THE LIBERAL GOVERNMENT OF PRINCE EDWARD ISLAND WAS OUSTED AT THE POLLS

Charlottetown, P. E. I., Aug. 6—Conservative gains of 13 seats in the general election in Prince Edward Island today, sent Hon. J. D. Stewart back to the Premiership of the province with a majority of 8, after his four years as Opposition Leader in the General Assembly. The standing of the parties will be: "Conservatives, 19; Liberals, 11; Returns from several polls are still missing, but they cannot possibly affect the results.

The standing at dissolution was: Liberals, 22; Conservatives, 6; with two vacant seats.

The last District in which there existed doubt as to the result of today's polling was the Second of Prince County, in which Ramsay, Conservative, and Dennis, Liberal ran a close race for Councillor. The Liberal majority in this seat is 19, according to complete returns. Sharp, Conservative, is elected as Assemblyman in the Second District of Prince, with a majority of 33 over Lindston, Liberal.

Brilliant summer weather prevailing throughout the day resulted in the recording of a larger vote than usual. Premier Lea retained his seat in the Fourth District of Prince by the slim margin of 14 votes and five of his colleagues in the Government went down to defeat.

They were B. W. Lepage, Peter Sinclair, Russel Clark, Dr. J. F. MacNeill and Horace Wright, all members without portfolio. The only member of the Lea administration elected apart from the Premier was Hon. J. P. McIntyre, Minister of Public Works, who was returned by a majority of 26 votes, although Hon. Thane Campbell, a former Attorney-General, defeated in a by election last year, was successful today.

Hon. J. D. Stewart returns to the Premiership of Prince Edward Island after an interval of four years. His Government went down to defeat in the general election of June, 1927, when he appealed to the country on a policy of Government control of the sale of liquor. Prohibition was not an issue in today's contest, Mr. Stewart having announced that it returned he would enforce the present prohibitory law.

Hon. Mr. Stewart returns to power with four of his former colleagues in the Government—Frank MacPhee, formerly Minister of Public Works, and A. F. Arsenault, L. L. Jenkins and Dr. J. P. MacMillan, formerly without portfolio.

His Appeal

He had appealed to the electorate on the alleged extravagance of the Lea Government in the matter of highway construction and promised improvement in technical and agricultural education along with his best efforts towards the full implementation of the Duncan Report.

Hon. W. M. Lea had relied on the record of the Liberal administration of the past four years in his unsuccessful bid for a further lease of power.

Bennett Pleased

Ottawa, Aug. 6—"I am very pleased with the result," declared the Rt. Hon. R. B. Bennett tonight when invited to comment on the Prince Edward Island elections. "It was not wholly unexpected, Mr. Stewart (who will assume the Premiership) is a man of large experience," the Prime Minister said "and will give Prince Edward Island good government."

SUMMARY

Conservatives Elected

Prince County—
Second District—G. S. Sharp, majority 57 (two polls to hear from).

Third District—Thomas McNutt, majority 129; A. F. Arsenault, majority 218; (one poll to hear from).

Kings County—

Second District—Hon. J. P. McIntyre, majority 26; H. H. Cox, majority 73.

Fourth District—M. Annear, majority 30; J. A. Campbell, majority 90.

SPARKS CIRCUS MAKES BIG DAY FOR THE KIDDIES

(Continued from page eight)

Busy Scene

This morning the Trotting Park was the scene of a highly specialized piece of engineering work. Rome wasn't built in a day, but the circus is—and torn down the same night. Elephants seemed to have the hardest lot of the circus animals. Eating peanuts is a well-earned vacation to these monsters who tugged and hauled like heroes this morning.

The circus entrains for Edmundston after tonight's performance.

"FISH" THAT BREATHES WITH LUNG IN ZOO

New York, Aug. 3—The Bronx Zoo has made a home for a rare South American Lepidosiren, the so-called lung fish which is neither fish nor amphibian, but is a product of those good old days millions of years ago "when you were a tadpole and I was a fish."

The new zoo resident is described as an "eel-like fish about two feet long and two inches thick, which breathes with a lung."

HARMONICAS FROM GERMANY LURE U. S. \$\$

Leipzig, August 7—Despite the growth of mechanical, or "canned music", at least two instruments are enjoying amazing popularity, the mouth organ and the accordion. Several hundred different forms of these instruments are exhibited at the Leipzig Fair this fall, largely for export trade.

Last year Germany exported 50,000,000 mouth organs worth over \$5,000,000 and 700,000 accordions, the United States being one of the best customers.

The time has come when we fear less the wild beast of the forest than we do the wild driver of the auto.

TUMOR IN BRAIN ALTERS TASTE SENSE

London, August 7—A remarkable case in which a small tumor in the lower part of the brain so changed the victim's sense of taste that everything tasted sweet has been reported by a London physician, Dr. G. Aubrey with a request that other medical men send him information concerning any similar instances which have come to their attention.

Although to most persons no taste is pleasanter than that of sweetness, Dr. Aubrey's unfortunate patient had far too much of this particular good thing. Water, meat, bread, salt, even things ordinarily sour or bitter like vinegar of quinine, tasted to this patient like the sweetest sugar.

This remarkable disturbance of the taste sense was found by trial, Dr. Aubrey's reports, to extend to the whole surface of the tongue, as though the nerve connections in the victim's brain had been short-circuited somehow by the tumor so that all sensations from the nerves of taste in the tongue went to the center of the sweetness sensation in the brain instead of being sorted out as they should be, into the other kinds of tastes.

SAYS HAPPINESS LIFE'S GOAL

London, Aug. 7—Lady Diana Duff-Cooper says happiness is the great goal of life. She says:

"Cash is commonly believed to be the most important thing. And that is false coin. The more making of money is an ignoble pursuit and quite unsatisfying.

"To desire a competence for yourself and family is quite a different thing from this hungry, insatiable lust for money. To regard money as the thing that matters most in life, to desire to amass more than you can spend, is sheer lunacy.

"What really matters most is the achievement of happiness. I mean that to be happy a decent man must make others happy too. That is why the successful men of this world are quite obscure. They do their day's work quite faithfully; they are interested in it, they are absorbed in it, and that contents them—so long as they earn enough to provide a decent and dignified life for those who are dependent upon them they are happy."

RITA LAROY'S DOG EARNS \$25 A DAY

Hollywood, Aug. 5—Rita LaRoy, movie actress, is nothing if not smart. In fact, she's smarter.

Rita purchased a big Russian wolfhound from the city pound for the munificent sum of \$35.00. But let Rita tell the story.

"I had no sooner taken him on the set where Richard Boleslavsky was working than he at once declared that the dog is just what he wants for his picture. So now my dog's earning \$25 a day!"

GIRL CLERK ROUTS BANDIT WITH CANDY BOX

St. Louis, August 7—A drug store proprietor's brother, in the store during a recent holdup, hurled a box of candy at the bandit, who then fled.

The candy tossing example was emulated the next day in a confectionery store by a girl clerk. She aimed, however, at a plate glass window when the bandit began ransacking the cash register. He fled as the glass crashed.

THE CAMPAIGN IN QUEBEC IS WARMING UP

Both Parties Are Striving for the Provincial Fight — Federal Organizations to Aid Liberals.

Montreal, Que., August 6—Conservative electors in the various counties of the Province are getting busy with the work of selecting their candidates for the coming Provincial election and meeting are already organized.

Tomorrow, those of Lavolette will meet at St. Tite; those of Terrebonne county will gather at St. Jerome; those of Brome County, at Knowlton; those of St. Hyacinthe, at St. Hyacinthe.

Conservatives of Shefford county will meet at Granby, Nicolet electors will meet at Nicolet. On Friday, Conservatives of Richmond county hold their convention in Richmond city. On the same day conventions will be held at Longueuil City Hall for Chambly county at eight P. M. and at Lachine for Jacques Cartier county.

On August 9, the convention for Berthier county will be held in St. Gabriel de Brandon, and on Monday at Ste. Julienne for Montcalm county.

A rumor has it that Camillien Houde, Opposition leader, will be asked to be the candidate in Chambly county. Ald. Brady has intimated that he will not offer himself for a seat in the Provincial Parliament.

The R. B. Bennett Conservative Association passed a resolution last night pledging itself to back Camillien Houde to the limit.

There is rumor of James Crankshaw, well known lawyer, standing in opposition to Joseph Cohen, K. C., in St. Lawrence division.

Liberals Active

Liberals are feverishly engaged in the selection of candidates in the coming provincial election and their headquarters is buzzing with activity. It is expected that within a week the organization will have held all its conventions in the district of Montreal and the Eastern Townships.

It is now assumed that the Provincial party will have the support of the Federal Liberal organization. Hon. Ernest Lapointe, ex-minister of justice, speaking with Premier Taschereau at Limoilou in Quebec, Friday night, and Hon. Fernand Rivet, former Secretary of State giving his time to the Liberal cause in the district of Montreal, as soon as the Federal campaign in Three Rivers-St. Maurice is finished next Monday. Hon. J. P. A. Cardin, former Minister of Marine, will confine his efforts apparently in Richelieu and the surrounding counties.

FARM WOMAN'S CELLAR WEATHER THE DROUGHT

Rogers, Ark., Aug. 7—In her "hard times cellar" filled with ammunition to keep the wolf from the door of her home, Mrs. Will Scott last year laid away:

Canned vegetables and other foods totaling 450 quarts, 200 pounds of dried apples, four bushels of walnuts and hickory nuts, 30 bushels of Irish potatoes, 12 bushels of sweet potatoes, 12 bushels of turnips and quantities of lard, sorghum and soap.

Despite the fact that her farm was in the heart of the drought area, emphasis on gardening and sources of home-raised foodstuffs saved her home from the plight of many of her neighbors.
