FACTS AND FINDINGS

A Psychologist of some note comes to the conclusion that religious training has no relation to conduct. He thinks criminals are as likely to come from religious homes as from other homes. A psychologist—any scientist—is supposed to be guided by facts and facts alone. In this case the facts are against the investigator. Penal records, down in black and white show that a very small per cent of inmates of prisons were attendants at Sunday school. Go into the records of the juvenile court in any city and find almost no boys or girls who came from homes which were religious in character or who were regular attendants at Sunday schools.

INVENTIONS SINCE 1867

Some of the great inventions of the last sixty years are listed as follows: Telephones, wireless, airships, automobiles, traction engines, gasoline engines, electricity, baseball leagues, fireless cookers, departmental stores, motor boats, sulky plows, transcontinental railways, oil-propelled locomotives, electric street cars, parcel post, rural mail delivery, technical schools, consolidated schools, civic playgrounds, thermos bottles, consumptive hospitals, organized children's aid work, Y. M. C. A., transmission power lines, typewriters, etc.

Although the salmon catch in the Maritime provinces and Quebec last season was in excess of three million pounds evidently it was not sufficient for the needs of the population. A drive to boost the sales of British Columbia canned salmon is now being made and is apparently meeting with some success. It seems strange that the Maritime provinces have to import fish from the Pacific coast. It looks much like a case of hauling loads to Newcastle. We wonder if the sardine packers of Charlotte County have ever thought of invading the British Columbia market.

It is conceded by members on both sides that the speech of Premier Baxter delivered on Thursday was one of the ablest and most interesting the Legislature has listened to in many years. The Premier is not a gallery performer. It was known that he was to close the debate but few even of his own supporters expected him to take the floor late on Thursday afternoon and conclude after recess. The members of the House greatly enjoyed the Premier's speech and it made a profound impression on the new members.

The quality of one's loyalty may be a real check-up on the human being as a whole. If we are not loyal to something or somebody we are no better than a bit of driftwood on a wide current. There must always be in every well-ordered, thoughtful life a few things that are worth doing and a few things that are not to be done.

John Pitblado at one time manager of the Bank of Nova Scotia in this city, has been reelected a member of the Montreal Stock Exchange.

A London Cable says that Lord Birkenhead left an estate valued at \$25,000 and a country home at Charlton.

An old gentleman in Florida, interviewed on his 90th birthday, said, "the way to live long is to keep alive." We must remember to try that.

The smoking tobacco business is said to have improved during the past year, while others declined and quite naturally, it feels all puffed up.

Dr. Cornell advised men to marry their secretaries, and now Dr. Balmor gives contrary counsel. But it either case the secretary is likely to decide.

Market prices of the needful metal suggest that now is a good time to hold your silver wedding anniversary.

The reason Daytona Beach is ideal for making a four-mile-a-minute trip by motor is that there are no wild flowers on the way.

When children become bored and cross, says a writer, switch their interests. And if you can't find what their interests are, just switch.

In Berlin one can arrange a wedding on the instalment plan, but divorces are cash-and-carry.

The good die young, if they are resolutions.

It takes a lot of crust to get a piece of political pie.

It's a poor earthquake now that cannot push up an island.

One thing about a cabinet post in France: It keeps you out of a rut.

THROUGH OUR SIEVE

Well, Spring can't be expected to fall in love with us at first sight.

If you are inclined to tell anybody to "go fly a kite", now is the season for it.

Of course life is full of ups and downs. And without the ups it would be intolerable.

If the radio is to bring world peace as some hope, jazz will have to be reduced to a minimum.

Spring may have some trouble in getting organized. March is always more or less antagonistic.

Among churches spectacles is that of Government—Federal—Provincial—Civic—trying to tax the people out of a hole.

A loyal Californian will tell you his state may be shocked occasionally but that the climate is never blown away by tornadoes.

Some of the biggest first-page stories were developed before there were any newspapers. There was that historical upset, when David killed Goliath.

We find no little pleasure in leafing through a beautiful seed catalogue. One evening usually is sufficient to plant an imaginary garden.

You have read about the doorbell that won't ring until a coin is deposited in a slot? One housewife, who thinks it must be a grand little invention, is wondering when an agent will be around trying to sell it.

Suspect A Fire Bug
Incendiarism is suspected in the fire which destroyed the wing of the Waverly Hotel here some time ago, and which workmen are busy tearing down at present. H. H. McLellan, provincial fire marshal, who has been investigating the blaze, questioned one man two hours here recently, and is continuing his investigations. It is understood that two previous attempts had been made to set fire to the building before the one which caused the \$25,000 damage. No charges have as yet been laid.

DIED

NEALIS—Passed away at the home of his nephew, William Nealis, Patrick Nealis, February 20th., aged ninety two years.
Funeral will be held tomorrow with service at the late home at 11 A. M., and St. Anthony's Church at one o'clock, with solemn service, conducted by Rev. Father Donahue. Interment will be made in the Hermitage.

Was In Bed All Summer

"I have to work in the store and do my own housework, too, and I got nervous and run-down and was in bed nearly all summer. The least noise would make me nervous. I was told to take Lydia E. Pinkham's Vegetable Compound and I have taken seven bottles. It has made me stronger and put more color into my face. I am looking after my store and housework and my four children and I am getting along nicely now."

STORMY WEATHER HARD ON BABY

Stormy, blustery February and March weather is extremely hard on children. Conditions make it necessary to keep them indoors. They are often confined to over-heated, badly ventilated rooms and catch colds which rack their whole system. To guard against these colds the little one should be given an occasional dose of Baby's Own Tablets to keep his stomach and bowels working regularly. The Tablets will ward off colds, or if they do come suddenly the prompt use of the Tablets will quickly banish them. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

Experience unnecessary. Enclose stamps for prompt reply. Consolidated Advertisers, 1608 Milwaukee Ave., Chicago, Ill."

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Customs and Immigration Building, Forest City, N. B." will be received until 12 o'clock noon, Tuesday, March 10, 1931, for the construction of a Customs and Immigration Building at Forest City, N. B.

Plans and specifications can be seen and forms of tender obtained at the offices of the Chief Architect, Department of Public Works, Ottawa, the Resident Architect, old Post Office Building, St. John, N. B., and at the Post Office, Forest City, N. B.

Tenders will not be considered unless made on the forms supplied by the Department and in accordance with the conditions set forth therein.

Each tender must be accompanied by an accepted cheque on a chartered bank payable to the order of the Minister of Public Works, equal to 10% of the amount of the tender. Bonds of the Dominion of Canada or bonds of the Canadian National Railway Company will also be accepted as security, or bonds and a cheque if required to make up an odd amount.

By order,
N. DESJARDINS,
Secretary.

MARK EVERY GRAVE

To perpetuate the memory of the dead is the duty of the living. You may discharge that duty by placing a marker at every grave. An individual marker is a permanent record of a name and date of birth and death, and it designates an exact location in the burial lot.

The grave marker here shown is twenty inches wide, twelve inches high and nine inches in thickness at the base. It is precast stone made from crushed granite. It weighs over one hundred weight and the lettering is deeply incised and very distinct. The cost is \$15.00 boxed, and freight prepaid to your station. Write for order forms and booklet of information.
