

PRESS ACCOUNT OF WARFARE ALONG BORDER

Portland Paper Carries Brevity of 100-Year-old Happening—Prisoners Were Lodged in Local Gaol.

The Portland Press-Herald in its column "History From Our Files," carried an account of an interesting event which happened one hundred years ago, and concerning strife at that time along the border, and with particular reference to Fredericton, where several prisoners were lodged.

The account reads as follows: "Trouble has arisen between the British and Americans at Madawaska. By an act of Legislature in August, inhabitants of Madawaska organized as a town corporation British authorities demonstrated and threatened those attending the meeting. An election was held in September. The governor of New Brunswick with 20 canoes filled with men, arrested all they could find who had taken part in the town meetings. Some had fled to the woods when the canoes were discovered approaching. Prisoners included David Savage, selectman; Jesse Wheelock, townclerk, Banabas Hunnawell, moderator and Daniel Bean, were taken to Fredericton and lodged in gaol."

Thought there may be few who are old enough to remember back that far living here today, some today may recall the stories of their forefathers about those stirring times of international flareups.

CITY AFFAIRS

Was Re-elected

In the municipal election in the Parish of Simonds, the county of St. John, Robert McAllister, M. L. A. elect was re-elected with 327 votes.

A Run of Salmon

The water in the Nashwaak River at Marysville is now falling, and there is a good run of salmon on, but few are trying to get through the gate of the dam, a further drop of water is necessary before complete repairs can be made to the temporary fishway.

The River Falling

The water in the Saint John River fell three inches last night, but today appears to be on a standstill. It is now about six feet above the summer low level, which indicates that there will be an abundant water supply during the coming winter.

Educational Talk

Prof. J. P. Day, B.A., B.Sc. D. Phil., of McGill University, will be the speaker for the national council of Education in a coast to coast broadcast on Friday evening. His subject will be, "What is Happening to the Gold Standard?" Station CFNB of this city will be in the hookup which begins at 10.45 p.m.

In Cold Storage

The police magistrate is not a bird shooter but yesterday he had turned over to his custody fifteen woodcock and a nice hammerless shot gun. It was a real shower, but he has placed the birds in cold storage to await further developments. This is the biggest bag of game birds he has made in all his experience as Police Magistrate.

That Bird Shooting Case

R. W. Tufts of Wolfville, N. S., chief Migratory bird officer for the Maritime Provinces, is expected here on Thursday to prosecute a charge of exceeding the bag limit on Woodcock preferred again a prominent local bird shooter. Officials of the Department of Lands and Mines have wired Ottawa for permission to engage counsel should it be found necessary. The case has aroused a great deal of local interest and the outcome is awaited with speculation. A shot gun valued at \$150 and the seized birds have been turned over to Police Magistrate Limerick, but up to noon today no complaint had been lodged with him.

A DRIVE FOR CITY TAXES TO BE MADE SOON

A Large Amount Now Outstanding—Original Program of Sidewalk Construction to be Carried Out.

The City Council will complete its program of sidewalk construction as originally mapped out last spring. This was decided upon at an informal meeting held in the Committee room of the city hall last evening. The Construction work will include a new sidewalk on the west side of York St. between King and Brunswick Streets. His Worship the Mayor, who owns most of the property on this block, assured the committee that he had no objections to a sidewalk being laid down, but favored delay in order that he would have an opportunity to have the foundation of a brick building examined and repairs made if they were found to be needed. It is understood that work on this sidewalk and others will be started without delay.

To Collect Taxes

It is understood that a drive will be made at once to collect overdue taxes. The total amount outstanding is in the vicinity of \$136,000 and it is claimed that a good proportion of it is collectable. Considering the business depression the financial position of the city compares very favorably with last year. There is a bank overdraft of about \$35,000, but the council recently prevailed upon the bank to reduce the interest rate from six to five and one half per cent. This is the rate now charged provincial governments in the Maritimes.

Men are now at work laying a new concrete curbing on King Street between Saint John and Church Streets. The work of laying a curbing on George street above Northumberland has been completed. Paving work is being proceeded with on the Woodstock Road, but it will not likely be extended above the Bailey Bridge this season.

Given Liberty

Frederick Buchanan, 22, of Marysville, was given his liberty yesterday, with a warning from Magistrate Walter Limerick to make his own name good or bad himself and not let other people tamper with it. Buchanan had been charged with receiving money on terms requiring him to pay over the same and not accounting for it. Information had been laid by Karl Steeves, of Saint John, Maritime and Newfoundland circulation manager for the Home Publishing Company. Earl Gillis, another Marysville man, charged in the same case, with forgery, will appear before the magistrate for sentence on Friday.

EXPERTS HOLD FOR OPEN FALL DUE TO SIGNS

All Portends to a Later Winter Than Usual—Roads In Fine Shape in Province. — Aids Big Game Season.

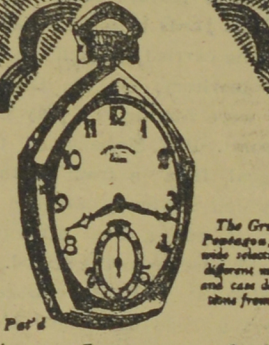

The fine warm weather prevalent for the most part since the opening of the month of October, is taken by many "experts" of the weather to mean a late fall, with many bold predictions that there will be no permanent snow until Christmas. Many signs have been discovered in the woods by the superstitiously-inclined to substantiate their arguments. So, according to these legends, we are in for a drawn-out fall and not so much winter.

Following yesterday's warm, summer-like temperature, today proved a contrast, with a mixture of some rain, cold winds, and fine weather. B. H. Kinghorn, chief highway engineer, reports that the roads have withstood the rains of the past few days well, and though some temporary damage was done in some districts, the roads are now in splendid shape again.

Tourist sportsmen have been journeying into the woods in their motor cars, and find the roads in fine condition. Many fine heads are being brought out of the woods these weeks.

Hon. L. P. D. Tilley, K.C., Minister of Lands and Mines, was in the city yesterday on departmental business.

Harry Taylor, of Montreal, is visiting his parents, Mr. and Mrs. George A. Taylor.

A modern watch for the man of today!

Have your watch keep pace with the times—let it be one of the famous Gruen Ver-Tim models. These distinguished timepieces are available in a wide choice of case designs, priced from \$50 to \$150.
