Fanatical Mobs Have Set Fire to Convents and Churches and a Number Were Burned—Martial Law Being Strictly Enforced in Madrid and City is Calm.

MADRID, May 12—Anti-religious hatred which flared in Madrid spread rapidly through the provinces today, fanatical mobs setting fire to convents, churches and other religious institutions. Martial law was declared in Alicante and Cadiz. A mob set fire early today to the Jesuit convent, the Episcopal Palace and the building housing the newspaper El Union Mercantile in Malaga.

At Cadiz convents of the Carmelite and Dominican Orders were burned. The mob, shouting and dancing about the flaming buildings attacked during the dark hours before dawn.

Destructive Tactics

Demonstrators who began attacks on the property of religious orders at Alicante continued their destructive tactics through the night and early today there. Seven buildings in Alicante were burned.

Martial law enforced in Madrid maintained calm during the night. Heavy patrols guarded the capital's streets and police prevented further outbreaks early in the day. Seven religious buildings, including convents, were burned during the riots which yesterday broke out in widely separated sections of the city.

The anti-religious riots in Madrid inspired similar demonstrations in the provinces.

CONFIDENT NEW LOAN TO BE OVER- SUBSCRIBED

Premier Bennett Sounds An Optimistic Note at Banquet in Montreal.

Montreal, Que., May 11—Enthusiastic appreciation of the magnificent response of Canadians of all classes to the new conversion loan and his confident expectation that the amount of \$250,000,000 will be over-subscribed, were voiced here tonight by Premier R. B. Bennett.

Giving expression also to his belief that there were evidences that the "dead level" of depression had been reached "and the movement from now on will be upward," the Prime Minister asked for a "clear conception of the situation west of the Great Lakes." With this appeal, however, he declared his disagreement with any suggestions that captains of industry in the east lay awake at night "to see how they could ensnare the unwary farmer of the West."

The Prime Minister spoke at the annual banquet of the Canadian Manufacturers' Association. Manufacturers in every branch of industry from the Atlantic to the Pacific, the presidents of the two great railway systems, financiers and business men in varied walks of life heard his utterances and applauded his words of optimism.

Much Impressed

"I have been much struck with what has been happening in this country today," Premier Bennett stated. "Today we asked the Canadian people to exchange the securities which they had received for the money they advanced to the Government several years ago for newer securities at a lower rate of interest, in order that they may continue to be investors in the Dominion of Canada, and the magnificent response they have made indicates that Canadians of all classes, regardless of the province in which they live, are anxious and desirous and willing to do what they can to assist in the development of this country, and to remove from the horizon what every Finance Minister must look at with alarm, the matter of providing vast millions of dollars for these securities at an early date."

STAGE IS WITHOUT LURE FOR CHAPLIN

London, England, May 12—Charlie Chaplin will stick to the silver screen. Not even the invitation or "command" of Britain's King and Queen will lure him to the stage.

The Evening Standard recording an interview with Chaplin at Juan Les Pins, France, said today that Chaplin had refused a royal command invitation to appear at a coming benefit vaudeville performance soon which the King and Queen will attend.

"I don't appear in public that way," the newspaper quoted Chaplin. "The last thing in the world I want to do is to make a stage appearance. It would be bad taste."

The Evening Standard said that Chaplin was sending a check that Chaplin was sending a check to the benefit, which has been arranged by a royal committee for aged and disabled vaudeville artists.
