Japan Quite Likely To Withdraw From League of Nations

Committee of Nineteen Decides That Latest Instructions From Tokio to Japanese Delegation Do Not Justify Reattempt at Conciliation of the Manchurian Dispute—Japan Awaits Report.

(Special to The Daily Mail by the British United Press)

GENEVA, Feb. 4—Likelihood of Japan's withdrawal from the League of Nations increased today when the League's committee of nineteen decided the latest instructions from Tokio to the Japanese delegation did not constitute sufficient grounds to reattempt conciliation of the Manchurian dispute.

The League was thus expected to proceed with recommendations for settlement of the dispute, which Japan will ignore. Japan's withdrawal will then depend on the nature of the report on the Manchurian situation to be made by the League Assembly. It is scarcely likely that the report will be satisfactory to the Tokio Government.

TORONTO BRANCH OF ROYAL BANK ROBBED OF \$3,000

Members of Staff and Police Pursue and Capture One of the Thugs After a Gun Fight.

Toronto, Feb. 3—Toronto's police force tonight swept through the city's byways in search of a cool gunman who today robbed the Royal Bank branch at Wellesley and Church streets and escaped with \$3,000 after an alleged companion had come off second best in a running gun fight.

The wounded man is Joseph Theodore Girouard, Detroit, and tonight he is under guard awaiting trial for armed robbery. He exchanged a number of shots with policeman Oswald Brown on a busy uptown corner, and finally surrendered after the policeman had shot him in the arm and chest.

Five minutes after the two bandits had stalked into the bank, employees and bystanders streamed into the street in hot pursuit. The men climbed into a taxi and roared up and down busy streets. A truck driver who was near the bank carried the manager, F. J. Blanchfield, and other employees after the two men. En route they picked up the constable and bullets passed back and forth between the two cars.

Blocked By Traffic

At the intersection of St. George and Bloor streets, near the University of Toronto, the constable ran in front of the bandit car, held up by traffic. He ordered the men out. Girouard is alleged to have climbed out on the opposite side of the machine and started firing again, while the second man, whom Girouard claims is James Clayton of North Bay, got away. The alleged bandit hid behind a telephone post. Carefully, Brown aimed and plugged his man. Girouard's gun dropped to the pavement. The gunman leaned down to pick it up.

"Drop that gun," shouted Brown. "I'll die first," retorted Girouard. But when the officer again raised his revolver, the gunman kicked the weapon away and surrendered.

London, Feb. 4—The spy glass used by Lord Nelson at Trafalgar brought 1,450 guineas, or about \$7,700 at par, in an auction here. A silver watch presented to Midshipman, who killed the sharpshooter who mortally wounded Nelson, brought nearly \$800.

VERIGIN NOW IN CUSTODY AT HALIFAX, N. S.

Halifax, Feb. 3—Fearing interference from Doukhobor agents, Mounted Police tonight moved cautiously as they brought Peter Verigin to Halifax to be deported to his native Russia.

The banished spiritual leader, weary after his long journey across Canada, was whisked from the Ocean Limited at Fairview, on the outskirts of the city, and transferred to an automobile.

Meanwhile inquisitive reporters were storming the office of H. M. Grant, immigration agent, to ask when Verigin would be deported. Immigration guards refused to allow them into the office and Agent Grant refused to talk.

L. A. Ryan, Halifax barrister who has been retained by the Christian Community of Universal Brotherhood to represent Verigin in any discussions that may take place with the immigration officials, found himself in the same position as the reporters. An hour after the prisoner arrived Mr. Ryan was still endeavoring to see Agent Grant.

Ryan received his commission over the long-distance telephone from Boston. There Peter Makaroff, Verigin's counsel, was resting after an aeroplane dash from Winnipeg in an effort to catch the leader.

Later tonight Verigin was taken into the Immigration shed by Royal Canadian Mounted Police and locked up in the detention quarters.

Mr. Ryan had been granted an interview with the immigration agents, but refused to discuss the result.

The agent had warned him against talking. Asked whether or not he had seen the Doukhobor chieftain Mr. Ryan replied: "I cannot tell you."

CREATION OF NEW ELEC. GENERATOR

London, Feb. 4—Creation of a new compact electrical impulse generator hurling 3,000,000 volts is reported to the British science journal, Nature, from the Metropolitan Vickers laboratory, Manchester. The new high voltage machinery is only five feet in diameter and ten feet high. It contains parallel charged, oil impregnated condensers with all spark gaps segregated in an air column with the air under high pressure.

THE DEATH OF COLONEL DIBBLEE WIDELY MOURED

Woodstock Loses a Well Known Citizen, Long Permanent in Military Affairs.

Woodstock, Feb. 3—Woodstock lost one of its best known citizens today in the death of F. H. J. Dibblee, who passed away at his home after an illness of several weeks. He was born in 1851 and was a direct descendant of the first settlers of this section of the province. His father was Jenkins Dibblee, for many years high sheriff of Carleton county, and owner of the first large hotel to be built here, the Cable House, so named because it was completed in the year the Atlantic cable was laid. His mother was, before marriage, Miss Cleary.

Mr. Dibblee spent his entire life in and about Woodstock and was known as an authority on local history. He was for many years active in all forms of public enterprise, and was the leading spirit in many of the community enterprises of past years. He was a member of the militia most of his life, and for some years commanded the old Woodstock Field Battery. It was during his term of command that the old muzzle loaders were replaced by breech-loading weapons. He attained the rank of colonel. He was a member of the fire department for a long time and was for several years chief. He represented his department at a great fire chiefs' convention in Chicago. He was an accomplished musician and was for years a member of the town band.

Livestock Fancier

He was keenly interested in livestock and always had several pure-bred horses and a herd of choice cattle for the maintenance of which he kept a farm at Grafton. He was by trade a silver plater, and lost an eye from an accidental explosion some years ago while at his work.

He was, in his younger days, well known as an athlete, being a member of the old cricket club here, and an enthusiastic player. He excelled in water sports, being a member of the famous Woodstock four-oared crew.

His wife, before marriage, was Miss Ella Conenll, daughter of the late Charles Connell. She died nine years ago. He is survived by two nephews, Norris Connell, Woodstock, and Beresford Connell, Slous Lookout, Ont.

P.E.I. COLLEGE RECEIVES GIFT OF \$75,000

Charlottetown, Feb. 3—Hon. W. J. McMillan, Minister of Education, has received a \$75,000 check from the Carnegie Foundation for the endowment of a chair of economics and sociology in Prince of Wales College and St. Dunstan's University. The check is payable in American funds, yielding between \$12,000 and \$13,000 extra in Canadian money. This sum of nearly \$88,000 stands to the credit of the Provincial Department of Education and will probably be invested, the interest to provide the salary of a professor in economics and sociology, whose services will be available to both the leading educational institutions in the province.

Another notion exploded: That starving one's self makes one healthier.

CAMPBELL FACES HARD MUSCULAR TEST IN TRIALS

Safety to Depend Upon Co-ordination, Experts Declare

WILL TRY A
300-MILE CLIP
English Speed King Has
A Big Job Ahead of
Him

(Special to the Daily Mail by the British United Press)
Daytona Beach, Florida, Feb. 4—Muscular co-ordination will be an important problem when Sir Malcolm Campbell attempts to drive his blue-bird II at 300 miles per hour on the beach here soon.

The world's land speed record-holder is confronted with the task of stopping his racer—travelling over the measured mile at an expected rate of five miles per minute—within the comparatively short distance of five miles.

Fatal Plunge

If he fails, it means a plunge into Mosquito Inlet.

And that seemingly difficult feat is complicated by the fact that he must operate the four-wheel brakes on the car with his LEFT foot while using his right foot to slowly decelerate the motor.

Both feet will have responsibilities so great that a slight error in pressure the right foot slowly rising from the accelerator, the left as steadily pressing downward on the brake pedal, may send Blue-bird and its driver crashing end over end.

Bible's Death

Racing officials here always have believed that too sudden release of his accelerator was the cause of the fatal accident suffered by Lee Bible, novice driver, when he crashed and was killed in attempting to set a new world record in 1929.

Undoubtedly Campbell, though he is a fatalist and is confident nothing can happen to him until his appointed "time" arrives, will remember Bible's fate as he carefully lifts the accelerator during those brief minutes after he has passed the finish of the measured mile.

Just as important will be the efforts of the right foot to press slowly and steadily with increasing force on the brake pedal, which also may result in a fatal accident if neglected.

Automotive experts do not believe Campbell will have any need to use his clutch during the stopping process, which would add further complications since his two feet already will be extremely busy.

THE FINANCIAL STRUCTURE TO BE CHANGED

Montreal, Feb. 3—A meeting of bondholders of Moirs, Limited, has been called for Feb. 23, in Halifax, by the Eastern Trust Company, acting as trustee. A plan for reorganization of the company's financial structure and certain modifications of the rights of the bondholders will be considered.

Among other provisions the bondholders will be asked to approve reduction of the principal amount of the bonds by 50 per cent; reduction of interest from six and one-half per cent. to six per cent. and cancellation of interest coupons of Jan. 1, 1933, July 1, 1933, Jan. 1 and July 1, 1934, and Jan. 1, 1935.

In view of the reduction of principal and cancellation of these interest coupons the bondholders would receive a certain number of preferred shares.

China truly has its back against the wall—the Great Wall.

Boy Scouts Join In Search for a Child Murderer

Party of 150 Are Scouring the Woods Near Long Island Suburb in Quest of Slayer of High School Girl—Detectives Are Also Scouring the District for the Slayer.

(Special to The Daily Mail by the British United Press)

NEW YORK, Feb. 4—One hundred and fifty Boy Scouts were enlisted today in the search for the murderer of Mary Helen O'Connor, 15-year-old High School girl, whose battered body was found in the woods near the Long Island suburb of Massapequa, a week after she had disappeared from a crowded railroad station platform. The Scouts were to be used for an inch-by-inch search among overgrown building lots of the abandoned real estate development where the body was found. Detectives hoped they would turn up the overnight bag and purse which the child carried when she disappeared and the weapon with which she was battered to death.

WIFE OF BANK MANAGER DIES IN CAMPBELLTON

Campbellton, Feb. 3—Friends in Campbellton and throughout the province will be sorry to learn of the death of Mrs. A. G. Harrington, which occurred yesterday, at the home of her parents, Mr. and Mrs. Alexander McLennan, Roseberry street.

She leaves to mourn, besides her husband, now manager of the Canadian Bank of Commerce, at Stanley, N. B., a three-year-old daughter, Rose Marie, her parents, Mr. and Mrs. Alexander McLennan; three sisters, Mrs. C. Burke, Indiana; Mrs. C. Weatherup, Montreal, and Mrs. John Gillis, Saint John; two brothers, Cyrus, Campbellton, and John, Pasadena, California.

(The late Mrs. Harrington was well known in this city, having resided here for several years while her husband was on the staff of the Canadian Bank of Commerce. Her death is deeply regretted by a large circle of friends.)

U. S. SEEKS TO DEVELOP HARDER TYPE OF WHEAT

Washington, Feb. 4—Thirteen states including New York and the Canadian province of Ontario, are cooperating with the United States Department of Agriculture in an effort to develop wheat strains for the soft winter wheat belt which will withstand winters better than present varieties, the Department announces. Winter killing is one of the important problems in this region which includes most of the area east of the Mississippi river.

The experiments in New York will be made at Ithaca. The same wheat varieties, numbering about 30, are planted at each station.

Late Joseph Kenney

The remains of the late Joseph Kenney, who passed away in Halifax on Wednesday, arrived here by train last night and was taken to McAdam's undertaking parlors. The funeral will be held on Sunday afternoon, with service at 1.30 o'clock at the Baptist Church, Douglass, Rev. Mr. Westrup conducting the service. Interment will be made in the Pickard burial ground. The late Mr. Kenney, who was well-known and popular, had been blind for the last twenty-three years, and had in recent years been employed with the Halifax School for the Blind.

AGED WOMAN WAS MURDERED AT AMHERST

Mrs. E. E. Smith Found at Her Home With Her Throat Cut—A Sum of Money Missing.

Amherst, N. S., Feb. 4—With her throat slashed from ear to ear and her head crushed in by blows evidently from a blunt instrument, Mrs. E. E. Smith, aged cripple, was found dead by her son, Layton, in her home on Croft street here early this morning.

The sum of \$120, in cash, which had been in the Smith home, was missing.

The son, Layton, on finding his mother, ran from the house to the pool room and restaurant run by his father and told him of the ghastly find. The father notified the police and at 2.30 o'clock this morning an alarm was sent out to police in practically every centre of the Maritimes.

Chief of Police Weatherby, Amherst, said that there had been several "suspicious characters" in town Friday, and that a roundup of those still in Amherst would be made. In the meantime, police at other points would be asked to be on the lookout.

The murdered woman was in her nightclothes, and it was thought that she had been in the act of getting into bed and that the house had been entered. It was not determined whether the home had been entered. It was not determined whether the home had been broken into or whether she had answered the doorbell.

The body was found near her bed, however, leading police to believe that her assailant had broken in. Her spectacles were clutched tightly in her hands.

MOVIE STAR AND HER HUSBAND SNOWBOUND

(Special to the Daily Mail by the British United Press)

Hollywood, Feb. 4—Snowbound for three days in an isolated mountain cabin, Ruth Chatterton, and her actor husband, George Brent, were back home today undergoing treatment for partial snow blindness. Their plight did not become known until they "mushed" eight miles on snowshoes to reach Lake Arrowhead in the San Bernardino Mountains. They were suffering from exposure.
