A GOOD WAY TO TO WASH YOUR LACE CURTAINS

Even a casual survey of the furniture shops will reveal the fact that house furnishings and decorations have gone Victorian. Perhaps this is in keeping with the feather boas and fringe that marks the new fashions.

It is quite evident that lace curtains are coming back. And so if you have or are planning to use lace curtains, here is a tip of washing and hanging them that has just been given to me by a famous decorator.

Wash the curtains in several waters until all the dirt is out.

Make a clear, thin, hot water starch and pull curtains through this solution. Squeeze starch out well.

Put curtains, while still wet, on the rod and replace rod. The whole trick is to pull the curtains into shape and position while they are yet wet. They'll be dry in ten minutes.

They will hang more beautifully and gracefully than ever before. Never iron lace curtains.

By this method you keep them for years without even one tiny hole in the net and they will always look handsome.

PASTRY

1 1-2 cups flour
1-2 teaspoon salt
1-2 cup fat
Cold water
Sift together the flour and salt. Cut in the fat with two case knives. For a large quantity a wooden bowl and chopping knife may be used. When fine, add at one side the bowl one tablespoon of cold water and stir in as much of the flour and fat as the water will take up. Continue this until you have four or five balls of dough and seem dry flour left in the bowl. Press together with your fingers. If all the dry flour is not taken up add a little more water. Chill and roll.

LEMON APPLE FILLING

4 apples
2 lemons, juice and grated rind
2 cups sugar
Pare apples and grate into saucepan. Add the juice and grated rind of the lemons and the sugar. Cook for five minutes, stirring constantly. Cool before spreading.

PINEAPPLE LEMON CREAM FILLING

7-8 cup of sugar
1-2 cup of flour
1-8 teaspoon salt
3 cups scalded milk
3 tablespoons lemon juice
2 eggs
1 1/2 cup crushed pineapple (if fresh pineapple is used increase the sugar to one cup).
Mix dry ingredients, add eggs, slightly beaten, and pour on the scalded milk. Cook fifteen minutes in double boiler, stirring constantly until thickened, afterward occasionally. Cool, add lemon and pineapple.

WINDY NIGHT

Beside the pool of the barberries hang Red from the drooping bush; The sunset dwindles, the windy stars Come with a sudden rush. This is a night when the leaves will fall Gold on the darkened ground, And there'll be no one on country roads For miles and miles around. —FRANCES FROST, in New York Sun.

PRUNE BREAD

1 cup prunes, soaked, drained, stoned, chopped
1 cup flour
1 1-2 cups graham flour
2 tablespoons sugar
1 teaspoon salt
5 teaspoon baking powder
1 1-2 cups milk
1 tablespoon melted shortening
Combine dry ingredients, add milk and shortening. Place in oiled one-loaf pan. Pat top with oil. Let stand 20 minutes. Bake one hour at 350 degrees F.

A noted physicist says the Einstein theories are easier to understand than economics. Personally, we have rather less trouble with economics than with economists.

LEMON SRUMB PIE

3-4 cup soft bread crumbs
1 cup cold water
1 cup sugar
2 egg yolks
1 tablespoon melted butter
Juice, rind of one lemon
Plain pastry
Soak bread crumbs in cold water until soft. Beat egg yolks and mix with sugar, add melted butter, lemon juice and rind to soft bread crumbs. Stir all together thoroughly and pile into a pan lined with plain pastry. Bake in a hot oven (450 degrees F.) for ten minutes, then at 350 degrees for 30 minutes.

ORANGE BREAD

1 cup milk, scalded and cooled
1-2 yeast cake
Flour
1-2 teaspoon salt
1-2 cup orange marmalade
1 egg well beaten
3 tablespoons melted butter
To the milk add yeast and 1 1-2 cups of flour. Let it rise until light; add salt, marmalade, egg and butter and then enough more flour to make a soft dough. Knead well. Place in oiled bowl. Brush top with oil. Let rise, shape into loaf. Let rise and bake one hour at 375 degrees Fahrenheit.

Jazz Discussed by John Howard

New York, Oct. 1.—That many of the Hungarian dances of Brahms are almost pure rag-time, and that Irving Berlin is by no means a jazz composer, are some of the assertions John Tasker Howard, well known authority on native music, will defend in "Jazz and the American Scene," one of the broadcasts in his "Our American Music" series, to be heard over a NBC-WJZ network Sunday, October 2, at 3.00 p.m., E.S.T.

Jazz, as it has not been played since the days of the Dixieland Jazz Band and the Memphis Five, will feature the program when Phil Napoleon and Miff Mole, original members of both of those early bands, head a five-piece orchestra rendering "The Livery Stable Blues." Other examples of rag-time jazz will be included in the survey.

GARDEN SANDWICH

To 1 1-2 cups finely shredded raw spinach add one hard-cooked egg, two small onions, one stalk celery and one half cup dill pickle which have been put through a food chopper. Moisten with mayonnaise. Spread between slices of whole wheat bread.

Sandwiches can be varied in taste by the bread used with the filling. Nut, graham, bran, orange, fruit or whole wheat bread make delicious sandwiches. Here are some recipes for bread which the children will love.

C. N. R. OUTLAY EXPECTED TO BE CUT \$47,000,000

Ottawa, Ont., Sept. 30.—When the public accounts are tabled at the approaching session of Parliament, the economics, which have been effected in the operation of the Canadian National Railways are likely—notwithstanding the extent to which they have already been heralded and therefore discounted—to make a profound impression.

Lately figures ranging from \$20,000,000 to \$28,000,000 have been published as representing the economics, which have been effected in the operation of the road. These figures apply only to the running expenses, however and do not take into account the drastic pruning which has been done upon capital expenditures.

Taking this latter saving into account, it is authoritatively stated that the Government-owned road will report expenditures approximately \$47,000,000 below last year's total.

C. N. R. Budget Slashed

The C. N. R. budget last year was \$108,000,000; this year it is given reliably as \$61,500,000. Included in this latter figure was \$6,000,000 for capital projects and it is stated that the road is unlikely to use even this amount.

The belief which was held in many quarters that the Government's success with its refinancing in New York on the first two days of the week would be followed by an immediate announcement of the major loan which is to be floated this autumn has been disappointed by the departure of Hon. E. N. Rhodes, Finance Minister for Nova Scotia. Manifestly, nothing will be done until his return.

The whole question of financial policy is proving the most complex matter which the Government has in hand. The problem for the Ministry to decide is whether or not the conditions that it is facing at the moment are likely to persist. Admittedly

by the last of the \$213,000,000 that the Government secured in its national service loan of last year has been spent. And, likewise, revenues of this year have failed to register any improvement over last year, despite the tax increases which were made. In fact, the income of the national Treasury is running somewhat under a year ago.

In spite of these unfavorable factors there is a strong disposition in governmental circles to believe that things are definitely on the mend. The most encouraging feature of the Canadian situation is the stability, which income tax collections have shown during the year. Whereas in other countries, notably the United States, they have slumped heavily, in Canada there has been relatively little decline. The decision which the Cabinet ministers have to make is whether the other revenues, which have fallen off, are about to recover and whether on this account a drastic policy of taxation increase can be avoided, or at least modified. It is admitted that, if present conditions are to last, the policy of borrowing which has grown up in recent years cannot be continued.

The English market as a prospective source of funds is still being studied, but with less favor than when it was last surveyed. Borrowing in England, the Canadian Government would have to contract to pay possibly \$486 for every dollar secured, depending upon the fluctuations in exchange. In order to justify this speculation, the English rate has to be so attractive as to compensate for any possible loss in exchange. Until lately this situation existed but now the market is said to be changing and the spread between the London and the Canadian market narrowed. From the loan is likely to be a domestic issue.
