NEW BRUNSWICK LUMBERMEN STRONGLY OPPOSED TO ACCEPTANCE OF OFFER FROM THE SOVIET

(Telegraph Journal)

Emphatic approval of the action of the Dominion Government in banning imports of coal, wood pulp, pulpwood, lumber and timber of all kinds, as well as asbestos and furs from Soviet Russia, was voiced last evening by representatives of the Provincial Government and the lumber and pulp industries of New Brunswick. Announcement of the embargo was made at Ottawa yesterday by Hon. E. B. Ryckman, Minister of National Revenue.

Perhaps the most striking comment obtained by The Telegraph-Journal was that Canada had set an example which might well be followed by Great Britain and the United States. A universal ban, it was believed, was the only effective method that would combat the serious Soviet menace to the economic life of the world.

Hon. C. D. Richards, of Fredericton, acting head of the New Brunswick Government in the absence of Premier J. B. M. Baxter, and Minister of Lands and Mines, expressed the hope that the action taken by Canada would strengthen the movement for a general ban on trade with Russia.

W. E. Golding, of Saint John, vice-president of George McKean & Co. Ltd., felt that Canada's action should help Great Britain to realize that the Soviet Government is stealing these markets through unfair and questionable means.

The following opinions were expressed to The Telegraph-Journal when those interviewed were acquainted with Canada's action:

Hon. C. D. Richards, Fredericton, Minister of Lands and Mines: "I am very pleased to hear that the Federal Government has taken such action. I think it is a proper move and one that will meet with general approval by Canadians."

"Great Britain and the United States should follow the example set by Canada. I cannot understand why English-speaking people should trade with Soviet Russia."

"Russia has ruined the Canadian lumber market in Great Britain and the United States and while the present action taken by the Canadian Government will not directly affect the lumber situation to any great extent, it will, I hope, have a great effect in strengthening the movement for a general ban on trade with Russia. In setting this fine example for other nations to follow, the Federal Government is to be congratulated. My personal opinion is that there should be a general ban against trade with Soviet Russia as long as that nation continues to produce their products in the way they are."

Mr. Golding

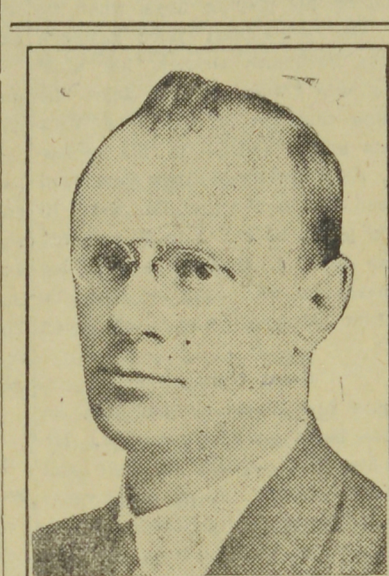

W. E. Golding, Saint John, vice-president of George McKean & Co. Ltd., and managing-director of the New Brunswick Railway Company: "That's fine! Let's hoist the Canadian flag right to the top. The moral effect it will have on Great Britain should be its most beneficial feature. Great Britain is Canada's big market for pulp and paper and timber. Rt. Hon. J. H. Thomas, Secretary of State for the Dominions, should be notified immediately of this action. It may help to wake them up in England to find out in time what Russia is trying to do. The sooner they are made to realize that the Soviet Government is trying to steal the markets, the better. There is no question, but that Russia is stealing these markets through the use of convict or conscript labor, a most detestable thing."

"While the Canadian Government is to be congratulated, I personally feel that The Telegraph-Journal is to be commended for the splendid attitude it has taken. It has not been a bit tongue-tied on the question that so vitally affects the economic situation of not only Canada, but the rest of the world."

Mr. Fraser's Views

Archibald Fraser, of Edmundston, president of Fraser Companies, Ltd.: "It is gratifying news to me. I did not see how Canada could trade

with Russia. I sincerely hope that Great Britain and the United States will follow the lead set by the Dominion as we need the lumber business that Russia is getting today from these two countries. At one time Great Britain was one of our best lumber markets and today we are not exporting anything to the Mother

W. E. GOLDING

Manager of the New Brunswick Railway Company

er Country in the way of lumber. By taking this timely action Canada has established a high standard of judgment that will go down in the annals of the country."

C. L. Fenderson, Jacques River, president of the New Brunswick Forest Products Association, vice-president and managing director of the Louison Lumber Company, and vice-president of the John Fenderson & Co., lumber merchants: "It will be of great benefit. Canada did right in taking such action. The greatest benefit to the pulpwood and lumber industries, however, can only come through similar action being taken by Great Britain and the United States. There is no doubt but that the success of these two major industries will depend on such action by these two countries, which were and should be today the greatest markets for Canadian lumber and pulpwood."

W. E. Anderson, Saint John, secretary of the New Brunswick Forest Products Association: "It will be a wonderful stimulant to the lumber and pulp industry in this province. It will give pulpwood operators encouragement to go ahead and develop their timber limits."

J. W. Brankley, Chatham, general manager of the Miramichi Lumber Company, a subsidiary of the International Paper Company: "Speaking not only as a lumberman but as a Canadian citizen, I am very glad and happy to hear that the Canadian Government has taken this action. I am strongly opposed to all dealings with Russia and think that any trade between this country and the Soviet Government should be stopped. Let the other English-speaking countries show their hand in such a commendable way."

MARYSVILLE BOY GAINS ATTENTION OF MARITIMES

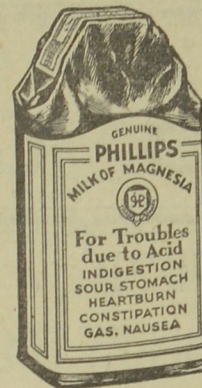

(Continued from Page Eight)

saw a real honest-to-goodness prize fight, could write so realistically on the manly art of fistfights and put such color and atmosphere in it, is beyond the imagination of the editorial department of McLean's. "The King is Dead," the story in McLean's written by this boy of sixteen, is receiving widespread attention all over the Maritimes and the various newspapers are carrying nice remarks about this budding author.

Quoting from the Halifax Chronicle, which carries a splendid editorial on the youth's literary debut: "If a lad of sixteen writes like this now, what will he do when experience and maturity are his?"

George St. Church

Services of worship at 11 a.m. and 7 p.m. Communion supper will follow the evening service. Fifteen minutes of song service at 6.45. (With the use of lantern slides.)

**When Food
SOURS**

About two hours after eating, many people suffer from sour stomachs. They call it indigestion. It means that the stomach nerves have been over-stimulated. There is excess acid. The way to correct it is with an alkali which neutralizes many times its volume in acid.

The right way is 'Phillips' Milk of Magnesia—just a tasteless liquid. It is pleasant, efficient and harmless. But it kills excess acids. It has remained the standard with physicians for more

than 50 years.

It is the quick method. Results come almost instantly. It is the approved method. You will never use another when you know.

Be sure to get genuine Phillips' Milk of Magnesia prescribed by physicians for over fifty years in correcting excess acids. 50c bottles—any drugstore. The genuine is always a liquid—it is never made in tablet form. So look for the name Phillips on wrapper and bottle.

"Made in Canada"

STOCK MARKET WAS BEARISH THIS MORNING

As the result of heavy profit taking the stock market had a bearish tone this morning. Cons. Gas sold at 99%, Radio at 25%. U. S. Steel at 147%, Vanadium at 66%, Brazilian at 26%, Montreal Power at 61½ and Nickel at 17.

SIR CHAS. ROSS GETS FREEDOM UNDER BOND

Washington, D. C., Feb. 27—Sir Charles L. Ross, millionaire Scotch baronet, posted \$60,000 bail here today and was released after being taken into custody in a main tenance suit by his wife, Lady Patricia Ross.

He was arrested yesterday, but unable to furnish the high bond on short notice, spent last night under guard in a Washington hotel.

Lady Ross, daughter of Andrew Ellison of Louisville, Ky., and Sir Charles were married in 1901. In 1924 he brought suit for divorce in Kentucky, but the courts there refused to entertain it because of his foreign citizenship. He obtained a divorce in 1928 in Mexico.

Lady Ross last year instituted divorce proceedings in the British courts, charging he had become infatuated with a New York woman. The litigation was not ended until taken to the House of Lords, which rendered a decision favoring Sir Charles.

Lady Ross in her maintenance suit said Sir Charles was a multimillionaire with extensive holdings of land in Scotland, Canada and the United States. Sir Charles said he established a trust fund for his wife years ago under which she receives \$55,000 a year.

ing and beautifying their homes and gardens. The work will be carried on again this year with the usual enthusiasm.

SPUD MARKET IS VERY DULL

Hartland, Carleton Co., Feb. 27—Today's potato market was very quiet with light wire enquiry and demand from Canadian consuming centres only, carlot loadings at a minimum and prospects none too bright. Haulings by farmers are as heavy as at the first of the week. Prices remain at 40 to 45 cents a barrel for Irish Cobblers and 60 cents for Green Mountains, a few choice lots bringing five cents more Canada grade one.
