WEATHER

Moderate winds shifting to easterly, cloudy. Saturday, shifty northeast winds. Probably showers in southwest portions of province.

VOL. XXXIX, NO. 203 FREDERICTON, N. B., FRIDAY, SEPTEMBER 1, 1933 Two Cents Per Copy

Premier Bennett's Speech Listened to With Much Interest

Montreal Banquet In His Honor Was a Great Success—Says World Economic Conference Was Not a Failure--The Wheat Pact Explained; Canada's Credit Stands High in London Market.

MONTREAL, Sept. 1—Members of the Chamber of Commerce and Board of Trade are greatly elated over the success of the non-political banquet tendered Right Hon. R. B. Bennett at the Ritz Carleton Hotel here last night. Henry W. Morgan introduced the Premier in a brief speech, praising his work on behalf of Canada during his three months visit to the old country.

Premier Bennett, who was received with cheers and the singing of "For He's a jolly Good Fellow," spoke exactly one hour, devoting his remarks to the world conference and in explanation of the wheat pact. He spoke with great earnestness and the audience listened attentively to every word. Quite frequently his remarks were punctuated by an outburst of applause.

Was Not a Failure

The Premier made it clear that the economic conference was far from being a failure. "It brought about," he said, "a better understanding among the nations of the world far better than existed in 1914, and the peace of Europe is now more secure."

The Wheat Pact

The Premier's explanation of the wheat pact was listened to with great interest and he was able to show that common sense and reason had characterized the conference. He said he had been impressed with the statement of a Dutch delegate that the rise in the price of wheat is always a forerunner of the return of prosperity. The Premier's reference to the success of Canadian loans on the London market was enthusiastically received. The Premier, in the course of his remarks exploded the idea that Canada was the granary of the world. He quoted statistics showing that France and Italy produced more wheat than Canada. Germany was also a heavy producer of wheat. Fear of starvation was largely responsible for the enormous production of wheat by European nations, he said.

The Premier took his departure this morning for the Capital and will entertain the members of the Canadian Bar Association at a luncheon.

INCREASED REVENUE

Toronto, Sept. 1—National revenue collections for the port of Toronto during the month of August totalled the sum of \$3,489,167, an increase of \$135,867 over the receipts for July. It was the best showing made since the month of June, 1932. The increase over the collections for August, 1932, was \$565,139.

OFF ON A CRUISE

Hyde Park, N. Y., Sept. 1—President Roosevelt has left his summer home for a four day cruise in New England waters on board of Vincent Astor's yacht. Before leaving he was in conference with Hugh Johnson, N. R. A. administrator.

CATHEDRAL PICNIC

Christchurch Cathedral held its annual Sunday School picnic yesterday at Penniac and it proved most enjoyable to the large number of adults and children who attended. The picnickers were conveyed to and from Penniac by auto. During the afternoon games were indulged in and refreshments were served.

NORTH SHORE FISHERMAN WINS CASE IN COURT

Albert A. Filian, of Dalhousie Awarded Damages of \$645 From Int. Paper Company.

Dalhousie, Aug. 31—In the Restigouche circuit court, the entire day was again taken up with the hearing of the case of Albert Filian vs the New Brunswick International Paper Company, Limited. A verdict in favor of Filian to the amount of \$645, was returned this evening at 9 o'clock after the jury had been deliberating for more than four hours.

Evidence was today given by Arthur Thompson, D. G. Stewart, Ned Allan, G. Blair and M. Gaurity.

The latter three, during the season of 1930-1931, and 1931-1932, had fished in the vicinity of Pont La Nim and Oak Point. The object of the defending counsel in bringing in their evidence was to show that the fishing revenue during these seasons had decreased considerably not only in the vicinity of Douglas Island, where Filian had his stand, but throughout the entire district.

Two Channels

E. Dorion of this town, who with J. L. Fenderson was acting in the interest of the plaintiff, took a strong stand against the latter evidence, contending that it had no bearing on the case whatever. Those who fish in the vicinity of Point La Nim and Oak Point, operate in what is called the "north channel," while Filian's stand is in the south channel and quite near the sewer outlets of the paper company.

During the two seasons in question, a large quantity of stock and other foreign matter was found in Filian's nets and he maintained that this waste material caused the fish to shun the vicinity and kept the water from freezing.

The afternoon was taken up with addresses to the jury. J. F. H. Teed, K.C., of Saint John, who with H. A. Carr of Campbellton, is acting for the defendant, spoke to the jury at length. E. Dorion followed with his address. Mr. Justice LeBlanc outlined the case to the seven jurymen.

The jury leaving at 4:45 p.m., returned to the court room at 5:15 and again at 5:30 for additional explanation in certain evidence. At 5:40 the jurors went to their chambers and reappeared at 9 o'clock this evening with a verdict.

COURTESY TO VISITORS SLOGAN OF OMAHA COPS

Omaha, Nebraska, Sept. 1—If when you drive into Omaha a police officer salutes you flashes a broad smile and hands you a copy of "The Omaha Visitor", think nothing of it—it's part of his job.

And rest assured, under no circumstances will out-of-town motorists be "bawled out" for infraction of traffic regulations. In short, Police Commissioner Frank Myers is determined to make Omaha known as "a smiling, courteous city because of its policemen."

This is the time of year when the summer girl wishes it wasn't this time of year.

STOCK MARKET RATHER DULL THIS MORNING

Volume of Trading Up To Noon Was Very Small

U. S. STEEL IS HOLDING WELL

Nickel Was the Market Leader in Montreal Trading

New York, Sept. 1—The stock market today continued sluggish with a total sales of 360,000, the smallest volume of business in some weeks. It is quite evident that investors are fighting shy of the market. The pound sterling was quoted at 4.52 1/2 and American funds at a premium of 4 1/2 per cent.

Wants Dominion Government to Hold an Enquiry

Social Service Council of Canada Asks Action In Regard to Agitation For Reform in the Administration of Canada's Penitentiaries—A Resolution Adopted.

TORONTO, Sept. 1—An aggressive campaign for reform in the administration of the penal institutions of Canada, which has been going on in Ontario for some weeks culminated yesterday in the adoption by the Social Service Council of Canada at a meeting here of a resolution calling upon the Dominion Government to conduct an enquiry into the entire system of the administration of justice in Canada. A committee was appointed to present the resolution to the Government. Dr. Withrow, in recent articles published in the Toronto Globe, has sharply criticized the administration of Portsmouth penitentiary and claims that since the recent riots at that institution there has been an increase to nineteen cents of the per diem cost of feeding the inmates. He charges carelessness and gross negligence in connection with the recent death of a prisoner.

IMPORTANT CONFERENCE AT NEWCASTLE

Newcastle, Sept. 1—A meeting of the salmon fishermen of the Miramichi will be held in the courthouse at Newcastle on Saturday afternoon, Sept. 2. At this meeting there will be present representatives from the different salmon interests on the river, including the drifters, set net fishermen and anglers.

The meeting is being held for the purpose of bringing the different fishermen together and talking over the habits of the Miramichi salmon and the bringing together of all those interested in salmon fishing on the Miramichi. Besides the drifters, set net fishermen and anglers, there will be representatives from the fishing clubs and from the Fish and Game Protective Association.

Arrangements have been made with Dr. W. A. Found, deputy minister of marine and fisheries, Ottawa, and D. H. Sutherland, chief supervisor of fisheries, Halifax, to be present.

HURRICANE MAY STRIKE THE UNITED STATES

Miami, Florida, August 31 — A proach of a swirling tropical disturbance from the Bahama Islands caused government meteorologists to prepare for "quick action" tonight in case conditions should require the hoisting of possible hurricane warnings for extreme Southern Florida.

In an official bulletin issued late today, the weather bureau said, "Present indications are that shifting gales may be expected very late tonight of Friday morning over extreme Southern Florida south of latitude of Miami". Storm warnings flew from Jacksonville to Key West during the day.

Calling for social observations from several of the Bahama Islands, Richard W. Gray, meteorologist here, was advised that Rum Cay, approximately 375 miles east southeast of Miami, encountered a mile wind from the east at 2 P. M.

Living in the path or vicinity of the storm are such Bahama Islands as Great Exuma, Cat, New Providence, of which Nassau is the capital, and Andros. The City of Nassau, which took precautions today, has a population of approximately 25,000. The other islands in the group are more or less sparsely populated.

HINDU WOMEN WIN RIGHT TO BEAUTIFY THEMSELVES

Bombay, India, September 1—Hindu women of the middle class have won their fight for the right to look pretty in public. The modern Indian girl may now powder her face, wear her hair in curls or have a permanent wave, look frequently in a mirror and replace a broad saffron streak on the forehead by a small circular mark.

The "Times of India" recording this revolution, says that in 1913 frequent glances in a mirror were considered immodest. The use of face powder was studiously avoided. The broad saffron streak on the forehead constituted the Hindu woman's only "make up", while her oiled hair was either plaited into a pigtail at the back or done up in a knot.

GETS BIG ORDER FOR FOOTWEAR

Amherst, Aug. 31—Announcement was made today that A. E. Wry, Standard Company, manufacturer of boots and shoes, had received an order from the department of national defense for 15,000 pairs of military boots. This is in addition to two smaller orders that totalled 6,500 pairs.

The order in itself is one of the largest ever given out to any eastern concern since the war days and will keep the Wry plant busy during the fall months.

VISITS SISTER HERE

Mrs. Parlee, of Moncton, N. B., and son Babbitt, are visiting Mrs. Parlee's sister, Mrs. Harry Hoben, on Lansdowne Street this week.
