Hopeless Deadlock Over Currency May Mean Adjournment

Eight Leading Nations Represented at the World
Conference Recommend Postponement — The
Committee to Draft a Formula For Suspension;
Sub-Committees May Still Carry On.

(Special to The Daily Mail by the British United Press)

LONDON, July 4—Immediate adjournment of the World Economic Conference because of a hopeless deadlock on the currency problem was recommended today at a meeting of representatives of eight leading nations.

A meeting of the steering committee, comprising chief delegates of the great powers was called for 6 p.m. (1 p.m. E.D.T.) to draft a formula for suspension. This will be submitted to a plenary session of all delegates to the conference, probably tomorrow. The formula will be framed to permit a few pitifully unimportant sub-committees, such as that on co-ordination of production, to carry on, if the conference desires, either here, now, or at Geneva, home of the League of Nations, later.

BRIT. FLAGSHIP OFFICERS TO FISH N. B. WATERS

H.M.S. Norfolk To Dock
at Dalhousie This Week
—Admiral and Officers
To Fish on Restigouche
and Nepisiguit.

Admiral Drax and officers on H. M. S. Norfolk, of the North Atlantic Squadron, will fish trout and salmon on New Brunswick's famous rivers, the Restigouche and Nepisiguit.

The Norfolk is to arrive at Dalhousie on Thursday next and arrangements have now been completed for the officers of the British flagship to spend several days trout and salmon fishing in this province. It is expected that Admiral Drax and his party will go to the Restigouche River where they will be the guests of the Restigouche Salmon Club and the Red Bank Fishing Club. Other officers on the Norfolk will go to the Nepisiguit on a four days' trout fishing expedition in charge of the guides of Arthur J. Leger's organization on that river. Announcement of the arrival of the Norfolk at Dalhousie on Thursday morning was made today by Hon. W. H. Harrison, Attorney General, who is in Fredericton on official business. Yesterday Hon. Mr. Harrison completed arrangements for the fishing trip for Admiral Drax and his officers, when negotiations were entered into to have the Norfolk stop at Dalhousie on its way from Murray Bay where the British flagship has been for the last week.

Today D. Leo Dolan, Director of Information and Tourist Travel in the province left for Dalhousie to complete the details for the fishing trips of the British naval officers. It is expected that between 20 and 25 officers of the Norfolk will enjoy the fishing on the Restigouche and Nepisiguit and officials of the Department of Lands and Mines are co-operating in securing tackle, equipment and other essentials for such a fishing trip.

This will be the first time that British naval officers have had the opportunity of fishing trout and salmon on such well known streams as the Restigouche and the Nepisiguit and every effort is being put forth to make the expedition a successful one.

PEIPING BEING STRIPPED OF ITS ART TREASURES

Peiping, China, July 3—With the recent huge shipments of the palace treasures out of Peiping, this city can no longer boast the world's finest collection of Oriental objects d'art, curios and historic antiques, for which it has for centuries been celebrated.

Within the last three months most of the more available articles have been moved southward, far beyond the Tartar walls, to a new and uncertain destiny. Especially since the resignation of Marshal Chang Hsueh-liang and the assumption of full and direct control, in north China by the Central government at Nanking, thousands of cases of valuables have left here, in all probability forever. Little but vast empty halls remain to recall splendors of the imperial palaces.

A New Street?

C. L. Sypher, resident of Regent St., (extension) appeared before the city council at its committee meeting last night, and made the request that the city open up Dundonald street, Dundonald street has been proposed for some time but no work has been done on it yet, Mr. Sypher is the owner of a number of lots in that part of the city and opening the street would enable him to sell. At present this is impossible. The council will consider the matter and it was left in the hands of the Roads and Streets Committee to make a report.

Seriously Ill

Mrs. Joseph Paul, of the Oromocto Indian reserve is seriously ill at her home, with little if any hope held out for her recovery.

Robert R. Black of Amherst, a former member of the staff of the Fredericton experimental station, is a visitor to the city today.

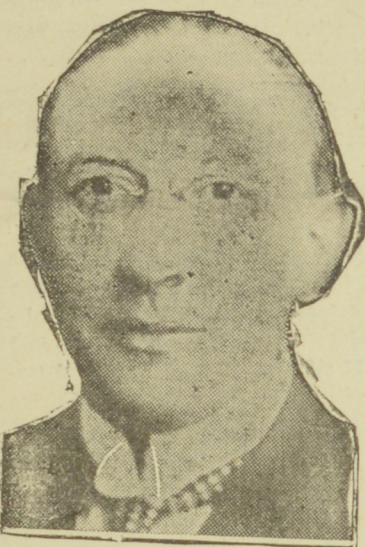

The Norfolk will be tendered a reception on its arrival at Dalhousie on Thursday. At this reception the provincial government will be represented by either by Premier Tilley, who is now on the north shore of New Brunswick or Hon. D. A. Stewart, Minister of Public Works. Mayor Allen, of Dalhousie is arranging for the civic reception to be tendered Admiral Drax and his officers.

HON. MR. RHODES INDULGES IN PLAIN TALK

Canada's Finance Minister Vigorously Assails the Soviet Russia Timber Policy.

London, England, July 3—Canada today vigorously attacked Soviet Russia's actions in building up huge timber production by cheap labor and dumping it on the markets of the world, to the severe disadvantage of timber producers who are still endeavoring to protect their capital and give their workers a living wage.

Hon. E. N. Rhodes, minister of finance, declared in the marketing committee of the world economic conference that if the supply is not brought into line with the demand, Canada

HON. E. N. RHODES
Minister of Finance

will be forced to ask the United Kingdom to take steps to keep its guarantee that timber shall not be sold in the British market at prices, which frustrate the conduct of normal trade.

He pointed out production had more than doubled in the Soviet Union between 1928 and 1931. Russia timber was sold without regard to cost of production. The Russian timber workers must accept conditions and wages laid down by a state which is in a position to fix these wages and conditions at a scale necessary to enable the state-controlled industry to sell its production on foreign markets.

Standards Lowered

"Faced with this competition other exporting countries have had to curtail their exports and in some cases even their reduced exports have been possible only through a general lowering of the standard of living of the workers in their timber industries," he said.

"It is our hope, however, that this conference, may arrive at some satisfactory solution of the problem and that concerted action may bring about a readjustment of the supply and demand. Our task is to restore prices to a level which is fair to both producers and consumers."

The committee on the suggestion of Mr. Rhodes, appointed a sub-committee to consider the timber situation on which the Soviet Union is represented. Other members are Canada, Czechoslovakia, Finland, France, Italy, Poland, Rumania, Sweden. It will consider hewn and sawn timbers of all kinds and wood pulp. It will endeavor to devise a system of co-operation and guarantees, whereby the production of the ex-

MUNICIPAL COUNCIL IS IN SESSION HERE

H. G. Hoben, Auditor,
Submits Report on
Finances

OVERDRAFT
INCREASED
Result of Advances On
Account of Direct
Relief

The York Municipal Council met in semi-annual session in the council at the Court House this afternoon. The warden W. E. Nason, of New Maryland, presided and all of the members of the board were in their places.

Harry E. Hoben, the new county auditor, following prayers by the Chaplain, Rev. M. H. Mason read his first report covering a period of six months ending on June 30th. The total ordinary receipts during that period were \$48,529.03, which with a bank liability of \$46,744.46, brought the total up to \$95,273.49.

The total ordinary disbursements for the period were \$50,191.98, which with the addition of school drafts amounting to \$7,683.50, brought the total up to \$57,875.48. The bank overdraft on November 30th, it was \$37,398.11 and the amount is now \$46,744.46. In explanation of the increase it might be pointed out that the Municipality has advanced considerable money for direct relief work, two thirds of which will be refunded by the Federal and Provincial Governments. Since June 30th deposits in the neighborhood of \$5,000 have been made by the secretary-treasurer to the credit of the Municipality.

Auditor's Report

The full text of the auditor's report is as follows:—

July 4th, 1933.

To the Warden and Councillors of the Municipality of York, Fredericton, N. B.

Gentlemen:

I have audited General Account Cash Book of the Municipality for seven months period from November 30, 1932 to June 30, 1933 and beg to report that all monies received by the Secretary-Treasurer for period, as evidenced by duplicate receipt books, have been accounted for and deposited in Bank and that all Disbursements have been made by cheque supported by a proper voucher.

The following is to show Receipts and Disbursements for the period, also Liability to Royal Bank of Canada, Fredericton, at beginning and at end of period:

Total Ordinary Receipts	\$48,529.03
June 30, 1933 Liability to Bank	46,744.46
Total	\$95,273.49

Total Ordinary Disbursements:	
General	\$50,191.98
School Drafts	7,683.50
	\$57,875.48

Nov. 30, 1932 Liability to Bank	37,398.01
Total	\$95,273.49

The Liability to the Royal Bank of Canada at June 30, 1933 is made up as follows:

Bank Loans	\$42,500.00
Add Bank Overdraft 1933	
Account	13,997.80
Less Bank Credit Balance 192 and subsequent account after providing for Outstanding Cheques	9,753.34

Amount as shown above \$46,744.46
I have also audited Road Tax Cash Book of the Municipality for seven months period from November 30, 1932, to June 30, 1933, and beg to report that all monies received by the

porting countries and their relations to the importing countries would be regulated.

Tobacco Crops in Cuba Suffered Serious Damage

Many Plantations Were Ruined by the Hurricane
Which Swept the Island—Loss of Life Was Not
Heavy, As the People Fled in Motor Busses
From Stricken Town.

(Special to The Daily Mail by the British United Press)

PINAR DEL RIO, Cuba, July 4—Ruined tobacco plantations, but a small death list, were left today in the wake of an out-of-season hurricane that swept the western portion of Cuba. Inhabitants of the coastal town of Columa, where great losses had been feared, evacuated the town when the water started rising and, fleeing in motor busses, reached safety.

Water penetrated 1½ miles inland at Columa, destroying houses and docks. Two persons were known dead at Pagar Del Rio, two at Puerto De Golpe, two at San Louis and one at Consolation Del Sur. Hundreds were injured in the hurricane zone. Damage to high grade tobacco crops may reach into the millions of dollars. Rice and other crops were destroyed.

NEW WATER SUPPLY FOR OLD ATHENS

Athens, Greece, July 3—Athens has a new water supply after 1,800 years. The ancient city has been getting its water from works begun by the Roman Emperor Hadrian and finished by Antonius Pius. The new system, which involved the building of a dam at Marathon, was completed after 4 years and ten months of actual construction.

Hardian's open aqueduct was exposed to all kinds of impurities. It was no infrequent sight to see family linen being washed in it.

THE SPUD MARKET

Hartland, N. B., July 3—Today's potato market was firm, with wire enquiry and demand far exceeding the supply. Trading was restricted, due to the few cars left unshipped. Consuming centres were depending mostly on new stock to take care of their requirements. Prices on old New Brunswick potatoes today were mostly \$1.35 a barrel for Green Mountains, Canada Grade 1.

Here From Ottawa

Mr. Justice O. S. Crocket, of the Supreme Court of Canada is in the city today from Ottawa and will remain here for several weeks. It is expected. Mr. Justice and Mrs. Crocket have been residing at the Dominion capital since last fall, when the former New Brunswick judge was appointed to the Canada Supreme Court. Mrs. Crocket arrived several days ago, and both are being warmly welcomed by friends.

Condition Unchanged

The condition of James Edward Thornton, 79-year-old resident of Hawshaw who suffered a broken leg and scalp wounds when he was struck by an automobile driven by George Olts, Woodstock, while he was crossing the main highway near his home yesterday morning, remains about the same today. The injured man is in a serious condition and is suffering from shock.

Pensions Relief

W. B. Hicks, of the Department of Pensions, Saint John was in the city yesterday in connection with relief matters pertaining to his department.

STATE OF MAINE GETS LEGAL BEER AFTER 60 YEARS

Augusta, Me., July 33—For the first time in sixty two years beer of 3.2 potency was being sold legally today in the prohibition State of Maine, which already has received more than \$100,000 in brew revenue from license fees besides several thousand dollars in excise tax receipts.

Maine's beer law, passed by the Legislature a few months ago and providing for a state licensing board of three members, became a reality June 30, ninety days after adjournment, but the brew could not be sold until Saturday because of a technicality in the confirmation of the beer commissioners.

Governor Louis J. Bran's appointments of the three beer commissioners, a former United States Marshall, a publisher of a French newspaper and a grocer, were confirmed by the Chief Executive's Council last week when nearly 2,000 licenses were issued to wholesalers, retailers, hotels, restaurants and clubs throughout the Pine Tree State. It is estimated that Maine will derive a revenue of approximately \$200,000 yearly from beer licenses.

Hundreds of trucks and carloads of the legal beverage were imported for consumption in Maine today because no Maine manufacturer as yet has started a brewery, the license fee of which is \$2,500. Incidentally all three members of Maine's beer commission are "total abstainers."

Soccer On Saturday

Fredericton City Soccer club will meet the highly touted Gagetown team on Saturday at College Field, the game starting at 6:30 P. M. The game promises to be one of the best of the season.

Flour Advancing

It is reported that following the boost in the price of wheat, flour has advanced forty cents per barrel. So far there has been no change in the price of bread, but it will come.

Fined For Speeding

Eldon Seymour, Nashwaaksis, appeared before Magistrate Limerick this morning and was fined \$10 and costs for driving his car at a rate of speed contrary to the Motor Vehicle Law.
