JUDGE'S SALARIES

When the bill to reduce the salaries of Federal civil servants was introduced in the House of Commons some weeks ago, Premier Bennett in replying to a complaint that judges were not included, said that the Government would deal with them in another way. A bill, now before the House, provides for a tax of ten percent on the salaries of judges to be imposed during the present year. The Montreal Star regards this bill as a victory for the back benchers in Parliament and probably has the correct view. Premier Bennett and Hon. Hugh Guthrie, Minister of Justice, speaking on the bill stated that they were opposed to the reduction of the salaries of judges, but considered it no more than right that they should make a contribution to the public treasury at a time like this. Hon. Ernest Lapointe, former minister of Justice emphatically opposed the principle of the bill.

The general public will take the view that so long as members of the civil service, and people employed by corporations and private individuals have had to take a salary cut there is no reason why judges should escape scot free. No doubt there are many judges who will accept the reduction in the right spirit. These will include a number who have to their credit long service in public life and appreciate the difficulties that beset governments at a time like this. The kickers will be those who worked tooth and nail to get on the bench, because of alleged party service, but never could be prevailed upon to contest an election. After all a Judge in receipt of a salary of \$9,000 a year is not going to suffer any great hardship by being compelled to part with ten per cent of it under the bill now before Parliament.

CANADA'S POSITION

Canada has not been so badly off as other countries in the world-wide depression and there is evidence from month to month that she will be among the first to stage a complete recovery. The month of April showed a substantial increase in the export of Canadian wheat. Gold and copper production of Canadian mines is showing a considerable increase. The balance of trade for the 12 months ending with April was \$23,000,000 in Canada's favor.

These are but three of scores of items of the same character that have appeared in the news papers during the past few weeks. They surely must mean something, while the promise of good crops and better prices means a good deal more.

EXPERIENCE

Experience isn't much of an educator after all.

"It just seems that people won't learn anything from experience and right here in the face of the greatest overproduction the country has ever known a man down here somewhere has to go and breed hens that lay two eggs a day, and with eggs only 10 and 12 cents per dozen now. If, to this machine age is added hens that lay two, and if two why not a dozen, eggs a day we doubt if even the Lord can temper the winds of overproduction to the shorn lambs."

Moncton Times:—In preparing its case for the Imperial Economic Conference, the government of New Brunswick is laying emphasis upon the three basic industries, agriculture, lumbering and fishing, all of which would benefit by any arrangement that would open up to them additional markets for their surplus products.

An after-dinner orator in Texas was felled by a plate hurled by a listener. Pending the outcome of his injuries authorities are withholding the bounty.

First prize in a spring golf tournament in Kansas will be 17 tons of rock salt. In the next meeting, this will enable the winner to drink up the water hazard.

A Winnipeg reformer denounces bridge as "a menace to modern civilization." At times we wonder if modern civilization isn't the underlying menace to modern civilization.

The grapefruit's portion as a favored type of music criticism seems less secure. A Southern hen has gone to the trouble of laying an six-yolked egg.

RudyVallee has acquired an extensive ranch in California, to which there can be no legitimate objection if he hasn't acquired a larger megaphone.

In its first year of high pressure salesmanship Reno gathered 5,000 customers around the divorce suit counters.

It is said that sea bathing was not popular 70 years ago. Pictures of the bathing suits of the period offer sufficient explanation.

A hen doesn't do much cackling when she lays an egg at the present market price.

Manifestly it is an advantage for a poor spelled to use only about 300 words.

THROUGH OUR SIEVE

Hoarding is the equivalent of cold feet.

Emphasizing the point of a story is an insult to the listener's sense of humor.

A cat has few friends and isn't sure it wants the ones it has.

Tolerance allows a man to state his views, but won't necessarily stay and listen.

Publishing a newspaper in China must be exciting. There are so many sensations.

Nothing delights a school-teacher so much as a pupil who can go ahead without coaching.

Biggest bore is the man who thinks every motive is crooked and every man a knave.

During the past year many people have received a lot of outside information concerning the banking business.

Mary Pickford says "It is a great privilege to be poor." It is the most delightful privilege that has been inflicted upon a lot of us.

Somewhere lies the truth about how to prevent hard times; but such is the confusion that it seems that even truth lies.

If there were "full-length" mirrors in beach dressing rooms, some men might put their clothes back on again after seeing themselves in a bathing suit.

We fear it is fast coming to the point where the individual who obeys all the laws, or all he knows are in existence, will be set down as an old fogey, who belongs to a respectable era that passed on with the horse and buggy.

With the Heat Wave

Along with other things, the heat wave that visited us this week, brought with it the necessity, or desire, for straw hats. Several of the well-known citizens of the city found comfort beneath the light, shady brim of a Panama or an ordinary "cow's breakfast." The appearance of the hats were, however, brief and the sudden drop in temperature Wednesday sent their wearers scuttling back for the good old felt.

Superintendent of Colonization (Maritime Provinces) Canadian National Railways, Main street, Moncton, N. B.

NEW BRUNSWICK

Forest Fire PROCLAMATION

CITIZENS OF NEW BRUNSWICK:—

The fire situation in this province has become critical. The lives and property of our people are in danger. Since May 6th no less than 93 fires have been raging in various parts of New Brunswick. No county has escaped.

I regret to say that the fire menace is increasing daily, causing tremendous loss of property. Many of our rural villages are seriously threatened by these fires.

At the present moment the most extensive fires are raging in Restigouche county, covering an area of from 15 to 20 square miles. Day and night 600 men are fighting fires in this county alone and a force of some 1,500 firefighters is battling the forest flames over the entire province.

In Gloucester county four major fires are burning up valuable timber limits. The situation there has become most serious and a shift in the wind will bring this fire menace dangerously close to the town of Bathurst.

On the north side of the Nipisiguit Lake in Northumberland county a bad fire is raging and already has destroyed buildings valued at \$20,000. The fire fighting force has had to travel 28 miles to reach the scene of this fire.

Three major fires are raging in Madawaska and Victoria counties and the lives and property of settlers are seriously in danger. Another fire of large proportions is burning in the Bluebell district of Victoria county.

Many of these fires have been caused by carelessness on the part of settlers who have been burning brush. And this brush-burning, I may point out, has been carried on in violation of the law. Some fires have been deliberately set and warrants have been issued for the arrest of several parties who will be proceeded against under the Criminal Code of Canada. The maximum penalty for setting fires is 14 years in prison. For violation of the provincial fire laws the maximum penalty is two years in prison. For the future all violators of the law will be proceeded against under the Criminal Code.

BRUSH BURNING ON FARMS OR COLONIZATION LOTS IS ABSOLUTELY PROHIBITED UNTIL FURTHER NOTICE.

Weather reports throughout the province show no sign of relief. If fine weather continues and every precaution is not taken, a situation may easily develop in this province which will result in a loss far in excess of that experienced in 1923 when \$20,000,000 damage resulted from forest fires.

I APPEAL AT THIS TIME TO ALL CITIZENS OF NEW BRUNSWICK TO ASSIST THE AUTHORITIES IN EVERY PRECAUTIONARY AND PROTECTIVE MEASURE TO PREVENT A PROVINCE-WIDE CONFLAGRATION.

(Signed) LEONARD P. D. TILLEY, Minister of Lands and Mines.

CEMETERY MONUMENTS

Shipped direct from the manufacturers and erected in the cemetery by us can be obtained as follows:

GREY GRANITE from the granite mills at Hampstead, N. B.

BLACK GRANITE from St. George, N. B.

RED GRANITE from the same quarry that the Normal School entrance pillars came out of.

Royal Blue Pearl and Bonnacord Black Granite from Aberdeen, Scotland, shipped, finished and lettered.

A Beautiful New Very Dark Grey Granite from a quarry recently opened in Charlotte county.

MARBLE MONUMENTS made in Italy under the direct supervision of resident Englishman, can be obtained for less cost than from the United States owing to present money exchange rates and low ocean freight rates.

Let me quote you price on any design that interests you in any cemetery, or on special designs.

Beware of Gasoline as a Cleaner

As a motor fuel, gasoline is invaluable. As a cleaning fluid it is extremely dangerous.

For the protection of yourself, your family and your home, ban the use of gasoline in household dry cleaning, and so prevent a possibly disastrous explosion or fire.

Your druggist can tell you of safe, economical cleaning fluids.
