Cloudy today and Saturday with
a few scattered showers.

VOL. XXXVIII., NO. 185 FREDERICTON, N. B., FRIDAY, AUG. 5, 1932. Two Cents Per Copy

Libby Reynolds is Charged With Death Of Playboy Husband

She and Ab Walker, Secretary, Will Go Behind Bars Until Trial for Murder in September—Degree of Murder Not Named—Reynolds Was Heir to Millions.

WINSTON-SALEM, N. C., Aug. 5—Libby Holman Reynolds, the "torch singer" of Broadway, was expected to surrender today or Saturday, enter a jail cell and remain behind bars until tried with 19-year-old Ab Walker on charge that they murdered her playboy millionaire husband, Ab Walker, secretary and constant companion of the late Smith Reynolds, heir to the R. J. Reynolds tobacco millions, already is in jail. He was placed there shortly after the grand jury indicted him yesterday. Neither Libby nor young Walker, once in jail, will be permitted to leave under bond as North Carolina law forbids such release. The present criminal court docket is crowded, so it is unlikely that they will be tried before a special session may be ordered. Such a session would be in September, probably, if ordered. The local bar is expected to request such a session at that time.

The true bills returned did not name the degree of murder to be charged. That is left to the discretion of the prosecuting attorney. First degree murder conviction would result in a death sentence. A second degree conviction would permit a minimum 30-year prison term.

Both Indicted
The indictment read in part:
"Libby Holman Reynolds and Albert Walker, with force and arms, unlawfully, willfully, feloniously, deliberately, premeditatedly and with malice aforethought did kill and murder Smith Reynolds."
Waiting in trust for Smith Reynolds when he became 28, was a fortune estimated at \$15,000,000. He was not 21 when he died. Libby Holman will not share in the fortune unless she bears a posthumous child.
Ab Walker would not talk yesterday. Asked if he had a statement, he stuttered, "No, no, I have nothing to say."

POKER TERMS TO DESCRIBE CONFERENCE

Ottawa, Ont., August 4—In poker parlance Canada has opened the "pot", the United Kingdom has "come in", and both are going to "draw cards". This illuminating simile was brought out by interrogation during the press conference here today, when the announcement was made that definite proposals had been made by Canada to Great Britain.
"I know you don't know how to play poker," declared one newspaperman to the press liaison officer, "but would you say that Canada has opened the pot? Are the British going to chip in?"
"Oh, the British always stay," was the reply. "And we are both going to draw cards."

GRAND OPERA ON NEW BASIS

Chicago, Aug. 5—Grand opera at variety prices, with a two-dollar top and with the high-priced artists getting a share of the receipts, is contemplated in Chicago. The plan would put grand opera on a "pay-your-own" basis.

TUBERCULOSIS CLINICS TO BE CONTINUED

Free Clinics Sponsored by Victoria Public Hospital, Victorian Order of Nurses and N. B. Dept Health to Reopen.

Dr. J. M. Cameron, Travelling Tuberculosis Diagnostician for the Western District of New Brunswick, will re-open tomorrow morning the free tuberculosis clinics at the Victoria Public Hospital, which were temporarily closed through the removal to Saint John of the former presiding physician, Dr. MacMillan, to take the office of District Medical Health Officer.
Dr. Cameron took his degree in medicine at the University of Toronto in 1925. Following his graduation he spent considerable time in tuberculosis work in the State of Pennsylvania. After his first several years of practice, Dr. Cameron resumed medical studies, this time as a post-graduate student at the Harvard University School of Public Health, which institution granted him the degree of Master of Public Health in June last.
The clinics which Dr. Cameron plans to reopen have been conducted for some years through the co-operation of the Victoria Public Hospital and the Victorian Order of Nurses with the Provincial Department of Health.

RATEPAYERS OF CHATHAM, N.B. WANT HYDRO

Chatham, August 4—A resolution that the ratepayers of Chatham were in favor of hydro being brought to the town was passed at a slimly attended citizens' meeting here tonight. The meeting was called by the Town Council in order that the ratepayers might discuss, before a plebiscite is held, all angles of the proposed extension to this area of the service of the N. B. Electric Power Commission. No date has been set as yet for the plebiscite.
The plan involves, in brief, the taking over of the municipally-owned electric light plants in the towns of Chatham and Newcastle and giving service thereafter to the two towns and other parts of Northumberland county. It is said that the project, if it materializes, will mean an expenditure of approximately \$1,000,000. It is held that better and cheaper service would be provided for the two towns and that rural areas, not now enjoying the benefits of electricity, would have current.

EARNs LIVING BY ATTENDING JUNGLE BEASTS

Oakland, Cal., Aug. 5—When captive jungle animals refuse to perform their material duties or threaten to make a meal of their cubs H. E. Jager is called. By profession he is "nurseryman for the young of fierce pets."
Jager's assistant is Miss Gypsy Penn, who takes care of the young cats at night.
But it isn't all fun to be nurse to jungle babies, as they must be fed from a bottle every three or four hours night and day.

CONVENTIONS OF DENTISTS FOR EMPIRE

Meet Next Week May be First of Series

DR. F. MALLORY ENTHUSIASTIC Arrived in Van of Fellow Countrymen

Quebec, Que., Aug. 4—The convention of the Canadian, British and Ontario Dental Associations at the Royal York, Toronto, next week is the first step in establishing annual imperial dental conferences. F. Mallory, prominent Canadian dental surgeon now practicing in London's west end, declared today when he arrived with C. J. Goldie, prominent British dentist, at Quebec today in the Canadian Pacific liner, Empress of Britain.
"This is the first year that the British Dental Association has held its annual meeting outside the United Kingdom," Mr. Mallory continued, "and it is felt that the visit of the British dentists to Canada will be a real preparation for the development of Imperial dental conventions with delegates present from all parts of the empire and Canada, owing to her present prestige and to her strategic geographical position in relation to the empire will be the logical place to hold the first imperial dental convention." Put in Mr. Goldie, who is paying his first visit to Canada and is keenly enthusiastic about this country.
Mr. Mallory, as a Canadian resident in London, has spared no effort over a long period in endeavoring to bring about the visit of the British dentists to Canada, and is equally keen to see furtherings of dental surgeons.

He and Mr. Goldie have travelled ahead of the main party of about seventy in order to aid in the completion of details for the reception and entertainment of the visitors, who are due here Sunday in the Canadian Pacific Duchess of York.

IS WINNER OF FISHER PRIZE

Edmundston, N. B., Aug. 4—Wilfred Cote, aged 17, adopted son of L. H. Morneau, Edmundston, has received word that he has been awarded first prize for the Maritime Provinces for the miniature Napoleonic coach which he submitted in the contest held by the Fisher Body Guild. He will receive \$100 in gold, a trip to Toronto and Detroit and may also compete in the international Fisher scholarship contest.
Thomas Turgeon, aged 17, son of George Turgeon, Edmundston, own four prizes, for various forms of skill in workmanship, amounting to \$100, in the same contest, being awarded third prize for the Maritimes.

KICKED IN RIBS WANTS DAMAGES SAYS INFORMANT

James Ryan, of Maple Grove appeared before Magistrate Whitman Haines in the Devon police court yesterday and was remanded until Tuesday for hearing, on a charge of assault, occasioning actual bodily harm. The informant, Patrick Fournier, of Phoenix Mills, near Napadogan, claims that Ryan kicked him in the side, breaking two ribs in a July 4 feud.
Ryan was arrested on Thursday by R. C. M. P. constables. Yesterday through his counsel, P. J. Hughes, K.C. he posted bail and is free until his hearing on Tuesday.

A Chicago propheticess can fortell when Chicagoans are going to be murdered. That is, pretty accurately. She always says, "soon."

New Jap Advances Are not Unexpected By Tokio War Office

Chinese Cities of Peiping and Tientsin Threatened—Manchurian War Lord Denounced for Organizing Banditry — Probably Will be Followed by Military Action.

TOKIO, Aug. 5—New Japanese advances into Jehol province and possibly to the Chinese cities of Peiping and Tientsin were believed impending today. The war office issued a statement denouncing Marshal Chang Hseuh Liang, Manchurian war lord, for organizing banditry in Manchuria. Similar statements in the past have been followed by military action.

Attempt Fails

CALCUTTA, Aug. 5—Sir Alfred Henry Watson, editor of The Statesman, escaped assassination today when a young Bengal Terrorist fired on him at The Statesman office. The assailant swallowed cyanide and died in a hospital. The attack occurred as Sir Alfred entered the office from his auto. The terrorist's shot went wide and he was seized by a newspaper employee and disarmed.

SUN'S OXYGEN TO BE SNAPPED BY SCIENTISTS

Banff, Alta., Aug. 5—Whether or not there is oxygen in the corona of the sun will probably be determined by observations of the total eclipse on August 31, in the opinion of Sir Frank W. Dyson, astronomer royal of England who with Lady Disson is a guest at Banff Spring Hotel during a tour of Canada prior to the event which is bring astronomers and scientists from all parts of the world to Canada, part of the province of Quebec being the best situation to observe from. Sir Frank explained that so much had been accomplished of late in photography in the red that it was hoped to be able to obtain better pictures of the sun's atmosphere and corona than ever before by use of the infrared rays. A large party of eminent astronomers is staying at the Banff Springs and many including Sir Frank will attend the meeting of the international astronomical union in Boston. The official observers for Greenwich observatory are stationed at Parent, Que., while Dr. F. W. Aston, F.R.S., of Cambridge, a distinguished scientist of world fame in connection with his work on the construction of the atom will be on the watch at Magog, Que. Other observers will be scattered throughout a broad belt of Quebec province along Canadian Pacific lines. The visitors also include Dr. Knox Shaw President of the Royal Astronomical Society and Radcliffe Observer of Oxford, F. Goodacres, President of the British astronomical association, Professor and Mrs. Niethammer, of Basel Switzerland, Mr. P. H. Albrunner, member of the Institute of Science, Paris, France, accompanied by Miss Halbrunner, Signor C. Darturo, Bologna, Miss K. Williams, Assistant Secretary, Royal Astronomical Society, Miss G. Freeth, Miss K. Murray, Capetown South Africa, Dr. and Mrs. Mayer, Paris, and F. Carder Davis, W. H. White, G. Thackery and Miss E. Neil of London, England.

CHACO CLASH IS REPORTED BY NEUTRALS

Buenos Aires, August 4—Another armed clash between Bolivian and Paraguayan troops in the disputed Chaco territory was reported today for mTarija, Bolivia, just across the Argentine border.
The report was sent out from Quila, an Argentine town within a few miles of the border, by a staff correspondent of La Nacion of Buenos Aires.
The correspondent picked up "an official Bolivian bulletin" posted at Tarija, asserting that a heavy artillery bombardment had commenced in the Pilcomayo sectors of the Chaco. The bulletin quoted Division Commander Col. Pena. The news was received enthusiastically at Tarija.
(The vagueness of the Bolivian bulletin left a doubt as to exactly where the clashes were occurring. There are several "Pilcomayo sectors" of forts, most of them Bolivian, since the Pilcomayo divides Bolivia from Argentina.
(Bolivia's forts extend roughly eastward deep into the Chaco all along the Pilcomayo, a river that is generally regarded as marking the southwestern boundary of the disputed section of the Chaco. The Paraguayan forts lie roughly further eastward, although at some points the opposing garrisons are close enough to each other for artillery bombardment).

TURKEY GOBBLER HATCHES 8 EGGS

Connellsville, Pa., Aug. 5—A gobbler drove a turkey hen from her nest and proceeded to hatch the eight eggs himself, according to J. L. Evans, of near here. Evans said the ousted mother made a new nest and laid 12 eggs.

Fire Damaged Kitchen

A fire caused from an electric stove, broke out last evening about 9 o'clock at the residence owned by Raymond Currie, Westmorland St. and occupied by Ralph Wilson. Some damage was done to the furniture in the kitchen and the house was badly smoked up.
