A New Complaint

Coun. Coburn at the request of Coun. Hinchey, brought up the case of a girl from Stanley, and another from his parish, who had been sent to the Maritime Home for girls at Truro, N. S. What he objected was a bill for \$112, of which amount the parish of Manners-Sutton had been asked to pay \$90. He said that the girl could be kept at home at less cost. He added that the people had subscribed money to build the home and should not be asked to pay for support of girls sent there.

Coun. Hinchey endorsed the remarks of the previous speaker. He said that a young girl was taken from Stanley to the home at Truro and a bill rendered to the parish for her support. He did not think the parish should pay to send a girl to Nova Scotia, as there were homes in the province which could be utilized. He would like a ruling from the county solicitor on the subject.

Coun. Coburn said he did not object to what had been done but he thought notification should have been given as to what the expense should be.

Coun. Hinchey objected to paying for the girl's support in a Nova

UNITED KINGDOM ENLARGES TRADE WITHIN EMPIRE

London July 7—The world-wide economic depression has not arrested the growing habit in the United Kingdom of buying within the Empire.

The annual report of the Empire Marketing Board to be made public tomorrow reveals among other things that apples from Canada and New Zealand reached a record quality in the past year, those from Canada exceeding two million hundredweight against a previous record of 1,869,000 hundredweight in 1923 and in 1930 64,900 hundredweight of Canadian pears were imported as compared with 60,000 in 1925.

The board suggests the figures as a whole show that in bad times as well as in good the people of the United Kingdom are proving steadily more willing to buy within the Empire.

Parliament has been asked to provide \$3,295,000 for the Board's activities during the coming 12 months. The policy of making grants for scientific research work both here and abroad is being continued.

COMMISSIONER WAS CRITICIZED

Unpleasant criticism was levelled by members of the city Council in session last night, against Thomas Niles poor commissioner, who, it was said by one alderman was inefficient. The criticism came from the fact that the local paupers have on their menus such delicacies as cheese, cakes, relishes, and fruit at the expense of the city. This was one of the chief matters under discussion at the regular monthly meeting of the City Council last night in the Council Chambers at the City Hall.

Mr. Niles will be called before the council at an early date to explain the presence of such food luxuries on the menus of these poor people, and which have been submitted to the City Council. The bills were for food purchased by these people, obviously with Mr. Niles' permission. Mayor Clark presided at the meeting last night.

Big Fight Filmed

Max Schmeling's stirring victory W. L. "Young" Stribling, of Georgia, was graphically told in motion pictures last night at the Capital theatre in the presence of a packed house of fight fans. The showing of the fight pictures was something of a record, as they were shown only three days after the event occurred in Cleveland. The pictures showed the German fighter to have decisively outclassed the young Georgian, particularly in the last six rounds of the scrap, when Stribling was practically out on his feet. The last two rounds, saw Stribling hanging on desperately, and after two minutes and 36 seconds of the fifteenth round the referee held up Schmeling's hand in token of victory. It was a technical knockout. The film showed the last round in slow motion and one could get a splendid idea of the desperate tactics of the Georgian to hold on, while out on his feet. Schmeling looked as fresh as a daisy throughout. Also were shown, previous to the main bout, some training shots of the two fighters and their strenuous work six weeks previous to the Cleveland fight. The pictures will be shown again this evening.
