VOL. XXXVII., NO. 82

FREDERICTON, N. B. TUESDAY, APRIL 7, 1931.

TWO CENTS PER COPY

To Use Per Centage Of British Flour in Old Country Bread

**Reported Scheme of the Government is Receiving
Unstinted Praise From the Conservatives, But
Liberals Are Suspicious—Beaverbrook's Paper
Pleased With It.**

LONDON, April 7—The Government's reported scheme by which fifteen per cent. of British flour will be used in all loaves baked in Britain is receiving unstinted praise from the Conservatives, but is regarded with suspicion by the Liberals.

Lord Beaverbrook's Daily Express and the Tory Morning Post are both eloquent in their approval, but the Liberal Manchester Guardian stresses the difficulty of working out a detailed plan. The Guardian says it will be surprising if the Chancellor of the Exchequer, Rt. Hon. Philip Snowden, comes round to the acceptance of the quota idea and that it is incredible he should believe it would make no difference in the price of bread.

EXCITEMENT IN PORTUGAL OVER REVOLT

**Political Deportees Are
Blamed for Outbreak
In Madeira.**

Lisbon Portugal, April 10—President Carmona's Government, in a statement issued tonight, definitely saddled the responsibility for the revolt in Funchal, Madeira, upon political deportees*, who had been permitted to take up residence there.

The Cabinet has been in extraordinary session since Saturday when troops at Funchal mutinied, but tonight's statement was the first official comment.

"The Government," the statement said, "has received telegrams from officers of the Funchal garrison saying that they were obliged to discharge special delegates and other officials and were disinclined to execute orders from the central Government."

"This act of insubordination was supported by political deportees who, on pleas of poor health, were allowed to take up residence at Mareira."

Heads Expedition

"During the inability of Colonel Silva Leal to carry out his duties, the Government has appointed Colonel Fernando Borges special delegate commandant and commander-in-chief of the forces which sailed for Funchal today to establish order."

The statement said that there were no repercussions in the Azores from the disturbances.

Meanwhile there came news that the gunboat Tamega, on duty at Funchal, had been turned over to the rebels by the crew.

News of the rebellion had caused galconderable excitement in Portugal and although the Government has asserted its confidence in the loyalty of the army, a feeling of nervousness is apparent.

PEPY'S PORRINGER SOLD

London, April 7—A silver porringer which was worth approximately \$90 when Samuel Pepys, the famous diarist used it, was auctioned today for approximately \$7,500.

Monologue: married couple "discussing" the family upstairs.

REGULATIONS TO PROTECT THE FISHERMEN

Ottawa, Ont., April 6—The chief purpose behind the restrictions placed up the salmon fishing in New Brunswick is to protect the fishermen in their own permanent interest, declared officials today, when asked in reference to the new regulations governing salmon fishing in the Bay of Fundy. The earlier running salmon were usually the most eagerly sought after, and consequently vast numbers were taken, with consequent threat of depletion.

The imposition of a license fee of not less than \$1 merely applied to the whole of New Brunswick a regulation that had been in force in the Miramichi district for a number of years.

The time limit, it was said, did not restrict actual operations beyond a few days since fishing usually began in the last week in May. To delay the opening of the season until June 1 was not considered any handicap upon the Bay of Fundy fishermen.

AND THE SHOCK WILL KILL US!

New York, April 7—The Bureau of Street Traffic Research at Harvard has put out a manual in an effort to elevate the conversation of traffic cops.

The purpose is to induce the cops to "cut out the rough stuff and talk English."

"Whadda ya think your driving—a fire truck?" and "This ain't no speedway, lady," are looked upon as bad form.

The proper approach, the manual says, is for the officer to say, "I'm very sorry sir but you were driving forty-five miles an hour and I will be obliged to give you a summons."

Doubtless officers throughout America will hail this suggestion with delight and put it into immediate effect.

Beirut, Syria, April 7—An unusual caravan, consisting of Jencia Terpillar motor cars, started a 5,000 mile trek across Asia to Peiping, China, by way of Bagdad, Teheran and Pamirs. The expedition consists of 40 Frenchmen and one American, representing the National Geographic Society.

BIG SUMMER TRAVEL IS LOOKED FOR

**The C. P. R. Is Keeping
the Attractions of the
Maritime Provinces Be-
fore the Public.**

Saint John, N. B. April 7—The attractions of the Maritimes are being kept before the public in Canada and the United States and heavy summer travel is expected to develop as a result of the improved facilities provided by the Canadian Pacific Railway according to George E. Carter, assistant general passenger agent, C. P. R., of Montreal, and formerly district passenger agent, Saint John, who was in Saint John today.

"The Bay of Fundy steamer Princess Helene will have her first full summer season this year, and, with the opening in June of the Lakeside Inn, new C. P. R. hotel at Yarmouth, N. S., a heavy tourist movement through Saint John is expected from both the United States and Upper Canada."

The New Empress

"Important parties are also expected to visit the Maritimes this summer," Mr. Carter continued, "and, in addition, travel to Canada generally, the Maritimes included, will be stimulated by the addition of the magnificent new 42,500 ton liner Empress of Britain, which will make her maiden voyage at the end of May."

"Other recently opened C. P. R. hotels in Nova Scotia, the new Cornwallis Inn, at Kentville, and The Pines, at Digby, are becoming well known throughout Canada and the United States, and increased tourist travel to these resorts is expected through the improved Bay of Fundy service."

The excellent fishing to be found in New Brunswick and the pleasures of holiday making in the many country resorts of this province are other features that are expected to draw many visitors to the Maritimes during the coming season."

PLAYING STOCK MARKET MAKES POOR JUDGES

Philadelphia, April 7—Judges who play the stock market are poor judges. At least that is the opinion of Judge Leopold C. Glass, of the Juvenile Court.

"When judges commence playing the stock market, trouble usually follows," the jurist declared. "When a judge looks in his morning paper and sees his stocks have taken an awful wallop, he can't be impartial because he is worried about his losses."

EARTH SHOCK HAS EXPERTS BAFFLED

San Francisco, April 7—Although residents in various parts of the city reported that tables rocked and dishes rattled, seismographs at the Santa Clara University and the University of California failed to register an earthquake shock last night.

Gas company authorities and police investigated a possibility of an explosion, but reported that the ground nothing.

REFUGEES FROM MANAGUA AT BALBOA

**200 Americans Safely
Removed From The
Stricken City**

LOST THEIR POSSESSIONS

**Transports Made Quick
Trip to Balboa From
Corinto**

(Special to THE DAILY MAIL by the British United Press.)

Balboa, Canal Zone, April 7—The Transport Chamoun, carrying most of the group of about two hundred American women and children removed from the earthquake stricken city of Managua, debarked its passengers here today after a quick trip from Corinto.

The decks of the ship were crowded with coats which the refugees had used on the trip. Some of them were suffering from minor injuries and others were still weak from the rigors of their days in Managua, but many of the refugees were brisk and cheerful despite the loss of most of their possessions in the devastating Nicaraguan capital.

THE POTATO MARKET IS NOW QUITE ACTIVE

Hartland, Carleton Co., April 6—Today's potato market was fairly active, with good wire enquiry and demand and carlot loadings on a good average. Haulings and offerings by farmers were only moderate, country roads not yet being clear of snow. Prices show no change, 90 cents to \$1 for both Green Mountains and Irish Cobbler, Canada grade one.

Carloads of New Brunswick potatoes arriving on the principal Canadian consuming centres for the period ending April 2 were: Saint John, two; Quebec, one; Montreal, 31; Ottawa, three; Toronto, five. Exports for the same period via West Saint John were 20,213 sacks. Storage stocks of potatoes in Canada for the same period were 76,763 tons, compared to 80,421 tons the same date one year ago.

WILL DECIDE FATE OF BIG BILL TODAY

(Special to THE DAILY MAIL by the British United Press.)

Chicago, Illinois, April 7—Anton J. Cermak, who fought his way up from the coal mines, engaged Bill Thompson, "the old master", at the pools today with the mayorship of Chicago as the prize.

The issue lay in the hands of a million or perhaps more voters who before nightfall must decide whether the cowboy Mayor wins a fourth term as chief executive of the city has dominated for 12 years or is turned out of office.

GANDHI WILL VISIT THE U.S.

(Special to THE DAILY MAIL by the British United Press.)

New Delhi, India, April 7—The Mahatma Gandhi, leader of millions of Indians in their independence movement, was understood today to have decided to visit the United States after conclusion of the second London Round Table conference.

Will Celebrate Great Canadian Victory at Vimy

**Fourteenth Anniversary of Notable Battle of the
Great War Falls on Saturday Next—Members
of the Canadian Legion to Inspect Memorial at
Arras.**

PARIS, April 7—Arrangements have been completed for an elaborate celebration on the fourteenth anniversary of April 9th, the day the Canadians captured Vimy Ridge.

On Thursday, Hon. Phillipe Roy, Canadian Minister to France, accompanied by twenty-five members of the Canadian Legion, will proceed to Arras to inspect the memorial, while Madame Roy will place a wreath in one of the Canadian cemeteries.

The Legion members will make an automobile tour of the various battlefields where Canadians fought fourteen years ago, including Bourlon Wood and Courcellette. The party will be headed by General Brutinel.

LADY TEACHERS AT SACKVILLE YESTERDAY

Sackville, N. B., April 6—The party of British headmistresses who arrived on Saturday for a tour of the Dominion were visitors at the Mount Allison Institutions today. They arrived in Sackville at 1 p. m., and were entertained at luncheon at the residence of Senator and Mrs. F. B. Black.

Afterward they were escorted to the Mount Allison campus and shown through the various buildings. The visitors were impressed with the three units, the University, Lady College and Academy, and had especial praise for the art school and the household science department.

This afternoon the visitors were guests of Mrs. Josiah Wood at tea, and this evening a dinner was given in their honor by the faculties of the three institutions.

QUEBEC MAY HAVE ELECTIN ON JUNE 22

Quebec, April 6—The call to arms in Quebec's 1931 election battle is expected very shortly and Premier L. A. Taschereau today stated that June 22 would be a "suitable day" for the people to choose the members of its eighteenth Legislative Assembly since Confederation.

No official announcement has been made yet as to the date of the elections. The Legislature prorogued on Saturday night.

The coming battle will be the first in which the Conservatives will be led by Hon. Camillien Houde, Mayor of Montreal, who about two years ago succeeded Hon. Arthur Sauve, now Dominion Postmaster General, as party leader in the province.

THE KING HAS BRONCHITIS

(Special to THE DAILY MAIL by the British United Press.)

Windsor, Eng. April 7—King George is suffering from sub-acute bronchitis, an official statement issued at Windsor Castle said today. The statement said he is, however, progressing slowly but satisfactorily.

S.S. PRINCE ROBERT IS EN ROUTE NORTH

(Special to The Daily Mail)

Halifax, N. S., April 7—Nearing home from the Argentine aboard the Canadian National liner Prince Robert, which also took them south the Canadian Good Will and Trade Mission delegates yesterday morning had the thrill of meeting another Canadian liner at Port Au Spain, capital of the tropical British Island colony of Trinidad, despatches show. As the Prince Robert entered the Trinidad port, the C. N. S. Lady Drake with passengers and freight from British Guiana bound for Canada also steamed into dock. The Lady Drake was to sail at ten o'clock yesterday morning an hour before the departure of the Prince Robert since the latter has a higher cruising speed rate she will overtake the Lady Drake and once again the two Canadian liners will exchange salutes. Both are bound for Halifax the Prince Robert being due there at noon Saturday and the Lady Drake after making various calls, April 22nd.

UNDERTAKER PREDICTING MORE BUSINESS

London, April 7—One of Britain's morticians has courted a peck of trouble by publicly expressing the view that "this year I can safely predict more business." The individual in question, president of the Southampton branch of the British Undertakers Association, was addressing his fellow craftsmen when he expressed this view, which quickly prompted the reply in an editorial note in a London evening newspaper, "Not if we can help it."

So far discussion of the mortician's remarks has produced no public support for the idea that even undertakers are entitled to hope for better times. It is argued in numerous quarters that if they entertain such hopes they should not do so openly.

Obviously, no radio announcer has yet come across Mr. Webster's definition of "croon" as "a hollow continued moan; as cattle in pain."
