Storm Troopers of The Nazi Mobilize To Take Mass Action

Act on Last Minute Instructions From Boycott Committee—Will Appeal to Patrons of Jewish Shops to "Buy German"—Payment of Fees to Lawyers and Doctors Stopped.

(Special to The Daily Mail by the British United Press)

BERLIN, March 31—Twenty-four hours before their scheduled nation's-wide boycott of Jewish industry and commerce, Nazi storm troops mobilized today for mass action in every city of Germany in last minute instructions issued through boycott committees set up by the Hitlerites to manage the boycott, it was emphasized that tomorrow's action is not a government but a party activity. Regulations for the orderly boycott were issued today. They provide that would-be patrons of Jewish shops must not be hindered from entering any stores, but that the pickets shall appeal to them to "buy German."

Foreign Stores Eliminated

Foreign stores by new orders will be eliminated from the picketing. Because of the great number of practising Jewish doctors and lawyers it will be impossible to picket individual offices. But it is planned to stop all payments of fees, general sick benefits and insurance, funds by which they might benefit. Later these physicians will be eliminated from hospital and clinic staffs, through cancellation or non-renewal of their contracts action gainst the lawyers will be concentrated at the general chamber adjoining the German courts, where storm troopers will prevent Jewish attorneys from entering to plead their cases.

The subject was, "Resolved, That the Canadian Dollar Should be Inflated and Placed on a Par With the Pound Sterling."

Supporting the affirmative for the University of New Brunswick were H. Campbell Creighton, Saint John, leader; Lloyd Machum, Fredericton, and Angus Cameron Saint John. The St. Francis Xaxier speakers were Gordon Foster, Antigonish, leader; J. Hogan, Saint John, and Norman R. Chappell, Sydney. Rt. Rev. Msgr. H. P. MacPherson, president of St. Francis Xavier, presided, and the judges were A. L. Kerr, Antigonish; Prof. Eaton, Truro, and Dr. James Bingay, Glace Bay.

Machum pointed out that inflation was particularly needed to assist agriculture and improve export trade. Hogan, second speaker for the negative, showed the causes of the present situation. Cameron, the last speaker for the affirmative, maintained that the advantages of inflation would greatly outweight the evils. Chappell, in concluding the debate for the negative, pointed out the evils and moral injustice of inflation.

Following the debate the visitors were guests at a banquet given by the Debating Society.

WOULD INCLUDE LUMBER, ALSO WOOD PRODUCTS

Hon. Mr. Tilley Gives Notice of Motion to House

TO COME UP ON TUESDAY

Wants Pound Stabilization Made of Value to New Brunswick

In the Legislature last evening Hon. Mr. Tilley, Minister of Lands and Mines, gave notice that he would move on Tuesday next a resolution favoring the extension of the stabilization fund to include Canadian lumber and wood products, shipped to the old country markets.

The preamble of the proposed resoluction refers to the fact that a plan presented to the House of Commons, Ottawa, in the budget speech of the Minister of Finance, contemplates the stabilization of the exchange rate of the pound sterling, whereby exporters to the United Kingdom will be paid the difference between the price actually received for their exports and a fixed value of $4.60 for the pound sterling.

The Reasons

Reasons for Mr. Tilley's proposed resolution are stated as follows:

"These benefits have been extended to a limited number of exports but have not included lumber and wood products.

"New Brunswick has a total area of approximately 18,000,000 acres, 70 per cent of this area, 12,500,000 acres, being forested—a per capita acreage of foreign lan of more than 30 acres.

"The industry employs a large proportion of our population in lumber woods operations, stream driving, saw mills and freight handling.

"The industry has dropped more than 70 per cent of its normal cut, caused by world low market prices.

"It is important to stimulate and rehabilitate our provincial lumber trae with the United Kingdom.

"Therefore, be it resolved," the notive of motion concludes, "that this House of Assembly favors the extension of the provision for the stabilization of the exchange to include Canadian lumber and wood products shipped to the United Kingdom."

THINKS PARTY LEADERS SHOULD BE MARRIED

Th Vancouver Sun thinks that if the Prime Minister and the Leader of the Opposition were married men they would show a better insight into the problem of unemployment. Bachelor leaders survive because married men cannot concentrate on politics. As the Sun pointedly asks:

"What chance have the mothers of Canada to get at Mackenzie King, snugly ensconced in his bachelor quarters at Laurier House? What does he know of their troubles and problems?

"What chance have the mothers of Canada, or their unemployed husbands, to reach Premier Bennett in his palatial suite at the Chateau Laurier or in his private car, both built and paid for by the people of Canada?"
