THE RECOVERY DRIVE IN THE UNITED STATES JOINED BY STEEL, OIL AND LUMBER INDUSTRIES

Washington, Aug. 20—The great D. Rockefeller, jr., Speaker Henry T. Rainey, Mrs. Emily Newell Blair, Ruth Bryan Owen and Admiral Richard L. Byrd.

Encouraged at the entrance of the steel, oil and lumber industries into the fold, Johnson simultaneously turned on the bituminous coal industry the pressures which was felt through the hectic days of last week by the other three high industries with their hordes of employees.

Simultaneously, Hugh S. Johnson, recovery administrator, asserted that the turn had been reached and that the goal of all employees, under regulated wages and hours, to raise purchasing power, was in sight.

Officials estimated that encased in the wage raising-work shortening codes for the three industries alone were new jobs for more than 400,000 workers: 250,000 for oil, 115,000 for lumber, and 50,000 for steel.

Their entrance into the program brought to 14 the number of permanent codes already approved, including one for another great basic industry—cotton textile—and officials forecast the heaviest opposition had been crushed by the drive of President Roosevelt and Johnson during the week.

Johnson today announced the opening a week from tomorrow of the greatest drive since Great War days to put over the recovery program by fall.

To Create Jobs

Believing that with steel, oil and lumber under the NRA's banner, the crisis of the campaign to get the big industries under trade codes has been surmounted the administrator turned to the next phase of his program to create millions of jobs. He announced plans for opening a house-to-house and store-to-store canvass to place a blue eagle in the window of every producer middleman and consumer.

Leading this drive which is patterned after the liberty loan campaigns, will be nationally known men and women, including Alfred E. Smith, John

100 Now Operating

Well over 100 industries are now operating under temporary schedules by minimum wages-maximum hours affecting millions of workers. A heavy slate of hearings, including 21 within the next ten days and reports on codes which have gone already through the hearing stage were counted on by Johnson to place permanent codes over great sections of industry within the next two months.

The administrator was confident the major points of controversy had been ironed out in the settling of codes on the big basic industries.

The drive to put a big blue eagle in every store and home is to go forward with more than 1,500,000 volunteer workers already organized for a complete canvass in every community.

Formation of a federal agency and industrial committee of 12 to administer oil's affairs was the next problem before President Roosevelt today in carrying out the petroleum trade code.

The makeup of the membership of the committee—to be appointed by the president next week—is of vital interest to oil circles because the executive's impending decision on price control is to be discussed with it.

ROTARY HEAD TAKING A TRIP TO EUROPE

John Nelson, Montreal, Well Attend Regional Conference in Lausanne.

(Special to The Daily Mail)

Quebec, Aug. 20—Rotary is one of the few international bodies that is continuing in Germany under the Hitler regime," said John Nelson, president of Rotary International, when he sailed yesterday afternoon in the Canadian Pacific liner, Empress of Britain on his way to Lausanne where the second European Regional Conference of the world wide organization convenes the 27th of this month for three days.

Mr. Nelson, an officer in the Sun Life Insurance Co., of Montreal, was recently elected to the world chairmanship of the big service organization and his visit to Great Britain and the continent is his first major official duty.

Chatting with reporters on the liner's deck shortly before sailing, Mr. Nelson outlined some of the problems facing the organization. He smilingly agreed that the meeting will be a peaceful one, pointing out that Lausanne is near Geneva.

"Europe has many different problems," he said, "very different from those that face us on this side of the Atlantic and it is to discuss these that the regional conference is being held."

Turning back to the North American continent, Mr. Nelson stated that Rotary in the United States stands solidly behind President Roosevelt in his measures for the restoration of prosperity as evidenced by the N.R.A.

Although it is generally expected of the president of Rotary International that he will visit clubs throughout the world during his term of office, Mr. Nelson said that his present journey is on part of such a tour. There is a possibility that he will undertake the annual tour of inspection after the new year. Also sailing on the Empress of Britain was Chesley R. Perry, secretary of Rotary International. He will accompany the president.

What was originally the swastika emblem in Germany seems now to have become the swastika.

AGENCY GETS JOBS FOR FREAKS

Philadelphia, Aug. 21—Stilt walkers, midgets, fat men, giants a mechanical man and a mechanical woman may all be engaged in Philadelphia's unique employment agency.

Most of the calls for freaks come from firms opening new stores or anxious to use advertising a trifle different from the other stores.

In addition, the agency has monkey, giraffe, rhinoceros and gorilla skins, with or without human interiors, for hire.

LEFT FOR NEWCASTLE

The Devon baseball club, winners of the York County League, and also one up in the Devon-Newcastle playdown series, first round, left this morning by auto for Newcastle, where the second game of the threegame series is being played this evening. Devon won the first, 9 to 4, on Monday night. Despite the Newcastle protest re the game here not starting early enough the series will be continued. No ruling has yet been made on the matter by the amateur officials. The same lineup has been taken as played on Monday night, and the team was accompanied by a number of rooters.

Seattle, Aug. 21—Louis and Louise Coates, 22-year-old twin sisters, insist that "no one but twins need ever propose."

Years ago, they said, they resolved never to marry anyone but twin brothers, with a doubt wedding for the ceremony.

Groceries

IT IS ALSO PICKLING SEASON

Let us suggest Green and Ripe Tomatoes, Onions, Vinegar, Pickling Spices etc.

HON. MR. KING ENDS HIS TOUR OF THE WEST

Liberal Leader Has Delivered 65 Speeches in the Prairie Provinces.

Dauphin, Man., Aug. 20—The western tour of Rt. Hon. W. L. Mackenzie King, federal Liberal leader, tonight had come to an end. Speaking here Saturday night, the Liberal chief ended a tour in which he has spoken in Manitoba, Saskatchewan and Alberta, paid a two-week visit to his own constituency of Prince Albert and motored between three and four thousand miles. He made 65 speeches, almost all in the rural sections, since he left Ottawa five weeks ago.

The concluding meeting followed a picnic celebration of the Ukrainian Thanksgiving at Broken Pipe Lake, 15 miles north of here, where he received a round of hearty applause when he spoke for half a minute in the Ukrainian language.

He spoke at greater length in English, tracing for his audience the development and growth of political liberty in Canada. He counselled his listeners not to permit anything to deprive them of his freedom which had been dearly bought, and he criticized the Co-operative Commonwealth Federation program of state operation and ownership as containing in it the seeds of dictatorship.

At both afternoon and evening meetings, Hon. T. A. Crerar, a member of the former Mackenzie King government, and Hon. G. G. McKenzie, minister of agriculture for Manitoba, spoke briefly.

A GOOD SHOWING

Montreal Aug. 21—Pig iron production in Canada for July highest since July 1931 and for the month nearly equals total production in first six months of 1933. July steel production highest since July 1931.

GANDHI TAKEN TO HOSPITAL

Poona, Ind., Aug. 20—The condition of the Mahatma Gandhi from his self-imposed ordeal of fasting has grown so bad that he was removed this afternoon from Yeroda jail to the Civil Hospital, where the facilities for medical attention are better.

Friends were extremely anxious about Gandhi's increasing weakness on the fifth day of his present hunger strike. Until his removal from the prison he permitted only his private secretary, Mahadev Desai, to nurse him, flatly refusing offers of help from outside. Desai was arrested with Gandhi and others on Aug. 1 for civil disobedience.

Gandhi, meanwhile was adamant in his refusal to accept the government conditions under which it offered to release him for continuance of his campaign on behalf of the Indian "Untouchable" class. His fast was undertaken to obtain privileges which would enable him to carry on this work.

It was believed an acute attack of kidney trouble caused his removal to the hospital.

Local Merchant Nearly Robbed

(continued from page 8)

of the law have something to work on. Mr. Budovitch did not recognize the men, although, as he said, he did not get a very good look at their faces. He wasn't particularly impressed with their appearance and is not sure if he could recognize them if he saw them again. He supposes that it must have been a pair who were acquainted with his habits since they were right on the spot when he arrived home.

In Silesia women who take part in Nazi political activities must refrain from use of make-up. It would be pretty difficult to use make-up with one hand up in the air, anyhow.

No refilling station ever looks so neglected as the corner house it replaced.

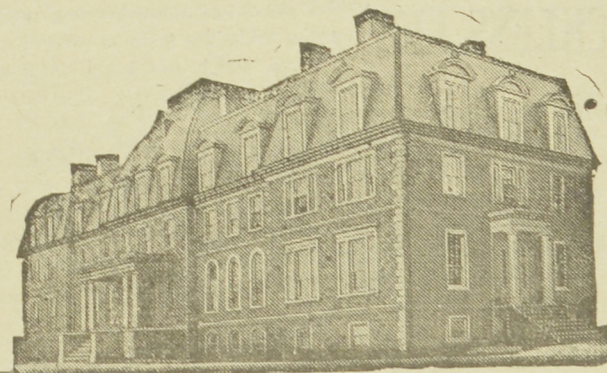

PUBLIC NOTICE

The Public Schools of the City of Fredericton will re-open on TUESDAY, SEPT. 5th.
