

The Island of Cuba Partly Engulfed by Huge Tidal Wave

An Out-of-Season Hurricane Sweeps Across the Narrow End of the Island Republic, Leaving a Trail of Ruin—Coast Town of Coloma Engulfed With Heavy Casualties.

(Special to The Daily Mail by the British United Press)

PINAR DELRIO, Cuba, July 3—Western Cuba huddled in terror today as an out-of-season Caribbean hurricane swept across the narrow end of the island republic, leaving a trail of ruin. The southern coast town of Coloma, 24 kilometres to the south of Pinar Delrio, was reported engulfed in a tidal wave. Casualties were believed heavy. Wrecked homes and flooded lands marked the trail of the terrific winds that came in from the sea, moving northwestward. Pinar Del Rio was struck around midnight, the hurricane's centre, moving at ten miles an hour, passed on over the Sierra De Las Organos Mountains to the northwest coast.

THE RUSSIAN EMBARGO HAS BEEN REVOKED

The Moscow Government Has Released the British Engineers from Prison.

London, June 2—Great Britain and Soviet Russia had patched up their immediate differences today with the result that the British embargo on Soviet trade was lifted and the two British engineers held in prison at Moscow were released.

The peace agreement was announced Saturday night after consultations between Sir John Simon, secretary for foreign affairs, and the Soviet diplomats, Jean Maisky ambassador at London, and Maxim Litvinoff, foreign commissar.

The embargo on Russian goods coming into British ports was laid down April 19, the day after the group of British engineers were found guilty by a Moscow court of espionage and sabotage. Three of the British engineers were expelled from Russia, but L. C. Thornton and W. L. MacDonald were sentenced to three and two years imprisonment, respectively.

Announcement of the Anglo-Soviet agreement was made by the foreign office which declared a short time afterward that Thornton and MacDonald had been released Saturday at Moscow.

The London Gazette supplement published a proclamation by the King and Council revoking the embargo, effective immediately.

A foreign office communique said petitions of the British engineers came before the presidium of the executive committee of the Soviets Saturday and the sentences of the two men were commuted so they could be set at liberty at once.

Lifting of the embargo was officially announced also by the Russian commissary for trade. The announcement said arrangements would be made promptly to resume Anglo-Russian trade negotiations where they were interrupted as a consequence of the arrest of the British engineers.

A psychologist says colleges must furnish the student with more than learning. Judging from some of their products they furnish anything but learning.

TO BRING MANY EXCURSIONISTS TO MARITIMES

Moncton, N. B., July 1—The popular coach excursions which are being operated by the Canadian National Railways from Ontario and Quebec to the Maritimes are bringing large numbers of visitors to the latter provinces. These excursions afford a very economical means of seeing other parts of Canada. A coach excursion is being operated by the Canadian National Railways from Toronto, Ottawa, and other stations in Ontario and also from Montreal, Quebec City and stations in that province to the Maritime Provinces leaving Toronto Thursday, July 13th, and stations in the Province of Quebec Friday, July 14th, with return limit until Tuesday, July 18th. It is expected that a large number will patronize these excursions as there are many ex-Maritimers living in both provinces who will take the opportunity to make a visit to see the home folks. It also affords an opportunity for Maritimers to invite their friends living in Ontario and Quebec to visit them for a weekend.

EMPRESS HAD A HEAVY LIST

Quebec, July 2—With countless pennants of gay colored bunting fluttering from her rigging fore and aft in honor of Dominion the Canadian Pacific flagship Empress of Britain, her white hull dazzling in the brilliant sunshine presented a splendid appearance as she departed yesterday for Europe and offered a strange contrast to the grey old citadel of Quebec constant reminder of the glamorous history of this Dominion.

Hundreds of Quebecers turned out as usual to see the Empress leave and added their enthusiasm to the animation of the departure of the heaviest list of passengers from Quebec this year. Many of them were there to bon voyage relatives and friends among the large French-Canadian party from Quebec, Three Rivers and Montreal districts organized by a Quebec morning newspaper and going on a conducted tour.

"Heiress Weds Detective"—headline, all that's an improvement, considering how many of 'em have wed defectives.

ALEX. ROGERS PASSES AWAY AT HOPEWELL HILL

The Oldest ex-Member of the New Brunswick Legislature; Was Also An ex-M. P.

Hopewell Hill, Albert Co., July 2—After living 91 years and four months in the enjoyment of remarkable health and honored and respected in an outstanding degree, Alexander Rogers, ex-M.P., one of Albert County's best known citizens and widely known throughout the province, passed away at his home here Saturday morning, following a short illness, which until the last two days, was scarcely con-

ALEX. ROGERS, EX-M.P. Who Passed Away at His Home in Albert County on Saturday

sidered serious. Gradually sinking since Thursday, the end came peacefully at 10 p.m. Saturday.

In carrying out his custom of the last few years, of going away for the winter, Mr. and Mrs. Rogers spent last winter in Moncton, where he celebrated his 91th birthday on Feb. 12, returning to his home here in May.

Long in Public Life

Prominent for many years in public and business life of the country, and genial and friendly to a marked degree, Mr. Rogers' death occasioned a deep feeling of sorrow among a wide circle of friends, by whom he was highly respected and admired for his integrity and simplicity of character and an unflinching fidelity to a high code of honor.

Mr. Rogers was born at Hopewell Hill on Feb. 12, 1842, and, except when attending legislative duties at Fredericton and Ottawa spent all his life here.

Elected in 1874

Entering the political arena, he was elected to the House of Assembly in 1874 and served the four year term, being afterward elected to the House of Commons, in 1878, where he sat on the Liberal side of the House, being a life-long supporter of the Liberal party.

For two different periods, Mr. Rogers held the position of registrar of deeds for Albert County, and also many other positions of trust and re-

STOCK MARKET IS ENJOYING A GREAT BOOM

Many Issues Attained New High Levels Today

COTTON AND GRAINS STRONG

Nickel Was a Strong Issue on Montreal Market

New York, July 3—The stock market was active and strong this morning with a number of issues hitting new high levels. U. S. Steel sold up to 61½, Union Pacific to 127½, General Motors to 31¼, Bethlehem Steel to 45½, Auburn Auto to 67½, Chrysler to 38 and General Motors to 31¼.

The Magazine Steel says that operations during part of last week rose three percent to 54 per cent.

The Westinghouse Company announced an increase of wages of all employees of five per cent.

Sterling opened in the London market at 422, an advance of 10½ cents.

Cottons and grain were active here reaching new high levels.

sponsibility. He was a life-long adherent of the United (former Methodist) church and for 30 years was secretary of the trustee board. A total abstainer all his life, he was a strong advocate of the cause of temperance and prohibition.

Mr. Rogers was twice married, his first wife being a daughter of the late Thomas B. Moore, barrister, Hopewell and Moncton. His second wife, who survives, was formerly Miss Annie J. Moore, a daughter of the late Charles H. Moore. Besides his wife, he leaves one son and two daughters, W. A. Rogers Toronto, and Mrs. Paul C. Robinson, Port Dover, Ont., of his first family, and Mrs. L. S. Gardner, Toronto, his last wife's child. Mrs. Gardner and her husband were here at the time of Mr. Rogers' death.

Gold Countries Of Europe for the Gold Standard

Joint Statement Issued by Representatives of France, Belgium, Holland, Italy, Poland and Switzerland—A Reply to President Roosevelt's Monetary Message.

(Special to The Daily Mail by the British United Press)

LONDON, July 3—The chief European gold countries issued a joint statement today confirming their 'firm intention' of remaining on the gold standard at the present gold parities. The statement was signed by the French, Belgians, Dutch, Italians, Polish and Swiss.

The statement said each government would demand that its central bank remain in close co-operation with the central banks of the others to insure a maximum effectiveness of their gold standard policies. Designed as a reply to President's monetary message, the statement was signed by the representatives of the six gold governments after a conference at the headquarters of the Italian delegation, to which Finance Minister Guydo Jung hurried by airplane from London-derry.

EXCURSION FROM BOSTON SUCCESSFUL

Moncton, N. B., July 1—Over six hundred excursionists arrived in the Maritime Provinces yesterday from Boston and vicinity. The Canadian National Railways station at Moncton was an animated scene as the fourteen car train rolled in. Many were for points in Cape Breton, while others were enroute to stations between Truro and Halifax, to New Glasgow, and stations on the line to Sydney, to Prince Edward Island, stations in New Brunswick between Saint John and Moncton and Campbellton. The majority are ex-Maritimers who took advantage of the National holiday in the United States, Independence Day and the cheap fare offering with the generous return limit to visit relatives and friends back home. This has been the largest coach excursion from Boston to the Maritime provinces to date.

RECORD FISH CATCH

What is believed to be a record catch for one day was made here on Friday when a Hanover, N.H. party captured 17 grilse and three salmon. The catch was made in the Rocky Brook locality of the Miramichi river. The successful party included Dr. J. Gile, L. F. Murch, and H. R. Henneage, all of Hanover, N. H. It is their fourth consecutive year on New Brunswick waters, and in the words of one of their party, "their best trip." Besides the fish taken on Friday, a considerable number were lost.

KING'S HORSES LOSE GOLDEN ORNAMENTS

London, July 2—Scotland Yard was confronted Thursday with one of the few royal robbery mysteries since the time famous Capt. Blood stole the crown jewels from the tower of London.

Someone took from Buckingham palace the golden ornaments which adorn the horses that draw the state coach in which King George goes to the opening of Parliament.

RADIO STATION TO SEND ORAL, VISUAL SIGNALS

Washington, D. C., July 2—A combined radio communication station and radio range-beacon to transmit voice and direction signals simultaneously to planes over the New York area will be placed in operation next month at Elizabeth, N. J.

"The radio station is equipped to furnish airmen in flight with oral and visual-type directional signals either simultaneously, or independently and is also able to transmit voice and signals of the visual type in a like manner.

"The Aeronautic Branch of the Commerce Department said today in describing the station.

"This will enable a pilot, if his plane is provided with the instruments to bring in the visual signals, to receive weather reports, or other necessary information, by voice and, at the same time, to be guided on his course by means of the visual indications that are registered on the plane's instrument board. As it is necessary to shut down the aural signals while a voice broadcast is being made a pilot prepared to receive only the aural signals is without directional guidance while voice is being received."

Married at Parish Church

A wedding of interest to many took at the Christchurch Parish church on Friday afternoon at five o'clock when Mrs. Violet Dingee, daughter of Mr. Samuel Hazlet and formerly of Lynn, Mass. became the bride of William Francis Berkeley Thompson, of this city. Ven. Archdeacon A. F. Bate performed the ceremony. They were attended by Mr. and Mrs. Herbert Morgan, city. Immediately after the ceremony the couple left on a short honeymoon and on their return will reside in this city. The bridegroom is a section foreman of the Canadian National Railways.

Seattle, Washington, July 2—The plant scientifically known as sphaerella nivalis, which is the cause of the "red snow" found in the Arctic and in the Alps and Himalaya mountains, has taken root and is being found in increasing quantities on the slopes of Mt. Rainier, Washington. Botanists say "red snow" may be common in that locality in future years.
