Hitler Wanted a Job Similar to That of Mussolini of Italy

Announcement of His Demand on President Von Hindenburg Causes a Sensation in Germany—Why Chancellorship was Refused—Snake Causes Disaster in India.

BERLIN, Aug. 15—A government spokesman caused a sensation today by announcing that Adolf Hitler, Fascist leader, had demanded of President Paul Von Hindenburg that his position be "that of Mussolini after the march on Rome."

The demand was made when the President received Hitler in audience Saturday, the spokesman said. Because of Hitler's attitude the President refused to make him Chancellor.

GRAND FALLS BOY WON HONOR AT D.R.A. MATCH

Corporal D. White Won the Governor-General's Match and a Place on the Bisley Team.

Connaught Ranges, Ottawa, Aug. 14—A storybook finish and a smashing climax to a week's fine shooting ended the Dominion Rifle Association annual shooting matches, and today the range is nearly deserted. Tomorrow a cadet meet opens, but most of the senior marksmen have already departed still talking about the brilliant marksmanship which climaxed the week.

There have been many situations on these ranges; many amazing endings, but none perhaps quite so amazing as the present.

Corporal D. O. White, 24-year-old school teacher from Grand Falls, N. B., yesterday won the Governor-General's medal, with Sgt. W. J. Woods, Hamilton, second, and Sgt. E. G. Stock, Toronto, third. And yet, actually the situation was entirely reversed with Stock, Woods and White finishing in the order.

This may seem somewhat paradoxical, but here's the explanation.

Rifle matches, when tied are decided by "best score at longest ranges." But when there are medals or trophies to be awarded there must be a tie-break. Hence then Stock scored 145 points in the second stage of the Governor General's match, he won most of the money. Woods had a total of 143 in the second stage and took second money while White's 139 in the second half of the match left him in third position.

So, although technically Stock won the match, White won the shoot-off, receiving the Governor-General's gold medal and the traditional ride on the shoulders of his comrades to headquarters, where he received the prize from the hands of His Excellency Lord Bessborough.

Capt. Houlden and Lieut. Col. C. W. Gibson, Hamilton, tied for leadership in the Bisley Aggregate with scores of 666, and are certain of their places among the Canadian representatives at the English range.

STEAM COOLS OFFICE BUILDING IN DETROIT

Detroit, Mich., August 14—A system for cooling business offices by steam has been tried here and proven successful, according to the Detroit Edison Company.

A building here is one of the first in the United States to try the system, officials of the company said.

The method of cooling is to pass steam under pressure through a nozzle at high velocity, where it acts as a pump to remove the air and vapor from a tank of water. This rapid evaporation of some of the water in the tank, cooling the remaining water to 45 degrees.

The cold water from the tank is pumped through cooling coils and the air is cooled as it is blown over the water by a ventilating fan.

The lad is said to be recovering at the Houlton hospital satisfactorily. The game was a return engagement, the Capitals having defeated the same team last week at Queen's Square 8 to 1. More unusual was the fact that the locals only had one error chalked against them.
