE

(Continued from page three)

which was logical and proper. He could say that all members of the Senate recognized that the head of the college should be the head of the governing board.

HON. MR. RICHARD said he merely wished to remark that in other provinces where they had state universities the heads of these were in absolute control, and no other officer set over them.

MR. WHITE said as a government representative on the Senate of the U. N. B. for twenty four years, he felt he should say something. In the early history of the college the Chief Superintendent of Education had no chair at the Board at all, but when the late Dr. Crockett was Chief Superintendent of Education, a very learned and prominent educationalist, his presence was desired to strengthen the Senate Board, and that was the first introduction of the Chief Superintendent.

The bill was agreed to, also was a bill entitled "An Act to Amend the Schools Act."

The committee next took up consideration of a bill to amend an act

to provide for the incorporation of the New Brunswick Apple Exchange, Limited.

HON. MR. SMITH explained that the object of the bill was to correct an error which had appeared in the original act. The bill was agreed to.

MR. BORDAGE gave notice of inquiry for Friday next with reference to repairs being made to the Rexton Bridge.

Adjourned at 9.40 p. m.

Time flies, and spring soon will be here. 'Tis then, of all seasons, that Platonic love receives its severest test.

A growing curiosity is evident among New Yorkers as to what happens to the money after you place it in a bank.

All we can make of what the astronomers have found is that the universe has no jumping off place.

A woman's definition of a bachelor—a man who fell in love with himself when young and can't get over it.

33,117,314 Pieces is Long Laundry List

Can you imagine a bewildered Chinaman trying to total a laundry list of 33,117,314 pieces? But there is one like that. It is the total of washing done by and for the Canadian Pacific Railway Company in 1930, in Canada, including hotels and bungalow-camps; sleeping and dining car service, (which also operates station restaurants), and the British Columbia Coast boat service. If one stopped to sit down and figure out the gallons of water and bars of soap required for these operations, the results might be even more astounding.

The hotel, department owns 789,821 pieces of linen; the dining and sleeping car, service some 1,500,000 and the British Columbia steamships another, 247,000, making a grand total of, 2,536,821 pieces. These include all "flat-pieces", such as table-cloths, sheets, napkins, towels, pillow-cases, etc; the white coats worn by the company's servants in

the various departments, and, in the hotels, a certain amount of laundry, done for guests. In the hotels, too, blankets, bed-spreads, rugs, and so forth must be considered. Every piece of laundry handled becomes a laundry-piece each time it appears in the wash. Thus a single table-napkin may be a laundry-piece over and over again, according to the supply of linen needed and available.

The picture shows a battery of washing machines in the laundry of the Royal York Hotel, Toronto, the largest hotel in the British Empire. Similar equipment in the great chain of Canadian Pacific Railway hotels throughout Canada handles the great laundry list in various centres, with the assistance, in certain districts, of laundries outside the company's service. But the Standard maintained is the same everywhere, immaculate cleanliness being the motto from coast to coast, both ashore and afloat.
