Premier Bennett Likely to Make a Trip to the West

Will Take Advantage of the Opportunity to Consult With the Government of the Prairie Provinces In Regard to the Wheat Pact—Text of the Agreement To Be Available Soon.

OTTAWA, Sept. 14—Right Hon. R. B. Bennett is likely to visit the West shortly, though no definite plans have yet been made. The visit will afford him the opportunity of consulting with the prairie governments or other interests concerning the wheat exports and the ways and means of giving effect to them. In a few days the text of the agreements and, possibly, some explanatory matter will be available.

The Wheat Pact

The subject will probably be placed before Parliament for discussion in the form of an approving resolution. Very little, if any, Federal legislation may be necessary. What the Dominion Government mainly needs to do on its part is to see that during the currency of the agreement no more than 200,000,000 bushels of wheat are exported in any one year. It may be possible to do that under existing powers.

HENWOOD LEFT A MESSAGE OF FAREWELL

Youthful Murderer Issued Warning Note To Those Who Have Not Found God.

Amherst, N. S., Sept. 13—Today a farewell message that Alvah R. Henwood directed to "The Young People of the World", was read by Adjutant John Van Roon, of the Salvation Army, as a final burial tribute to the youth who, on Tuesday morning paid the legal penalty for crime. The adjutant explained that the message was given to him on Monday in Henwood's cell at the county jail only a few hours before the condemned youth ascended the gallows.

At the funeral today, Adjutant Van Roon declared that Alvah Henwood had made his peace with God, and later, speaking to the press, referred to a remark made by the condemned youth as Hangman Ellis offered him a stimulant on Tuesday morning: "I can go to God without it", Henwood said.

At the service today Adjutant Van Roon and Rev. Emery Cosman of the Reformed Baptist Church took charge of the ceremonies conducted at the home of Mr. and Mrs. Dan Henwood, the parents. Numerous floral tributes were sent by friends and close acquaintances of the family attended the service. Interment was made in Highland Cemetery.

The Message

Henwood's message was of a directly religious nature. It was entitled "A warning to those who have not found God."

Declaring that the Saviour died for the sins of mankind and appealing for all to accept Jesus early in life, the message continues: "I am not much of a writer, but hear is what I am hoping; that you picture me here in a cell waiting death. What was it for? It was for the sins I have done and if you do not get away from the ways of the Devil, you will have a death sentence far greater than mine. I have taken

ITALY ASSISTS CONSUMPTIVES WITH TAX LEVY

Rome, Italy, Sept. 13—Five centimes, equal to an American cent the smallest coin in circulation in Italy, are added to every carfare and bus ride throughout the country on Sundays for the benefit of Italy's consumptives.

This practical campaign against tuberculosis, which brings in several million lire every year is typical of the scheme of social assistance that has become part of the Fascist doctrine.

From the tuberculosis fund raised by the small tax on Sunday carfares, provision is made that the receipts are to be used for the establishment and maintenance throughout the country of some twenty five or thirty sanatoria.

The anti-tuberculosis campaign—only one of the many forms, which Fascist social assistance takes. There is a corporation known as "Ente Opere Assistenziali", or Corporation for Social Assistance. The objects of this body are various and include relief to unemployment, the establishment of soup and other kinds of free kitchens; the gratuitous distribution of milk to young mothers and infants, coal stations, including free issues of charcoal for cooking and wood for stoves.

Another important activity is free medical service. To quote the figures given in the report, 373,625 patients were treated gratuitously by doctors in Italy during the last year. The total cost of medicines distributed free of charge came to over 1,500,000 lire.

Miss Louise Whitney of Washington D.C., is visiting her aunt the Misses Sterling, Brunswick Street.

God since I had my trial and I want to thank Him."

Expressing confidence in ultimate forgiveness the message continues: "I wish the Salvation Army all success in bringing sinners to God" and concludes with some verses from the Scripture.

MOTORISTS PAID A HEAVY SHARE OF TAXES

The Total Amount Was \$56,700,000, Equal To \$20 For Every Auto In the Dominion.

Ottawa, Sept. 13—Motor vehicles operated in Canada ran their owners into a tax bill of \$56,700,000 last year, according to an estimate released to-night by the Dominion Bureau of Statistics. That meant over \$50 for every registered motor vehicle—to say nothing of fines.

The provinces collected \$21,126,271 for registration fees on vehicles and operators and another \$27,083,316 in gasoline taxes. The Dominion took in \$4,508,471 on import duties and exercise taxes. In addition there was the sales tax on cars sold estimated at \$2,500,000 and the import duty on gasoline estimated at \$1,500,000.

Biggest Drop in N. 3.

Motor vehicle registrations in Canada for 1932 amounted to 1,114,503, including 945,564 passenger automobiles, 1,530 motorcycles. This was a decrease from the 1931 registrations of 86,404 motor vehicles, or 7.2 per cent. The greatest decrease was in New Brunswick, where total registrations decreased by 16.6 per cent, and Saskatchewan followed with a decrease of 15.5 per cent in total registrations.

Canada with one motor vehicle to every 9.4 persons, ranked fourth in density, the United States leading with a density of one motor vehicle to every 5.1 persons and Hawaii and New Zealand ranking second and third. Ontario, with 6.5 persons per motor vehicle, had the greatest density in Canada, British Columbia was second with 7.7 persons per motor vehicle.

Provincial Revenues

Revenues collected by the provinces from registrations of motor vehicles, operators, etc., for 1932 amounted to \$21,126,271 as against \$19,684,908 for 1931. This was an increase of \$1,441,363, or 7.32 per cent, and was all made in Ontario and Alberta. These two provinces made increases of 30.96 and 22.20 per cent, respectively, by increasing the rates. All the other provinces collected smaller revenue, ranging from 4.41 per cent for New Brunswick to 9.76 per cent for Prince Edward Island.

All the provinces except Quebec and Alberta raised the gasoline tax during the Spring of 1932 and Quebec made a raise in December, 1931. New Brunswick, Manitoba and British Columbia raised it from five to seven cents and the other provinces raised it from five to six cents.

FATHER TAKES NO CHANCE ON HIS CHILD

Kansas City, Sept. 14—Over the telephone to the General hospital came this question:

"What does a fellow do when the baby swallows a mothball?"

The necessary information was furnished after which the man was asked if his child had swallowed a mothball. "No," he replied, "but we are packing some clothing and filling the pockets with mothballs and we feel sure the baby is going to grab and swallow one any minute."

STOCK MARKET TOOK A SPURT THIS MORNING

Many Issues In Wall Street Scored Good Advances

MONTREAL STRONG International Nickel the Market Leader at 2,175.

New York, Sept. 14—The stock market had a decided upward trend this morning on a fair sized volume of trading, the half holiday yesterday having apparently provided a stimulant. Motor and railway stocks shared in the advance. Auburn auto sold at 63½. Chrysler at 51½ and General Motors at 35½. U. S. Steel advanced to 56½.

Stocks on the Montreal market were active and strong this morning. Nickel rose to 21.75. Brazilian to 14½ and C. (continued on page four)

Report of Royal Commission May Create Changes

Constitutional Matters Affecting the Dominion and Provinces Are Involved In Bank Probe; Federal Government Would Relish a Curb on Provincial Borrowings.

OTTAWA, Sept. 14—Constitutional questions affecting the Dominion and the provinces are involved in the inquiry by the Macmillan Commission on currency and credit and presumably will be dealt with in the report. If any change is suggested, an amendment to the British North America Act would be entailed.

The provinces now have the right to borrow money for their own purposes on provincial credit. They appear to have adequately availed themselves of the privilege.

Some conflict arises with the Dominion, however. When, as frequently has happened heretofore, money raised on the security of bonds, is brought in from outside it is held to interfere with currency which is a subject of Federal jurisdiction. The broader effect claimed is that these provincial borrowings abroad, affect Federal credit in that no distinction may be drawn by the investor between what is Dominion and what is provincial.

Province's Right

Another question of controversy concerns the right of the provinces to have access to a central bank, if one is created.

It is thought in Government circles that these matters are certain to be dealt with by the Macmillan Commission, but any change may entail amendments to the constitution to which the provinces would be asked to assent. The Federal Government would relish some curb on certain provincial borrowings. One of its main tribulations arises out of the financial state of certain provinces, which have availed to the full of their competence to borrow and repeatedly seek aid from the Federal Treasury in seeing them through the trouble they encounter.

CONFERENCE AT THE CAPITAL TERMINATED

Discussions by Treasury Officials Said To Have Been of a Practical and Constructive Nature.

Ottawa, Sept. 13—Marked progress towards a common plan for presentation of public finance statistics was reported at the close today of the three-day conference of Dominion and provincial treasury officials.

An official statement issued at the conclusion of the parley declared: "The Dominion-Provincial conference of treasurers and other officials which has been sitting under the auspices of the Dominion Bureau of Statistics since Monday, concluded its work this afternoon. The conference was called by Hon. H. H. Stevens in order to make a thorough examination of the forms of public accounting, with the object of securing through the co-operation of the various governments a more uniform method of presenting the statistics relating to public finance throughout the Dominion. There is the prospect also of including later the main statistics of municipal finance."

Chief Purpose

"The discussions were primarily concerned with elucidating and defining the main items entering into revenues, expenditures, assets and liabilities, and nabling a terminology and grouping system which would permit the presentation of statistics on a common plan. A number of resolutions were passed in this connection, defining principles of analysis and presentation.

"The purpose of the conference, it was emphasized, was not to produce changes in the form in which the public accounts of the provinces and other bodies are being published by each, which must follow individual requirements, but rather to achieve a scheme of reporting to the Bureau of Statistics as central clearing house whereby broad comparisons may be arrived at and a consistent purview obtained for the country as a whole.

"The discussions were of a practical and constructive nature throughout, and as a result the bureau will submit to the provinces at an early date a standard form of reporting which, it is expected, will achieve the objectives aimed at."

HENRY FORD REFUSES TO BE INTERVIEWED

Detroit, Sept. 13—Henry Ford was back home today in direct personal command of his far flung industrial interests. He had no statement to make regarding his company and the national recovery administration, but an emphatic denial—made through Ford officials—that he had eluded would-be questioners at his north woods vacation camp, by departing Saturday noon concealed in a trailer.

Mr. Ford was in Detroit before anybody outside the Huron Mountain lodge near Big Bay, Mich., in the upper peninsula, knew he had departed, but officials here said he left the camp "openly, at noon Saturday with Mrs. Ford," without any attempt at concealment.

The motor magnate refused himself to interviewers, however, and his associates said that for the present, at least, there will be no formal statement regarding the Ford position on the NRA automobile code, which the company had not yet signed.
