VILLAGE OF BOIESTOWN IS THREATENED BY BLAZE THAT CARRIED OFF THREE MILLS

FIFTH PAGE STORY thT.oeyea646t that the danger of further spread of the flames appeared averted.

Boiestown, N. B. May 17—Fire believed to have originated in outbuildings of Mrs. William McConnell's residence here this afternoon totally destroyed her home, the spoolwood mill owned by W. S. Anderson, M.L.A., of Newcastle, a house owned by the McMillan estate and occupied by Patrick McAleer, and the disused grist and carding mills of the Miramichi Lumber Company.

The sum of \$1,000 in cash was burned in the McConnell residence. The total loss is estimated at \$25,000 with partial insurance. The outbreak occurred during a high wind and at one time threatened the entire village.

Possibility that the fire may have been of an incendiary nature was discounted tonight by Mr. Anderson from his home in Newcastle. Recently two barns owned by G. Percy Burchill at Nelson were mysteriously burned and threats were said to have been made to burn his mill at Nelson.

The two fire engines of Boiestown owned by the Miramichi Lumber Company were utilized and the fire apparatus of Doaktown was rushed to the scene. Between 150 and 200 men fought the flames well on into the evening. At one period the wind shifted and the village, which was believed to be out of the path of the flames, was endangered. The wind shifted back, however, and carried the flying embers towards the forest. The woods flamed several times and it was only by ceaseless effort that the fire fighters were able to prevent a forest conflagration.

The fire started shortly after noon and it was not until about 7 o'clock

that the danger of further spread of the flames appeared averted.

Lumber Saved

The spoolwood mill had employed about 50 men and had just been closed down for the season, having been in operation since Christmas. The manufactured wood was not touched and the lumber was also saved, but 1,000 cords of firewood proved so much tinder to the flames.

The McConnell property was one of the finest in the neighborhood and was valued at about \$10,000. There is some insurance on the property but not sufficient to cover the loss. Mrs. McConnell and her daughter were alone in the house and are at a loss to account for the cause of the outbreak. It apparently started in the outbuildings and had gained such headway when discovered that they had only time to leave the burning structure and did not save anything.

Mills Idle 26 years

The late Mr. McConnell had been in charge of the old Richards grist and carding mills, which were located across Burnt Brook from the McConnell residence. These two mills were the next to catch. They had not been operated for the last 26 years. The shift in the winds sent the sparks back to the McAleer home and that was soon destroyed. It was valued at \$1,200 and was partly insured.

From the two disused mills sparks were carried to the Anderson spoolwood mills and wood piles. As the fire blazed up with the strong wind fanning it embers fell on the residence of Patrick McCarthy and Melvin Murphy, but the fire crews were able to save these two properties after a hard fight.

SERIOUS FIRE AT SHEFFIELD ON SUNDAY

(Continued from page eight)
furniture, and household effects, including a large kitchen range.

Heat was Terrific

As the fire made headway the heat became terrific, and while a sharp watch was kept upon the near-by hall and water carried from the river poured on the roof, the flames worked their way beneath the building and soon it became a mass of flames. Willing hands took hold and removed the contents of the building, which included chairs, benches, tables and a stove. The hall which was owned by a number of residents of the community, was valued at about \$600 and was uninsured.

Dwelling in Danger

The dwelling house of Sydney S. Burpee, situated further down the river, was in danger at one time, but was saved without damage. Mr. Burpee is the owner of the burned dwelling, and carried no insurance. Rev. Mr. Harrison carried a small insurance on his furniture.

A number of large elm trees, located near the scene of the fire, were very badly scorched, and it is believed will die. Mr. Burpee's orchard also suffered considerable damage from the heat.

The old academy building, which was levelled to the ground yesterday, was remodelled some years ago, converted into a dwelling and utilized as a Methodist parsonage.

It was the late Dr. Thomas Harrison of this city who afterwards became Chancellor of the U. N. B., and the late George F. Burpee, who founded the academy and carried it on successfully.

Dr. H. V. B. Bridges, of this city, now principal of the Normal School, and Tyler C. Burpee, C.E. of this city, at one time engineer of maintenance on the I. C. R. were among those who received their early education there.

REMAINS OF SEVEN INDIANS UNEARTHED

Port Credit, Ont., May 18—Remains of seven Indians, believed to have been buried three or four centuries ago, were unearthed yesterday by workmen excavating on the bank of the Credit River near here. The Indians were in a sitting posture and indications are that they were cremated in some way. Some of the bodies are thought to be those of women or children. Arrowheads were found alongside the remains, and pieces of lead with which the warriors probably tipped their weapons.

MT. A. STUDENT IS THE VICTIM OF SUICIDE

Sackville, N. B., May 17—Allister Young, 20, son of Rev. George M. Young, D. D., United Church pastor at Stellarton, N. S., and Mrs. Young, was found dead in bed in his room in the Mount Allison University residence here at 8.30 o'clock Saturday morning by Colin Matheson, a fellow student.

At the inquest held Saturday afternoon in the university residence, a verdict that "Young came to his death by his own hands by taking a poisonous drug while mentally deranged" was returned. G. T. Morton, coroner, of Middle Sackville, presided. H. M. Wood, M. L. A., of Sackville, was foreman of the jury.

While no motive for the deed was established, it is believed that mental strain and worry as to the outcome of the examinations were factors.
