

## FIGHTING GERMANS AND TURKS.

Russian Official Report of Operations in Galicia and Carpathians.

Petrograd, Sept. 9.—German and Turkish troops are engaged in stubborn fighting with the Russian forces in Galicia, in the direction of Halicz, according to the official statement issued today by the Russian War Department. A counter attack made by the Turks and Teutons, the statement added, was repulsed.

In the Carpathians, south of Barano, the Russians stormed a series of hills.

They took 500 prisoners, and captured a mountain battery of several cannon which had been thrown into the ravines.

## CALIFORNIA BEES ARE FORM OF YEAST PLANT

"Bees beer" has enjoyed an extensive local popularity for some time. The following in the Boston Globe tells what are "California bees."

The so-called "California bee" is a yeast plant, a form of fungus which is composed of cells and which will go on increasing by budding for an indefinite period if placed in a saccharine liquid, converting the sugar into alcohol and carbonic acid.

A chemist says: "If you have a hop yeast cake which has become dry, break off a small piece in a bottle of water; let it remain over night. In the morning there will be a slight movement in the water. Put in a little molasses or sugar, and the work will soon commence, and you will be in a fair way to have a yeast plant; that is, California bees."

The fungus is variously known as California bees, Italian bees, cider bees, wine bees, etc.

## BULGARS AND HUNS

## CLAIMING SUCCESS

Berlin, Sept. 9 (by wireless).—Correspondents with the Bulgarian and German forces which are invading Roumania report that along the Black Sea coast an advance of 80 kilometress (about 50 miles) beyond the frontier already has been made.

They express the opinion that the progress of the invaders, who have occupied several important positions on the coast and elsewhere in Dobrudja, explains the irresolution and comparative inactivity of the Roumanian forces which, having invaded Transylvania, are now merely sending out small detachments to reconnoiter.

Not only Roumanians, but Russians, have been defeated by the Bulgarians in Dobrudja, the correspondents say, and this destroyed the legend that Bulgarians will not fight Russians.

## PARTICULARS OF THE NEW WAR LOAN

Ottawa, Sept. 9.—It was announced officially here today that the prospectus for the new Canadian war loan would appear in all the press throughout Canada on Tuesday next, the 12th inst. The issue will be one hundred million dollars, of fifteen year 5 per cent bonds, maturing Oct. 1st, 1931.

Principal and interest will be payable in gold. The principal will be payable at the several offices of the Assistant Receivers General throughout Canada, and the interest at any branch in Canada of the chartered banks.

The issue price will be 97½. Payments may be made in instalments extending over October, November and December.

## SOUTH AFRICAN NATIVES FOR DOCK LABORERS

Pretoria, South Africa, Sept. 9 (via London).—Louis Botha, Premier of the South African Union, announced today that an arrangement had been made to send 10,000 natives to France for dock labor. The natives will be recruited voluntarily and will be organized into five battalions of two thousand men each, under military discipline, with trusted officers.

Each battalion will have a chaplain and its own medical officers, while a fully equipped hospital will be provided for the contingent.

General Botha said the scheme was the result of a request made by the natives to be allowed to assist in Europe as they had done in German Southwest Africa and German East Africa.

## ILL-FATED ZEPPELIN'S CAPTAIN.

Had Received Iron Cross for Various Raids Over France and England.

Esbjerg, Denmark, Sept. 9.—The Courier, of Hanover, Germany, says the commander of the airship which was brought down in England during the raid a week ago was Capt. Schram, a native of Hamelin, Prussia.

The captain received the Iron Cross of the first class for various raids over Nancy, Dunkirk and England.

Love may be blind, but it's always the first to see its own finish.

## -this is what Studebaker COMFORT means!

Just look at that illustration a second time. Look at the roominess of this new Studebaker SERIES 17 FOUR—the individualized COMFORT that's built into the car for every one of the SEVEN passengers it carries.

Not a detail has been overlooked that will make the car easier-riding. The front seats, for example, are divided—and they are also adjustable—that is, they can be moved fore or aft to fit the passenger's wishes.

In the tonneau, roominess is especially evident—lots of room for five full-grown people. The rear seat is wide and deep and luxuriously upholstered with the finest straight-grain, semi-glazed leather. And everywhere roominess, convenience and a host of COMFORTS have been built into the car.

This new Studebaker is the most powerful 4-cylinder car on the Canadian market within hundreds of dollars of its price—the biggest car that any such price as \$1225 ever bought—but on COMFORT alone it stands as the GREAT value of the year. Come in and see this splendid "Made in Canada" Car.

## Opposition Platform

The following platform was adopted at the Opposition Convention held in St. John recently:  
In the event of the Opposition being returned to power, we pledge ourselves:—

## NO PARTIZAN CONTROL OF CROWN LANDS.

1. We pledge ourselves to completely reorganize the Crown-Lands Department, so that its administration shall be entirely severed from politics and administered on sound business principles under systematic plans by a non-partizan commission specially appointed for that purpose, responsible to the Legislature and working in co-operation with the Dominion Commission of Conservation.

## TAKE THE HIGHWAYS OUT OF POLITICS.

2. We pledge ourselves to take the highways out of politics, giving the expenditure of the money collected from the people and the control of the labor, together with the Government appropriations, into the hands of supervisors, chosen by the people of each parish, to whom a detailed and audited account must be rendered every year at the annual meeting, and a duplicate thereof forwarded to the Department of Public Works, the work of the supervisors to be under the inspection of a competent provincial engineer.

We also pledge ourselves to set aside the money collected from the licenses upon automobiles and other motor vehicles, together with an equal appropriation from the revenues of the Province each year, to pay the interest upon the bonds to provide for permanent roads, which shall be constructed as rapidly as possible.

## PROHIBITION PROVINCE WIDE.

3. We pledge ourselves at the first session of the Legislature to pass a law prohibiting the sale of intoxicating liquors within the Province to the fullest extent allowed by the Constitution, and within three months after the passage of said Act to submit the same by referendum to the electors of the Province, and should the majority of votes cast be in favor of the said law, then to bring the same into force by proclamation within one year thereafter.

## ELECTION LAW.

4. (a) To amend the electoral law so as to make it impossible for members of the Legislature to traffic with the Government and still retain their seats.

(b) To make it possible for young men, when they reach the age of 21 years, to register their names and be placed forthwith upon the voters' lists, instead of waiting for the tedious machinery of revision as it now exists.

(c) To divide the counties into electoral districts which shall each be represented by one member.

(d) We will also consider amendments to the election law to make bribery in municipal as well as provincial elections impossible.

## PROVINCIAL FINANCES.

5. To obtain at once a correct statement of the financial condition of the Province in order that the people may have definite knowledge of the vastly increased public debt and the enormous obligations of guaranteed bonds they will be called upon to pay; and to so reduce the cost of the administration of affairs and the number of useless officials as to avoid the necessity for direct taxation now confronting us.

## AGRICULTURE.

6. To give the farmers all the practical assistance that the resources of the Province will permit, to improve agricultural methods and the quality and quantity of the stock upon the farm; to reduce the enormous salary list in the department, and to spend the educational grant received from the Federal Government without regard for political patronage.

## VALLEY RAILWAY.

7. To complete the Valley Railway from a point on the Transcontinental Railway at or near Grand Falls, to St. John, and insist upon the Dominion Government carrying out the terms of the original legislation and allow the Province forty per cent. of the gross earnings thereof.

## EDUCATION.

8. To always maintain and improve the educational service of the Province and to co-operate with the Federal Government in carrying out the recommendations of the commission upon technical education.

## IMMIGRATION.

9. The inauguration of a vigorous immigration policy to properly place before intending immigrants, whose number will be large after termination of the war, the advantages of the agricultural possibilities of New Brunswick.
