SENATOR LOGAN'S CASE

The Toronto Saturday Night after expressing regret at the folly of Senator Logan in involving himself in the attempts of a missing adventurer Capt. Hatfield to collect a false claim for reparations in connection with the loss of the schooner, Gypsum Queen, has this to say in favor of the Nova Scotia Senator:

"In constructive ideas, Senator Logan has been an outstanding and progressive figure in public life, and never more so than within the past few years. What ever the tragedy of his present position, the part he played in the development of trade with the West Indies, of which he was the most powerful propagandist, and his efforts in behalf of that very important project, the Chignecto Canal, cannot be forgotten. Canadian National Steamship services with the West Indies which were largely due to his initiative, are now said to be on a profitable basis with immense future potentialities. Therefore the voice of condemnation should be tempered by a remembrance of the Senator's substantial public services."

DANGEROUS MOTORING

An exchange says: Driving into the dazzling lights of an oncoming car is dangerous business—dangerous alike to the dazzler and the dazzled. And it is so unnecessary. To dim the lights of a car is so simple and easy a task, that it seems that the danger involved by not doing so would compel the motorist approaching another car at night to take this simple precaution against the possibility of accident to his own car as well as the cars of others. It should not take a law to bring about the dimming of headlights, common decency demands that a motorist practice this simple rule of night driving etiquette, for it is etiquette and good manners are just as essential on the road as in the ballroom.

Premier Richards returned on Saturday from his second visit to Ottawa since the Imperial Conference opened. In an interview he stated that good progress had been made during the past week especially with lumber. The Premier and his colleagues have been working hard to secure a preference for Canadian lumber in the markets of Great Britain and it looks as if success was going to crown their efforts. A market for say two hundred million feet of New Brunswick lumber would mean the banishment of old man depression so far as New Brunswick is concerned.

The annual poultry field day will be observed at the Fredericton Experimental station tomorrow and should bring together a large gathering of people interested in this important branch of agriculture. The program will include talks by such experts as Dr. F. N. Marcellus of the Guelph Agricultural College, A. C. Taylor, Dominion Poultry Husbandman of Ottawa, and W. W. Baird, superintendent of the Nappan Experimental Farm.

Rugged New England integrity is once more celebrated in a new portrait of a Massachusetts governor, installed in the State House, which shows him with his hands in his own pockets.

Spanish Republic has completed its first year. Even yet everybody in Spain does not have fried chicken with red peppers every Sunday; and so much was expected from a republic.

A local motorist doesn't know whether to have new piston rings installed to stop the bucking, or just to sell the old bus as a five-gaited animal.

"I envy the man who can miss a short putt and laugh it off," says Bobby Jones. Our opponents smile broadly in these circumstances, as they can afford to.

Progress should never have stopped with the two-pants suit. There comes a morning when there is little to choose between them, and a third guess would be a relief.

Trade Commissioner Here

R. W. E. Burnaby, Maritime Trade Commissioner at Ottawa, is in the city today. Mr. Burnaby will be in the Maritime times about a month in connection with the barrel stave and barrel head exporting industry. He is travelling by car and is accompanied by his wife. They are guests of the Barker House.

DOESN'T MEAN A THING TO OLD ELIZA

For Worth, Texas, August 14—Those big words, "mawgagge fo'closhah", didn't mean a thing to Eliza Anderson, 102-year-old Negro.

When police ejected her from her home after the foreclosure, Eliza moved right back in, catching the new tenant, Suella Jackson out. A second removal was too much for Eliza.

She bombarded the house with rocks. Suella abdicated amid a shower of window panes.

And to add to Eliza's misery, police charged her with "malicious mischief."

KISSES AND NECKTIES O.K. AGAIN IN SOVIET

Moscow, Russia, August 15—Soviet Russia has broken the shackles that have forbidden such things as kisses, neckties, gay music, dancing and phonographs, and is ready now to have a bit of fun along with her work.

Agitation against the Government's "prohibition" of the lighter things in life has been led by the youth of the land for some months, but not until now have the Soviet officials granted the request.

Chief Agitator for "more fun" was Alexander Kosarlov, who shocked followers by appearing in a "bourgeois" collar and necktie. His appeal for "a little romance in our lives", was echoed by thousands, until the Government lifted its restrictions.

U.S. IRISH FAVOR BOYCOTT OF THE BRITISH GOODS

New York, Aug. 14—A resolution calling for automobile parades in every important city of the United States next Saturday to promote a boycott of British goods and British shipping and insurance companies was approved here today by the Irish Race Convention.

About 700 adherents of the De Valera Irish Free State Government voted unanimously in favor of the resolution and others to provide picketing of stores, listing of English enterprises in this country and financing of the campaign.

Another resolution denounced the St. Lawrence Waterway Treaty as "injurious to American interests and surrendering American rights" and the convention urged the United States Senate to reject it.
