

Her Heart Was So Bad Couldn't Do Housework

Price 50c a box

Sold at all drug and general stores, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

Here's a brief but complete obituary of the last few years: "We measured values by prices paid, even when we ourselves paid the prices that fixed the value."

The first patent issued in the United States was for a process of making pearl ashes.

Mrs. S. Dragoman, R.R. 2, Midland, Ont., writes:—"I had been troubled with heart trouble for many years.

My heart would beat so fast I could hardly breathe, and I had headaches, and dizzy and fainting spells.

I couldn't get my housework done I was so weak. I took three boxes of Milburn's Heart and Nerve Pills and felt much better, and now I would not be without them in the house."

A Massachusetts girl laughed so heartily at a film comedy she cracked a rib. An item the same day says industrial mishaps in the movies have become rare.

In totting up the family budget, don't overlook potatoes. They make you fat and they're cheap.

THE MONTH OF ROSES

If You Contemplate Matrimony This Month You Will Need

WEDDING INVITATIONS AND ANNOUNCEMENTS, and perhaps a supply of VISITING CARDS.

We have a large assortment of samples to choose from and can fit you out on short notice. Send in your order without delay. Don't be bashful, and bear in mind that all the world loves a lover. This is Leap Year and do not let your chances like sunbeams pass you by.

Come to the MAIL OFFICE for your WEDDING STATIONERY

J. CLARK & SON, LTD.

THE KEYNOTE SPEECH AT THE REPUBLICAN CONVENTION SILENT ON PROHIBITION

Chicago, June 14—Col. Hanford MacNider, U. S. Minister to Ottawa, may be the next Vice-President of the United States.

While it remains probable Vice-President Charles Curtis will be renominated with Mr. Hoover by the Republican National Convention which began a spiritless session here today, there is a sustained sentiment among the delegates against the 73-year-old Kansan.

If it comes to choosing a younger and more adroit politician, as a running mate for Mr. Hoover, General Charpen Gates Dawes, ex-Ambassador to Great Britain and ex-Vice-President, has the best chance of nomination. Then come Pat Hurley, Secretary of War, Walter Edge, Ambassador to France Senator Walcott, of Connecticut, a confidant of the White House, Col. MacNider and others. Once it is evident the delegates will not go for Curtis, the field is open.

The theory that the Vice-President will not be renominated has more basis than conversations in lobbies and corridors of the convention hall. It is generally agreed President Hoover will need all the support he can get if he is to carry the election in November.

Little Enthusiasm

Observers point to the lack of enthusiasm displayed by loyal Republicans when key-noted Senator Dickinson of Iowa mentioned his name at the opening of the convention this morning. The applause in the vast hall of the Stadium, one-third empty, was prefatory and the band had to strike up to carry it over the seconds into a minute.

Upon this Vice-Presidential point and upon the prohibition plank which the resolutions committee works up on far into the night rests almost all the interest in this convention.

Wet lobbyists privately admit they see no hope of a plank calling for repeal and insist there will be a good scrap on the floor of the convention tomorrow night.

Dry lobbyists are pretty well reconciled to a compromise plank calling for enforcement and suggesting the right of the people to change the law by referendum.

Veteran convention attenders say they have never seen such lethargy as was displayed at the opening session this morning. Everyone was late, many seats were empty and while Dickinson gilded the Republican Lily and inveighed against Democratic machinations people smoked, wandered about, talked, left the hall.

Keynote Speech

The keynote speech, entirely silent on the prohibition question, told the national convention that:

President Herbert Hoover had prevented a financial panic in the United States, maintained social order, mitigated unemployment distress and preserved the international financial structure. By reference the President was compared to Abraham Lincoln.

Senator Dickinson also generously and generally defended all Republican policies. In these distressful times there was just "one bulwark of salvation for the United States," he shouted, and that was the Hawley-Smoot Tariff Act. The Federal Government had given agriculture \$1,000,000,000 during the past three years. The Farm Board had stemmed a panic in agricultural prices.

The keynoter intoned his eulogy of President Hoover and Republicanism in the red, white and blue auditorium of the Stadium to an accompaniment of handclapping and cheers. While he limited the party and its chiefs and policies in marvelous hues he did not fail to tar and feather the Democrats properly.

For two long years, he said the Democrats had hampered the President at every turn, belittled his effort, impugned his motive, frustrated every move—their orders, "smear Hoover." They painted a dreadful picture of ruin and horror, public confidence was shaken, pessimism was rampant. They called for inflation whereas the safety of the country required the maintenance of the value of the dollar. With fine scorn he pointed out that while Democrats had inveighed against the Hawley-Smoot Act, they had "generously supported duties on copper, coal, oil and lumber."

Refuses Endorsement

Chicago, June 14—Col. Hanford MacNider, United States Minister to Canada, banged the gavel vigorously today at a meeting of the Republican Service League to emphasize his refusal to consider a motion to endorse "Hanford MacNider" for the Vice-Presidency.

Chairman of the League he was presiding at a meeting of nearly 30 veteran members all delegates to the Republican National Convention. The gathering was to organize the League on a national basis.

Attempts to introduce resolutions endorsing MacNider for the Vice-Presidency kept coming and MacNider, former commander of the American Legion, kept banging them down.

Finally George W. Gardiner, of Worcester, Mass., asked the chairman: "Jack, the principal purpose of this organization is to help the Republican Party, is it not?"

"That's the principal purpose," MacNider smiled back.

"Then I move that this body endorse Jack MacNider for the Vice-Presidency," Gardiner boomed back as the veterans arose and cheered.

"You are out of order, all of you," MacNider roared back.

THE EMPRESS HAS BIG LIST OF PASSENGERS

Quebec, June 15—The Canadian Pacific liner Empress of Britain (Capt. R. G. Latta) which hung up a new record between Cherbourg and Father Point on her outward voyage concluded at Quebec Monday, is sailing from Quebec Thursday with 800 passengers for Cherbourg and Southampton.

A large list of notables will be carried by this liner, including people from all parts of the United States, Canada, the Orient, and Great Britain.

INCOME IS NOW \$1400 A YEAR

New York, N. Y., June 15—The socially prominent widow of Reginald Vanderbilt now has an income of only \$1400 a year, it was disclosed today by George W. Wickersham, guardian for her 8-year-old daughter, Gloria Laura Morgan Vanderbilt.

It had been assumed when the Vanderbilt will was probated in 1925 that "the entire residuary estate" left to Mrs. Vanderbilt, after a trust fund was provided for the child, was large. When debts and expenses were paid however, the total was only about \$100,000.

Wickersham made the disclosure in asking surrogate's court to grant a continuance of the \$4000 monthly allowance for the support of the child. The petition was granted.

The trust fund for the child was worth \$2,734,137 last Dec. 31. It produced in 1931 an income of \$113,678.

AFRICAN SNAKE WINS HONOR

Grand Rapids, Michigan, June 15—The most dangerous living thing, in the opinion of Capt. Barnett Harris, is the black mamba, a snake found in the African jungle.

Harris, in an interview here, said the mamba's poison kills a human within a few minutes after the bite. It can rear up high enough to strike a man on horseback, he said.

The captain, returning to America after a photographic expedition in Africa, said scientists have recently perfected a serum which will counteract the mamba's poison. But, he said, the serum must be administered within a few seconds after the bite.

Poetic Justice

A York street merchant happened to notice that half a dozen women were waiting as he took his turn in the Barber shop on Saturday.

"Poetic Justice," he remarked.

ORGANIZATION TO PROMOTE DOG TRIALS IN N. B.

Ozark Ripley Outlined Scheme at Gathering of Sportsmen and Dog Fanciers Last Evening.

New Brunswick will be the scene of the first international championship for grouse and woodcock dogs ever held in Canada, if the plans of the North American Cover Dog Trial Club, formed at a meeting held here yesterday, are carried out.

The new organization was formed in Fredericton last night at a meeting attended by enthusiastic woodcock and grouse sportsmen who are to sponsor the international championships for grouse and woodcock dogs.

Ozark Ripley, well known naturalist and writer, who came to Fredericton at the invitation of D. Leo Dolan, Director of the New Brunswick Government Bureau of Information and Tourist Travel, attended last night's meeting and outlined to the New Brunswick sportsmen the details of the proposed international championships. Mr. Ripley will take charge of the trials which are to be held in this province late in September and he will be assisted by officers of the North American Cover Dog Trial Club. Last night a temporary executive was named to carry on the organization work of the club which is expected to include within its membership sportsmen in all parts of New Brunswick.

Mr. Ripley Speaks

Mr. Dolan presided at last night's meeting, which was held at "Pine Bluff", on the Saint John river and Mr. Ripley was the principal speaker at the gathering. He declared that international championships would bring to New Brunswick dogs from New York, Connecticut, Rhode Island, Michigan and other states in the Union, as well as from the province of Quebec. Mr. Ripley re-iterated the statement he had made previously at trials in the United States that New Brunswick was he one place on the continent where successful championships could be staged. He further declared that the holding of the trials in this province would not result in having some of the most sought after "covers" taken up by United States sportsmen, adding that the men who took part in these trials were more interested in the performance of the dogs they entered than in the leasing of special covers.

It is proposed to have these trials during the latter part of the month of September and Mr. Ripley will, during the summer, visit several sections of the province before definitely deciding upon the actual site to be chosen for the international championships.

Proposal Endorsed

At last night's meeting the proposal was enthusiastically endorsed by woodcock hunters from Fredericton and Saint John and representatives from St. Stephen also forwarded their endorsement of the plan. W. G. MacIntyre, of St. John, was named as Secretary of the North American Cover Dog Trial Club, while an executive composed of Rev. Father Allen of Petersfield, Allan G. McAvity, J. H. Pullen and J. H. Vaughan, of Saint John, George Walker, Cahries Middlemiss, and Dr. Gray, of St. Stephen, Claude Knapp, of Andover, J. Harold MacMurray, J. Stewart Neill and C. F. Bailey, of Fredericton, was appointed. This executive will meet in the course of a week or ten days to elect officer and proceed with the organization work in connection with the trials in September.

It is expected that the all-American trials here will bring an entry of 75 and 100 dogs to New Brunswick and will result in local dog fanciers having the first opportunity to test their dogs against the best field trial canines in the world.

Montreal, June 14—A denial that the Government of the Province of Quebec intended to impose an income tax as reported in today's Gazette was made here by Premier L. A. Taschereau. "The government of Quebec," he said, "has no intention and never had the intention of introducing an income tax."

STRAY HOUND WISE IN SEARCH FOR HOME

Evanston, Illinois, June 15—Oscar a stray bloodhound, may not know where his home is, but he uses good judgment anyway. The dog was picked up by William Erlandson, Evanston's official dog catcher, who wondered what to do, finally coming to the conclusion that if a bloodhound is smart enough to catch criminals, he should be able to find his own way home.

Erlandson put his theory into practice yesterday. He put Oscar on a leash and started to search for his home. The dog picked up a trail at once. It led down alleys and over fences until lab business establishment was reached. There the dog sat down. Erlandson looked at the sign above the door. It read:

"Butcher shop."

HEAVY VOTE TO BE POLLED IN MANITOBA

Winnipeg, Man., June 14—Manitoba goes to the polls Thursday with a voting strength increased by from 35 to 40 per cent. over that of 1927, when the past provincial general election was held, and the electorate promises to cast more votes by far than ever before. Party leaders are unanimous in the opinion that a record vote will be polled Thursday.

IMPOUND MINE WATER TO SAVE THE FISH LIFE

Harrisburg, Pa., June 15—Fish life will be restored to many streams in Pennsylvania if the water purification plan of state engineers succeeds in practice as well as it has in experimentation.

The engineers devised the plan to free streams in the soft coal areas of their "sulphur water," or acid content.

Under the plan, water used in the mines is kept there for a definite period instead of being released into nearby streams. The water is impounded in unused sections of the mines and shut off from air currents for several weeks. During the period the acid in the water becomes alkaline, and in that form is not harmful to fish life.

CROP OUTLOOK IS EXCELLENT

Moncton, N. B., June 14—Crop conditions in Western Canada are excellent and a spirit of optimism prevails, stated J. S. McGowan, assistant director of colonization, Canadian National Railways, who has just returned from a trip to the west and who passed through Moncton today on the Ocean Limited en route to Nova Scotia to look into matters connected with the placing of settlers on land in that province.

CELEBRATES TWO SILVER WEDDINGS

Shrivenham, Berkshire, England, June 15—Viscount Barrington, who observed his 84th birthday not long ago, has the distinction, almost unique among twice-married men, of celebrating two silver wedding anniversaries.

Enjoyable Stag Party

Dr. A. L. Gerow was host last evening at a most delightful stag party held at the city club and cards were played during the evening with Dr. Charles MacKay high point winner. At about 11.30 a lobster supper was served. Those present were James M. Scott M.L.A., A. A. Shute, Dr. Charles MacKay, John D. Palmer, F. S. Munroe, A. W. Barbour, R. L. Phillips, G. F. Burden, H. H. Blair, Major Jas. Pringle, J. G. Badcock, Wm. Poole, H. W. Woods, D. W. Olts, C. Albert Kitchen, B. M. Lemont, J. Hazen Fleming Wm. L. Anderson and the host Dr. A. L. Gerow.
