THE SERVICE LOAN

A continent-wide organization went into action on Monday, November 23rd, to tell the investing public of the country of the merits of the New National Service Loan Bonds, of which there are \$150,000,000 worth placed on the market for subscription.

This undertaking is in the hands of men who have spent the better part of their lives in buying and selling bonds, and all the skill which this implies will be brought into play to make the offering "go over" in a big way.

Insofar as the merit of the security is concerned there is no question, and it is considered only a matter of getting in touch with that section of the public who are in a financial position to make investments at this time. A Dominion Government bond is admittedly the highest grade obtainable, a fact which is now widely appreciated wherever there are bondholders.

A situation which is expected to operate as a distinctly favourable factor in obtaining a wide distribution is that the public have been holding aloof from making investments for some time, owing to the fears of what might happen in the face of the late economic disturbance. These have now been very largely banished with the indications already registered of a turn in the tide towards more prosperous days.

There is a large accumulation of money ripe for investment, from which this offering is bound to benefit. The improved volume of trading in bonds generally, in the past few weeks, is regarded as an unmistakable indication of the better feeling among bond buyers throughout the country.

It will also be a favourable change for the public to have an opportunity of buying such a high-grade investment at a price to yield slightly better than 5 per cent. There was a steady decline in the past year or two in the yields obtainable, some of the gilt-edged class prices rising to a level which brought little better than 4 per cent. to 4 1/2 per cent. The opportunity of obtaining this high-grade National Service Loan with a return in excess of 5 per cent. will thus be a distinct advantage.

The organization is skillful and there is a reservoir of wealth awaiting. If anyone has any doubt as to whether he should buy these bonds the campaign slogan may help, "Let Your Dollars Serve Canada".

With over \$100,000,000 of the \$150,000,000, asked for it looks as if the National Service loan will be over-subscribed before the end of the present week. Never before have Canadians have offered such a gilt-edged investment. The yield on the ten year bond is 5.17 per cent., and beyond a doubt when prosperity returns to Canada, these bonds will sell at a premium. Those who have money tied up in the savings bank, drawing three per cent., should add to its earning power by purchasing National Service bonds.

According to a Bulletin issued by the Dominion Bureau of Statistics, births registered in October in 53 cities of Canada numbered 7,022, deaths, 3,673 and marriages 2,867 as compared with 7,483 births, 3,940 deaths and 3,265 marriages in October last year, giving a decrease of 6 per cent. in births, 7 per cent. in deaths, and 12 per cent in marriages. For the ten months—January-October births showed a decrease of 1 1/2 per cent., deaths 3 1/2 per cent., and marriages 11 per cent from the corresponding ten months of 1930.

Probably the efficacy of cigarets is over-rated. I know some men who have smoked them for a quarter of a century and haven't become kissable yet, at least not for me, personally.

I don't know whether they will benefit or not—those Chicago girls who will play base ball to acquire skill in handling babies. It's just a toss up.

How, is it, asks an editorial, that our fathers were more successful than we in adequate crime control? Well, maybe it was because they got the hang of it more quickly.

CITY IN SWEDEN IS VERY OLD

Vestervik, Sweden, Nov. 26—Five hundred years have passed since Vestervik, in the province of Smaland, received its charter from Erik of Pomerania, the ruler of the United kingdoms of Sweden, Norway and Denmark. To celebrate the founding the city has invited presidents over 7 to a coffee party. The guests may keep their cups and saucers, engraved with the city's coat of arms and the date of the anniversary as souvenirs.

LOCAL NURSES

The Fawcett Circulator

This wood burning Circulator is practically a warm air furnace. It does not merely throw out heat but by its peculiar construction it draws all the cool air from the floor level, heats it and throws the heated air out from the top, causing a perpetual circulation, without draughts. It gets every atom of warmth out of the fuel, is very Economical to Operate and is an ornament to any room.

We have Coal Burning Circulators also, as well as the Dominion line with the exclusive "Rotor Grate."
