THE UNIVERSITY

The University of New Brunswick today marked the closing of its one-hundred and thirty-third year by graduating the largest class in its history. This would seem to indicate that the fine old institution of learning has at least in a measure escaped the depression which has been so prevalent in this as well as in other countries.

The University of New Brunswick was founded by the United Empire Loyalists, the sequi centenniel of whose arrival at Saint John was fittingly celebrated yesterday in that city. The success which has attended the institution during the century and a third of its existence and the potent influence that it has exercised on the life of the province and Dominion shows that its founders builded better than they knew. That it has been able to function with more than one hundred per cent efficiency through the most trying period of depression that Canada has ever experienced is highly creditable to the members of the senate, the president, Dr. C. C. Jones and the members of the faculty and also the student body.

At the encaenia today the old institution graduated a class of eighty-one with degrees of B.A., and Bs.C., three candidates received degrees of M.A., the degree of B.A. ad Eundem was conferred upon three, one took a degree in forestry and three honorary degrees were conferred, making a total of ninety one. This is certainly a splendid showing and reflects credit upon all concerned.

The University with the aid of generous assistance from the provincial government has made substantial progress during recent years and is now one of the best equipped institutions of higher education in the Maritimes. New and modern buildings have been added to the plant, up-to-date equipment has been provided, the faculty has been increased and the student body has reached large proportions. The institution is a very valuable adjunct to the city of Fredericton and the people of this city are deeply interested in its welfare. All sincerely hope that the young men and women who graduated today will achieve success in life and shed lustre on their alma mater.

A WORTH WHILE TIP

Says the American Bankers Magazine:—

"No business man in any town should allow a newspaper published in his town to go without his name and business being mentioned somewhere in its columns. This does not mean you should have a whole, half, or even a quarter page ad. in each issue of the paper, but your name and business should be mentioned, if you do not use more than a 2-line space. A stranger picking up a newspaper should be able to tell what business is represented in a town by looking at the paper. This is the best possible town advertiser. The man who does not advertise his business does an injustice to himself and the town. The life of a town depends on the live, wide-awake and liberal advertising business man.

There is one feature in connection with salmon fishing regulations, which is difficult for the average individual to understand. The netting season for salmon on the Saint John River opened on May 1st, but the angling season proper is not supposed to begin until May 24th. In the meantime those who care to try their luck with rod and fly can obtain permits on application to the fishery supervisor. The object of the law seems to be to protect the fish agains tthe onslaughts of anglers only, and as permits are issued it often fails even to accomplish that purpose. It seems ridiculous for the law to say to a man that he can catch salmon in a net, but must refrain from using a more sportsmanlike method.

When a smile goes so far as to show the teeth it changes its entire meaning, often not for the better.

An unexpected development in connection with the loyalist celebration at Saint John was the arrival at the last moment of a French sloop of war. The officers and men were cordially greeted and were able to participate in the celebration. The arrival of the French war craft, and the part that people of French descent have played in the affairs of Canada was referred to by Premier Bennett in his speech at the Capital theatre.

Rt. Hon. R. B. Bennett after a busy day in Saint John yesterday left for Ottawa at nine o'clock in the evening by special train. Pressure of public business made it impossible for the Prime Minister to visit Fredericton to attend the University encaenia, but the honorary degree of Doctor of Laws, was conferred upon him in absentia.

Chicago continues to present a horrible example of municipal mis-government, with unpaid police officers compelled to check demonstrations by unpaid school teachers.

INDIANS TO BE REIMBURSED

Ottawa, Ont., May 19—Indians will not lose the defalcations from their trust funds due to A. H. Lomas, former agent at Cowichan, B. C., who is now serving a sentence following his conviction.

In the supplementary estimates today is a vote of $15,770 to make good to the Indian Funds, the amount of Lomas' defalcations.

It seems a waste of time to debate whether Hitlerism is a disease or a philosophy. Obviously, as in the case of communism, it may be both.

Mixture Rain and Heat

Intermittent showers of varying insenity and hot weather combined today for a typical mid-summer day. The rain was brief and not damaging. Thermometers rose to the 80 degree mark. The temperature was high yesterday being perhaps the warmest day of the summer to date. A windstorm accompanied by heavy rain in the afternoon was only of brief duration.
