## GERMAN EDITOR SAYS PRIMEVAL STATE OF CIVILIZATION WILL BE RESTORED ENQUIRY INTO OTTAWA FIRE

LONDON. Feb. 10.—German newspapers which reached here today publish long extracts from the speech made by Maximilian Harden, editor of the Zukunk, at a public meeting in Berlin, on February 5. He is quoted as saying: "We are yet unconvinced that we are fighting with our backs to the wall. As soon as we reach this conclusion, there will be war without mercy or quarter. The primeval state of civilization will be restored. Man will face man with wolf-like ferocity. If the world insists upon despising the Germans, then the word "Europe' will lose all its sense and meaning. Europe can still be rescued. It is only the attitude of our enemies which con-jured up the menace of destruction. If the rescue, however, is attempted at the expense of the German Empire, then It the As soon as we reach this conclusion, there will be war without attempted at the expense of the German Empire, then It the world not deceive itself for a moment into thinking there will be any means whatever-let the world think what it pleaseswhich the German people will not joyfully turn against its fees.

**Extracts From Newspaper Advertisement** Show That The Situation is Serious---Reports of the Victories Are Published to Allay Popular Discontent.

LONDON, Feb. 10 .--- While the German newspapers are telling of the Kaiser and his armies marching on from victory to victory and relating daily new exploits calculated to stir the people to enthusiasm, the fact that Germany actually is on the verge of starvation is becoming daily more apparent. This conclusion is not founded on the statements of alleged "neutrals," whose impressions necessarily are biased, but is based on reports of the actual conditions, as related by the German press.

The theory is advanced that the Berlin government encourof the destroyed buildings from fyled leges the publication of alarming reports on the food situation with a view to misleading the enemy. This is absurd. It is obvious that the government does not encourage the publication of advertisements like the following, displayed in Berlin papers:

> "In view of the great shortage of fats, hotels, restaurants and all cooks are urged to make use of the new apparatus called the fats-separator, which, installed in an ordinary sink, prevents a particle of fatty matter from slipping through the drain.

Other advertisements from the German papers follow: 'Werner & Metz, of Mainz, wish to buy hundred pound lots of rancid fat of any description."

The Phoenix Flour Milling & Grain Works require refuse of all descriptions."

'Wolffer's Grocery, of Bingen, offers high prices for peanuts, but scorns horse-chestnuts.'

The Vorwaerts, the Berlin Socialist daily, cites the case of A. Fuerstenwalde, butcher, who offers to sell a pound of fat to clients buying goods with gold coins."

Those familiar with German appetites will realize the gravity of the situation by examining the daily menus printed in the newspapers. The following are taken from the Hamburg Fremedenblatt: Tuesday, dinner: Barley soup, pancakes, pickled beans, tomato sauce. Friday, dinner: Potato soup, fish pie. Saturday, dinner: Potato soup, oatmeal pudding, pickled cabhage
