FEEDING FISH BY ELECTRICITY

Springfield, Illinois, Sept. 19—Illinois is using electricity to feed its fish.

Here's how: High voltage lamps over the feeding and breeding ponds at Mattoon attract bugs, which are killed by the heat. When they fall into the water the fish gobble them down.

It's cheaper than buying fish food.

The man who did forty three loops in a glider ought to be able to do something pretty spectacular in an old packing box.

DEATH TOLL FROM TROPICAL HURRICANE HAS REACHED 135

CRANBERRY CROP IN DANGER

Mexico City., Sept. 18—The death toll from Friday's tropical hurricane mounted tonight to 135 as swollen streams receded and troops recovered 45 more bodies in San Luis Potosi and 21 in tampico.

The war department said that in addition to the 32 per sons drowned in the suburbs of Tampico, and whose bodies were taken to the Civil Hospital, at least seven members of the crew of the launch Rosario were known to have been drowned when the boat boat went down. Eight persons were in the hospital at Tampico in a serious condition.

eports to the department from San Luis Potisi, 175 miles west of Tampico, said four small villages had been wiped out and that damage to the city prosper as the result of the collapse of the San Jose Dam amounted to nearly $1,000,000.

In North Carolina

New Bern, N. C., Sept. 18—Fifteen dead many missing, hundreds homeless and a prouertly loss of millions of dollars were listed tonight at the North Caroline coast counted the cost of the ravaging hurricane of Friday and Saturday.

Many small communities were almost wholly desolate, lacking food and shelter. anitary conditions over a wide area threatened disease. Restoration of roads and communication systems was only beginning.

Passes Out to Sea

Boston, Sept. 18—Week-end storms that left New England with washed-out roads and damaged crops today passed out to sea and fair weather arrived.

Along the coastline heavy seas pounded at waterfront communities and inland roadways and rail beds were washed away. Thousands of acres of crops were lost as rivers flooded the lowlands.

Concern was felt for Cape Cod's $3,000,000 cranberry crop, which comprises nearly 90 percent of the world's supply.

Today the storm had passed out to sea and in most sections of New England the rain had subsided.

At Gagetown

Gagetown, Queens Co., Sept. 18—Gagetown received a share of the storm which swept the coast during the week-end. ain which began at 7 o'clock Sunday evening, and wind which increased in intensity during the night brought a rainfall of nearly three inches up to 10 o'clock this morning. Some damage was done to crops an dorchards by the heavy wind and roads were temporarily flooded with water.

On The Border

St. Stephen, Sept. 18—A heavy rain and wind storm visited the border Sunday afternoon and evening, and at night there was a regular downpour. It has been a long time since it rained so heavily.

CLOUDBURST WAS CAUSE OF BIG WASHOUT

Saint John, N. B., Sept. 19—A cloudburst was thought last night to have been the cause of a serious washout near Harvey Station on the Canadian Pacific Railway system early yesterday morning, J. M. Woodman, general superintendent of the New Brunswick division, stated. The line was open for traffic last night after two trains had been delayed.

The "McAdam", which leaves Saint John at 5:50 A. M., was delayed four and a half hours in reaching her destination, and the Boston-Montreal express was five hours late reaching St. John when it arrived at 6:00 P. M.

Mr. Woodman said there were washouts close together, one covering an area 100 feet long and four feet deep while the other was about 10 feet long and two and a half feet deep. A crew of 50 sectionmen had not completed repairs last night.

Passengers en route eastward who arrived on the delayed train missed the 5.15 P. M., train from Saint John but Canadian National Railways officials provided for their convenience a special passenger coach on the through freight which left the city at 10 P. M.

DIED

SMITH—Passed away at her home, Sept. 19th., 1933, Mrs. Roy Smith, aged 51 years, wife of Roy W. Smith.

Funeral to take place to-morrow (Wednesday) afternoon at 2:30 o'clock from the late home, Brunswick street. Services will be conducted by Rev. J. W. Bartlett. Interment will be made in the rural cemetery.

GOVERNMENT WILL CONTEST EVERY B.C. SEAT

Victoria, B. C., Sept. 18—"As far as this government is concerned it will contest every seat in the province", stated Premier S. F. Tolmie of British Columbia last night, replying to published reports there had been a "split" 'in the cabinet over the question of fighting the election.

"Those staetments are nothing but political propaganda and are wholly without foundation", stated the premier. He added he was preparing a complete statement of policy, which would be issued this week.

The election date is November 2 and so far only three Tolmie unionist candidates have been edfinitely named.

The political boss handles wards and deals out the rewards.

OBSERVANCE OF JEWISH NEW YEAR BEGINS TOMORROW

(continued from page 8)
the crumbs that have accumulated. The underlying idea is that these things of the past, being cast into running water are eventually carried out to sea. Running water not always being available, any body of water is now used for the purposeand many Jews may be seen at ponds and fountains going through the ritual.

Special services at which the "shofar" or ram's horn is sounded will be heard in the synagague and special prayers of repentence and resolution offered.

WILL FORM CLUBS FOR TEACHERS AND PARENTS

(continued from page 8)
in the Palms with the president, Dr. H. S. Wright in the chair. A number of new members were admitted and routine business, including the report of the committee, was concluded.

REPORT OF AN ELECTION IS DENIED

Ottawa, Ont., Sept. 19—It may be said with all confidence that there is no foundation for a report published in Halifax today that there will be a Feedral general election this year.

The life of the present Parliament, which was elected in 1930, runs for fiv years and there is no need for the Government to go to the country before that period has elapsed.

There is no suggestion here in any quarter of the possibility of a Federal election before the latter part of next year at the earliest, and the general appeal may not take place before 1935.

Out in Kansas, where a robber was knocked out by two women armed with croquet mallets, the menfolk must have been busy being men.
