Japan to Withdraw Troops From Treaty Zone in Manchuria

The Government Has Instructed Its Representative in Geneva to Accept Unconditionally the League of Nations Proposal—Order Was Sent Following Cabinet Meeting.

TOKIO, Oct. 23—The Japanese Government today instructed its representative at Geneva to accept conditionally the League of Nations proposal to start immediate withdrawal of troops inside the treaty zone in Manchuria.

The government hopes to complete the evacuation in three weeks if possible. The orders to Geneva were sent after a cabinet meeting.

League Members Relieved

GENEVA, Oct. 23—League of Nations members were greatly relieved today by Japan's conditional acceptance of the Council's formula for compromising the Manchurian dispute.

The Council's embarrassment was not ended, however, and it was feared China would block complete agreement.

Although Japan was prepared to attempt the withdrawal of her troops in three weeks, China contests the validity of Japan's claimed treaty rights in Manchuria. It was considered certain Dr. Alfred Sze would be unable to accept the resolution without consulting his government further, and that Nanking's consent was improbable.

INFLAMED MOB ON RAMPAGE IN CYPRUS

An Independence Movement Flamed Into Riot—British Troops Are Despatched to Scene.

Lanarca, Cyprus, Oct. 22—Cyprus tonight was tense as the populace and British administration awaited the outcome of a possible move during the hours of darkness to carry out an independence movement which last night flamed into riot and was subdued only after police had fired on a mob demonstrating outside Government House.

Although British officials felt confident they could keep the situation under control until the arrival of naval, military and air forces tomorrow, rumors spread that the independence movement was being carried to almost every portion of the island.

An inflamed mob, said to have been led by the Orthodox Greek Bishop of Lanarca and three elected members of the Legislature, who had resigned, descended upon Nicosia, stoned the police and Government House and finally burned the building to the ground. The police faced by the mob which had got beyond control of its leaders, discharged their firearms into the air as a warning and finally were forced to fire into the demonstrators. Several of the mob and a few police were wounded during the demonstration. Six automobiles including those of the Governor, and the police, were burned before the situation was brought under control.

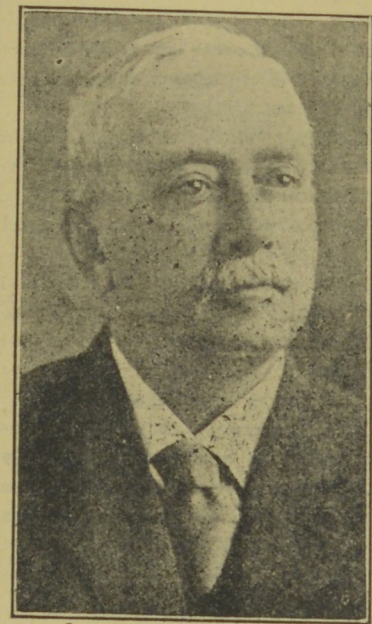

To Take a Hand

Hon. C. D. Richards left for Gloucester this morning to take a hand in the provincial by-election now pending in that county. He will return to the city on Monday.

N. B. HOSPITAL ASSOCIATION HELD MEETING

A. C. Chapman, Moncton Succeeds J. A. Reid As President—May Form Maritime Association.

Newcastle, N. B., Oct. 22—The New Brunswick Hospital Association will confer with those of Nova Scotia and Prince Edward Island, with the hope of forming a Maritime association, it was decided at the third annual meeting of the former here today. After an address by Dr. G. Harvey

HON. DR. H. I. TAYLOR
Minister Of Health

Agnew, of Toronto, secretary of the Canadian Medical Association, a resolution was passed that the New Brunswick Association join the Dominion body.

Hon. Dr. H. I. Taylor, Minister of Health and Labor, spoke of the work done by his department and expressed gratitude for the generosity of Sir James Dunn, of London, Eng., who had donated a site at Bathurst for the erection of a tuberculosis sanatorium. The province will be in a position presently to care for 400 tuberculosis patients, he said. Other such institutions are located at East Saint John and at River Glade.

Larger Grant

Folowing discussion regarding the grant received from the Provincial Government, which, it was claimed, should be increased, it was decided that a committee be appointed to study and confer with the Government on this matter, with a view to working out a permanent and equitable basis for distribution.

Vigorous discussion of the N. B. Hospitals Act ensued. It was resolved that the executive take up the matter with the Provincial Government and ask that either a new act be framed or amendments made. One representative each of the medical and nursing profession and labor will form the committee.

New Officers

Officers were elected as follows: Honorary president, Hon. Dr. H. I. Taylor; president, A. C. Chapman, Moncton; vice-president, G. P. Burchill, Nelson; secretary-treasurer, T. G. Loggie, Fredericton; executive, Judge H. F. McLatchey and Dr. L. G. Pinault, Campbellton; George Gilbert, K. C., Bathurst; R. Corry Clark, Newcastle; Dr. J. B. McKenzie, Chatham; George A. Robertson and Sister Louise Gertrude, Moncton. M. E.

EXPECTS GOOD WINTER FOR THE MARITIMES

Halifax Board of Trade Man Is In Optimistic Mood

BEEN TO CHURCHILL
Port of Halifax Shows a Big Increase in Tonnage

(Special to The Daily Mail)

Moncton, N. B., Oct. 23—Present indications point to a comparatively good winter season so far as the Maritime provinces are concerned, declared C. H. Wright, of the Halifax Board of Trade, who passed through Moncton yesterday afternoon on the Ocean Limited of the Canadian National Railways enroute from Saint John to Halifax. Mr. Wright represented the Halifax Board of Trade on the recent trip of the Canadian Chamber of Commerce to Churchill, Manitoba's new ocean port on Hudson Bay. He stated that employment conditions everything considered are as good as can be expected and while there will be a certain amount of scaling down in the mode of living on the part of some there will be no real hardship experienced. The port of Halifax for the first nine months of this year shows an increase of 92.8 per cent over last year in the total number of vessels in and out of the port with a corresponding increase in net tonnage of 56.6 per cent. cargo tonnage over the same period shows a decrease of 20.2 per cent. The depression is also reflected in the overseas mail matter handled as there is a decrease of 1.3 per cent. in the number of bags.

TWO COPS WERE DISMISSED AT HALIFAX, N.S.

Halifax, N. S., Oct. 22—As a sequel to the bank robbery staged by three local youths, two policemen of the city force, Thomas Gilroy and Ross Taylor, have been dismissed.

The day the robbers were arrested a squad of policemen searched the home of Chipman H. Smith, who, with Richard Morse and G. Leroy Dickson, later pleaded guilty. More than \$13,000 of the loot was recovered and it is alleged that two of the policemen tried to get away with two bundles of bills amounting to \$685. To investigate the charges the Police Commission held a closed meeting, to which representatives of the press were not admitted. Late this afternoon Mayor George E. Ritchie issued copies of the evidence taken at the meeting and declared that "in the interest of good policing and keeping the department in a state of efficiency," the commission considered it necessary to dismiss the officers from the service.

Agar, M. L. A., Dr. R. J. Collins and Sister Veronica, Saint John; J. A. Reid, Fredericton; S. D. Granville, St. Stephen; W. S. Sutton, Woodstock, and Dr. P. H. Laporte, Edmundston.

Forty delegates were present when the meeting opened. J. A. Reid, Fredericton, retiring president, who was chairman, replied to the address of welcome given by Mayor J. A. Greaghan, of Newcastle.

Every hospital in the province was represented at the meeting. An invitation to hold the 1932 meeting in Saint John was extended by Mr. Agar, and accepted. The date of meeting will be chosen by the executive.

Schwab Favors Big Offensive by Industrialists

Veteran Chairman of the Bethlehem Steel Corporation Addresses the American Iron and Steel Institute—A Three Fold Program Is Outlined.

NEW YORK, Oct. 23—A vigorous offensive by industrial America is necessary to smash the economic depression, Charles M. Schwab, veteran chairman of the Bethlehem Steel Corporation, told the American Iron and Steel Institute today. A three fold program was outlined by Mr. Schwab, which included:

- 1.—A better financial structure, which is now underway.
- 2.—Elimination of business and governmental extravagance.
- 3.—A vigorous enterprising attitude on the part of industry.

Mr. Schwab is recognized as one of the world's greatest captains of industry and his utterances never fail to carry great weight.

LIQUOR STORE AT ST. GEORGE WAS ROBBED

Saint John, Oct. 23—Provincial Police at St. George are conducting an investigation into the theft of a quantity of liquor from the Government Liquor Control Board store in that town. The liquor is valued at about \$100 retail.

Arthur Frauley, manager of the store, notified Provincial Police following the theft. A check-up revealed that a case of gin, containing 24 pint bottles, a case of whiskey, 24 pint bottle, and one gallon of wine had been stolen.

Investigation revealed that the thieves had forced an entrance by hacking a panel out of the warehouse door with a knife, making an opening so that the lock on the inside of the door could be released.

Several St. George youths are under suspicion, police say. The theft was committed by persons familiar with the surroundings, Frauley believed.

MME. CURIE BACKS COSMIC RAY THEORY

Rome, Italy, Oct. 23—Mme. Curie co-discover of radium and Dr. W. Bothe, a German professor, added to the explanation of cosmic rays before the congress of world physicists today by showing how rays could be produced from an atom.

Their demonstration, with Mme. Curie elaborating it in algebraic formulae at a blackboard, supported the previous statements of two Americans, Dr. Robert A. Millikan and Dr. Arthur Compton, that cosmic rays come from the building up of atoms in a field of hydrogen millions of miles beyond the most distant star.

With a piece of chalk, Mme. Curie showed how she and Dr. Bothe had shot a gamma ray of great penetrating an alpha ray at an atom and produced power.

City's New Coach

The Fredericton City rugby team now has a new coach Leo F. Cain, local attorney and former U. N. B. football star, and coach. Mr. Cain turned out with the City team last night, and put them through a systematic drill.

A BOUNTY FOR THE AUSTRALIAN WHEAT GROWERS

(Special to THE DAILY MAIL by the British United Press.)

Melbourne, Australia, Oct. 23—The banks agreed today to the distribution of a bounty of 3,000,000 pounds sterling to farmers at the rate of six pence a bushel on their wheat, and withdrew their condition that the selling price must not exceed three shillings a bushel.

SOME QUEER RESULTS FROM PROHIBITION

London, Oct. 22—The direct results of prohibition in the United States have been "eminently successful in every way," George Bernard Shaw told the World Prohibition Federation today, "but some of the indirect results are very curious."

"There's an industry called bootlegging in America," he said, "and its profits are so large that the people who conduct it have immense sums for the corruption of justice. In some of the Eastern States this corruption of the police and the Bench has meant that the work of the bootleggers has become quite safe."

"That is a very serious result, but it is not a reason for going back on Prohibition. Rather it is a reason for the re-organization of law and order." In Soviet Russia, he said, things are different and the bootlegger or gangster would last about 10 minutes. "Over there," he said, "they deal with profiteers just as they would with gangsters. One day the profiteer disappears and his relatives are informed that he won't be back."

REPORTS ARE GIVEN DENIAL

(Special to THE DAILY MAIL by the British United Press.)

London, Eng., Oct. 23—Financial newspapers were unanimous today in denying reports that the Bank of England had repaid the federal reserve bank twenty million pounds sterling. Banking authorities called the reports unfounded.
