Challenge of the C. C. F. Is Not Likely to be Taken Very Seriously

This Is Quite Plain From Results In MacKenzie and British Columbia—Hon. H. H. Stevens Says Bad Showing of Conservatives Was Discounted Several Months Ago.

OTTAWA, Nov. 4—Perhaps what is regarded here as the most significant and satisfactory circumstance in the Liberal sweep in British Columbia's general election yesterday is the clear indication that the loud challenge of the C. C. F. party is not to be taken seriously and that it is no very formidable factor in a real fight. The lesson commonly drawn from the result on Thursday, as recently in MacKenzie, is that, while the public may turn from one old party, it is disposed to go to the other without taking a chance with any intervening experiments.

Hon. H. H. Stevens, British Columbia Minister in the Dominion Government, expressed his view of the election yesterday morning. "Obviously," he said, "one of the Conservative faith would be disappointed by his own party's showing, but this was discounted several months ago, when it was clear that the Conservative party, as such, in British Columbia, was out of the picture. It is exceedingly gratifying to note that British Columbia is not deluded by the lure of weird experimentation in public administration and has given an overwhelming demonstration for democratic, stable, government. This, of course, places a very great responsibility on the shoulders of the Liberal leaders, which I sincerely hope they will be able to discharge with credit to themselves and honor to the country. I do not express sympathy with all their views but for the sake of the Province, I wish them well."

A REAL JUMPER

New York, Nov. 4—Stephen Broad of Newton, Conn., has entered a one-eyed horse in the International Horse Show, soon to take place at Madison Square Garden. This animal was purchased to draw a coal cart, and the owner learned only recently that he excelled as a jumper. He is going to compete with horses from many countries, many of which have won fame, and is expected to give a good account of himself.

WORK OF YEGGMEN

St. Thomas, Ont., Nov. 4—The office of the British American Oil Company here was burglarized for the sixth time yesterday. The safe was blown open and wrecked with nitro-glycerine but only \$21.00 was secured. The police believe that the break was the work of yeggmen, who arrived via the bumpers.

The Springhill Fence Busters did not play up to their name yesterday.

Montreal Stars' Comment On Result of B. C. Election

Says That Governments Are Almost Sure of Defeat In Bad Times

Montreal, Nov. 4—The Daily Star commenting editorially on the result of the provincial election in British Columbia has this to say:

The plain and pungent lesson of the British Columbia elections is precisely the same lesson that has been taught by every election since the Depression began.

Free peoples, brought up under parliamentary rule, demand that any Government dependent on their votes shall function to their visible and tangible benefit—or get out.

It is an old saying that Governments are safe in good times, but are almost certain of defeat in bad times. This is simply an application of the perfectly sound principle that any set of servants, public or private, who do a good

job are retained, while those under whose regime a bad job is done are dismissed. If there is any other way in which a busy and but casually informed people can judge the intricate and often hidden processes of representative government, we would like to have it pointed out.

Party Politics

"By their fruits ye shall know them."
Party has absolutely nothing to do with this. The Liberals—who are naturally cock-a-whoop today—should know that. The Depression began in 1929. In 1930 the Liberal Government in Ottawa went to the country. It was attacked on the ground that it was not protecting the people from the economic consequences of the Depression.

U. S. MID-WEST FARMERS FAVOR PRODUCE STRIKE

Madison, Wis., Nov. 4—Five hundred farmers who gathered here yesterday in the assembly chamber of the state capital, voted unanimously to keep up the fight for higher prices. Thousands of gallons of milk were dumped yesterday and the police were compelled to use tear gas bombs to restore order. Outside of Sioux City pickets halted a freight train and removed a number of hogs on the way to market.

NEW FRENCH CABINET IS APPROVED

Paris, Nov. 3—The young government of Premier Albert Sarraut won its first victory tonight in the Chamber of Deputies, gaining a vote of confidence in its program of "sound finances."

The issues leading to a vote of confidence today were virtually the same as those which caused the recent downfall of the cabinet of Premier Edouard Daladier.

Averse to precipitating another ministerial crisis, fearing the effects on the French franc and the gold supply in the Bank of France, the deputies voted to give the new Premier a chance to produce economic restoration.

Despite the apparent size of the government majority the cabinet got only 12 votes over a clear majority in the Chamber, there being more than 200 who abstained from voting. The latter include the Socialists and the group surrounding former Premier Tardieu, who are waiting for specific bills from the government.

HONOR MEMORY OF MT. ALLISON FOUNDER

Sackville, N. B., Nov. 3—An impressive service in honor of Charles F. Allison (1795-1858) founder of Mount Allison, was held here tonight in the Charles Fawcett Memorial Hall where a large audience assembled. A parade consisting of the Federated Council of the alumni and alumnae, faculties and students of the university, ladies' college and the academy, members of the class of '30 and many other visitors, formed at Centennial Hall and marched to Fawcett Hall. Prof. W. M. Tweedie was chairman.

VOTING DELAYED

Victoria, B. C., Nov. 4—Some eighty voters in two divisions of the northern constituency of Atlin are still waiting to cast their ballots in the provincial election. The ballots were forwarded by airplane, which was delayed en route.

REMEMBRANCE DAY

Remembrance Day, November 11th, which this year falls on Saturday is a statutory holiday and will generally be observed as such. The banks and government offices here will be closed and far as can be learned business will be pretty generally observed. It is expected that the farmers of the surrounding country will bring their produce to the city on Friday.

MAN AND HIS COMPANION IN SAD ACCIDENT

Auto Driven by Englishman Goes Into the Lachine Canal

BODIES RECOVERED

Insurance Manager and Couple Met Tragic Fate When Car Plunged Into Water

Montreal, Que., Nov. 4—A man and a girl plunged to death in the Lachine Canal early yesterday as a car, owned and driven by J. Gabriel Morin, 28, assistant manager of the Capital Life Insurance Company, residing at Brown Avenue, Quebec City, went over the embankment beside the Atwater Avenue bridge and Morin and Blanche Beaudoin, alias Rose Beaudoin, of Montreal were drowned.

The report of Lucien Quesnel, 5253 Wellington Street, the only eye-witness, was finally verified at 10:15 o'clock this morning when Alexandre Omer Vallee, diver for the Department of Railways and Canals, went down for the second time and reported that the car was lying on its side and contained a man and a girl. He had already made one visit to the bottom of the canal at 10 o'clock, but was unable to reach the car.

The bodies were identified by the license card found in the man's pockets and some papers found in the girl's purse in the car.

The bodies were removed immediately to the morgue where an inquest will be held tomorrow.

Quebec authorities stated that Morin left Quebec over the weekend on a business trip. He spent Monday at Three Rivers.

A young man not yet 30 years of age, Mr. Morin was agent in Quebec for the Capital Life Insurance Company. He is married and father of three small children. With his wife and family he has been residing at the home of his mother on Brown Avenue, Quebec.

COURT FIGHT STARTS OVER U. S. GOLD POLICY

Washington, Nov. 4—W. H. Woodin, Secretary of the Treasury, was ordered by Judge F. D. Lettis of the District Supreme Court, today to show cause before November 15 why a writ of Mandamus asked by Halsey K. Davis of New York should not be issued requiring the Treasury head to redeem in gold a \$20 gold certificate.

Davis filed a mandamus petition yesterday demanding the gold and attacking as unconstitutional the anti-gold hoarding provisions of the Banking Act.

PROGRESSING STEADILY

P. Bancroft Reid, who was dangerously wounded in a Marysville shooting on Monday afternoon last is making good recovery at Victoria Hospital.

INJURED MINER THE SAME

Patsy Rocco, Minto miner, injured in a dynamite blast Thursday is resting as comfortably as can be expected today at Victoria Hospital. The unfortunate man underwent an operation for the removal of an injured eye yesterday and it is too early to judge whether the sight of his right eye will be restored fully.

STILL CONFINED TO BED

Lewis Barber, local man who received a bullet wound in his leg while hunting deer some weeks ago, is showing little change in his general condition. Following a recent operation at Victoria Hospital his condition showed improvement but progress since has not been as rapid as hoped for.

Benito Mussolini Is Planning Some Drastic Changes

Premier of Italy Plans to Shake Up His Cabinet; Will Organize New Legislative Body From Industry and Farmers—Chamber of Deputies To Be Eliminated.

ROME, Nov. 4—Benito Mussolini intends to shake up his Cabinet, assume many of the important posts himself, dissolve the Parliament, and revolutionize the legislative system, it was revealed yesterday.

The Premier will dissolve the Chamber after the Christmas holidays and, with the beginning of the new year, establish a modified legislative system granting wide powers to capital and labor over the control of production.

His action practically will eliminate the Chamber of Deputies as a legislative body, and substitute a body representing industry and agriculture as the law-giving power.

His revision, one of the most drastic constitutional changes since Mussolini assumed the dictatorship, has an approach to some phases of "Technocracy," with the difference that the Senate will retain some of the political-legislative control.

The new legislative body will consist of delegates from commerce, agriculture and industry, from throughout the country. They will be classified and grouped in fifty industrial categories, to be called "guilds," representing capital and labor.

A SLIGHT INCREASE

Montreal, Quebec, Nov. 3—Gross earnings of the Canadian Pacific Railway for the ten days ended October 31, totalled \$3,683,000 as compared with \$3,528,000 in the corresponding period of last year, an increase of \$155,000.

NEW DIVINE RECORD

San Francisco, Calif., Nov. 4—Chris Hansen, noted diver claims to have made a new depth record in the golden gate yesterday. Deeked out in his diving suit he went down 260 feet. The previous record was 240 feet.

BYRD AT BALBOA

Balboa, Nov. 4—Admiral Byrd, on his way to the South Pole, was given at great send-off here yesterday. Boy Scouts turned out and greeted by members of the local organization.

GOLD FOR THE U. S.

London, England, Nov. 4—The Bank of England yesterday purchased gold bars to the value of £90,200. It is believed to have been bought for the First National Bank of New York.

Do you know your German? Then you know that "Nazis" is pronounced "Notzes."

N. Y. Chamber of Commerce Favors the Gold Standard

A Resolution Approving President Roosevelt's Policy Was Voted Down

New York, N. Y., Nov. 3—A demand that the United States government return to the gold standard was voiced today by the State Chamber of Commerce in a resolution opposing adoption of a commodity dollar or other currency experiments.

The resolution was approved almost unanimously after Leonore F. Loree, head of the Delaware & Hudson Railroad, waved a \$20 bank note and said: "The ending of the gold standard was as a great violation of trust and a denial of what is printed on that bill as was Germany's war-time disregard for Belgium's neutrality."

Prominent Leaders

Attending the meeting — a special session called to discuss the admin-

istration's monetary policy — were prominent Wall Street bankers and New York industrialists. A substitute resolution urging support for President's policy of restoring the purchasing power of the United States was submitted by A. W. Benkepit, investment banker, but was voted down.

"The chamber believes it is of the greatest importance to business recovery that the administration clearly and unequivocally announce that it will not adopt an automatic commodity dollar or a managed commodity dollar or similar currency experiments but will adopt a policy directed toward the return of a gold standard," read the resolution adopted.
