The United States Will Try to Restore Finances of Cuba

Americans Have Hundreds of Millions of Dollars Invested in That Country—Drastic Program of Reconstruction Necessary.—Son Born To Noted Baritone Singer.

(Special to The Daily Mail by the British United Press)

HAVANA, Aug. 18—The likelihood of financial intervention by the United States in an effort to protect the hundreds of millions of dollars of American investments in Cuba was admitted today in well informed semi-official quarters as the provisional government turned its attention to the problem of setting the republic's finances aright. The complete reconstruction of Cuba's economy, industry, agriculture, commerce and the revenues possible from these appeared inevitable if these investments and the future of the Cuban people are to be protected and assured.

May Be a Singer

SAN FRANCISCO, Cal., Aug. 18—A seven and a half pound son was born here yesterday to Mrs. Lawrence Tibbett, wife of the American baritone.

Mrs. Tibbett was formerly Mrs. Jennie Marston Adams Burgard, San Francisco society leader. They were married in New York early in 1932.

BOYS DROWN FROM CANOE IN YARMOUTH

The Craft Overtured When They Were 25 From the Shore.

Yarmouth, N. S., August 17—The lives lost in Lake Milo, on the northern outskirts of Yarmouth, increased by two nights, when George Williams, 15, and Stanley Muise, 14, son of Mr. and Mrs. Gabriel Muise, Main Street, lost their lives by drowning after upsetting their canoe 25 feet from shore. Stanley was declared dead by Dr. G. V. Burton as soon as recovered and a full hour of resuscitation efforts on Williams by Bancroft Davis, Burrill Davis, Carl Trask and Clarence Shapiro proved vain.

The two youths hired a canoe at 7:30 P. M., and shortly afterward several persons nearby were attracted by their shouts to a spot in the second lake not far from shore. To their horror they beheld the two struggling youths sink beside their upturned canoe and not reappear.

Dragging was started immediately, but it was not until 8:40 P. M., that Captain E. Nickerson, and Constable MacKeller, of the R. C. M. P., succeeded in locating the bodies.

The bodies were found in three and one half feet of water. Investigation proved that the deepest point was slightly over five and one half feet. The first to arrive on the scene were Arthur Bent and A. Ritchie, of the staff of Lakeside Inn, nearby. The boys' struggles were visible from the hotel but on the men's arrival no trace could be found of the canoe's occupants. Neither of the lads was a good swimmer, which evidently explains their deaths, as fairly tall person could have walked safely to shore. The bodies were removed to undertaking parlors.

Tear gas in the Stock Exchange? Why didn't that occur to anybody in 1929?

POLITICAL POT IS BOILING IN NOVA SCOTIA

Premier Harrington In Political Speech at New Glasgow—The Opposition Leader Talks To Fruit Growers.

Halifax, N. S., August 17—Heavy artillery of the Nova Scotia election battle was brought to bear on four provincial centres tonight as the time before polling dwindled to four days. Interest heightened with the fast approach of the balloting date—August 22. Large crowds turned out to hear government and opposition spokesmen.

A Large Order

Premier Gordon S. Harrington spoke in the steel town of New Glasgow, and he brought word of an order for 2,000 tons of steel to be produced at New Glasgow and Amherst. Premier Harrington said his Conservative government and the Federal administration had concluded negotiations for immediate construction of sheds for Pier B of the Halifax ocean terminals, and that the steel would be used for this purpose.

The premier announced also negotiations were proceeding "with every prospect of early success" towards heavy expenditures on permanent highways. A percentage of the cost, he said, would be borne by the federal government, partially as a relief measure and partially under the national highway program.

He declared the project would give work to about 150 men at each town for a year, and it would assist coal production also, besides employing workmen directly in the capital.

More Road Work

In his home constituency of Amherst, Hon. Percy C. Black, minister of highways, went into general detail concerning the proposed road work. Expenditure would total \$1,000,000, the minister said, and the money would be directed to provide the greatest possible amount of employment in the fall months.

The highways minister defended the record of his department against Liberal criticism, asserting it had reduced the mileage cost of road construction since 1925 and effected other economies in this time.

While the premier and minister of highways were speaking in industrial centres, Liberal leader Angus L. MacDonald, was presenting the opposition case before fruit-growers of the Annapolis Valley. He addressed meeting at Berwick and later at Wolfville with John A. MacDonald, the party's candidate in Kings.

The opposition leader was troubled by a throat disability brought on by his intensive speaking tour, and his addresses were brief. In each, he outlined the points of his platform, pledging his party to effect large savings in administering the government, particularly in the departments of agriculture and highways.

He criticized "appalling expenditures" of the present administration and said he proposed to fulfill his policies with respect to old age pensions mothers' allowances, and relief measures without increasing taxation.

Chicago, Ills., August 18—General Manager Lenox R. Lohr of a Century of Progress Exposition revealed that of the concessionaires, the old standbys—the snake show, the street carnival and the weight guessing business—were doing the best business.

STOCK MARKET WAS STRONG THIS MORNING

Many Issues Move Up Sharply on the New York Exchange

STERLING AT 4.41

Imperial Oil Takes Jump On the Montreal Exchange

New York, Aug. 18—The stock market developed some strength this morning on active trading. The pound sterling was quoted at \$4.41½ and American furs were at a premium of 5½ per cent. U. S. Steel was up to 54½, Auburn Auto to 59¼, Commercial Solvents to 38½, and National Distillers to 38½.

Diamonds can Now Be Exchanged for Butter and Eggs

The Soviet Government Has Issued An Order Legalizing the Exchange In Government Shops Throughout the Union—Wreckage of Amundsen's Plane Reported Found.

(Special to The Daily Mail by the British United Press)

MOSCOW, Aug. 18—The government issued an order yesterday legalizing the exchange of diamonds for butter and eggs or any other commodity needed from government shops throughout the Soviet union.

The order also permits the people to sell goods for foreign currency, gold or silver.

The Soviet leaders expected that millions of dollars worth of diamonds, hidden since the Bolshevik revolution, will now flow into the government coffers.

Plane Wreckage Found

OSLO, Norway, Aug. 18—Government investigation was ordered today of unconfirmed reports that fishermen had found the wreckage of the seaplane in which Roald Amundsen, discoverer of the South Pole, disappeared while flying to the rescue of the dirigible Italia, wrecked in the Arctic in 1928.

The reports said the wreckage of the plane had been found between Bear Island and Tromsø, whence the Amundsen party set out June 18, 1928.

BILLION BET YEARLY IN THE OLD COUNTRY

London, England, August 18—How Britons spend a sum of fully \$2,000,000,000 a year getting a kick out of life has been told in two official blue-books published here. The first of these publications, issued some months ago, embodied the recommendations of a Royal Commission appointed by Parliament to study all aspects of the liquor problem. It has not proved a best seller, probably because of public apathy over the expenditure yearly of \$1,000,000,000 on stimulating refreshments.

The second blue book comprises the report and recommendations of another royal commission which for 12 months had been studying the lotteries and betting problem hereabouts. It promises to be a best seller because of the serious concern of so many sound citizens over the amount wagered on horses, greyhounds and professional football. A conservative estimate places it at more than \$1,000,000,000 a year.

FAITHFULNESS IS REQUESTED OF FASCISTS

Rome, Italy, August 17—Popolo D'Italia, Roman newspaper, Saturday called on all true Fascists to be more faithful to their use of the Fascist salute.

Raising of the arm has been obligatory among Fascists for some time and now has been widely copied by Fascists' movements in other countries, but the newspaper finds that despite its manifold virtues and obvious superiorities over the decadent handshake, the salute is not adequately revered among the Black Shirts themselves.

The Misses Katherine and Barbara Wetmore and Dorothy Pond who were camping at Brown's Flats have returned.

RATEPAYERS OF DOUGLAS HELD MEETING

Four Candidates Chosen For the Municipal Election — Coun. Seymour Announces His Retirement From Municipal Politics.

Coun. Fred Seymour, who has represented the Parish of Douglas in the York Municipal Council for sixteen years without a break announced at a largely attended public meeting of ratepayers of the Parish of Douglas in a hall at Nashwaaksis last night that he would not be a candidate for re-election. He was promptly renominated and stated that while he appreciated the compliment it would be absolutely impossible for him to accept the proffered honor. In a brief but feeling address he reviewed his work at the board, and said that he believed that he had performed his full duty to the parish and county. Coun. Seymour has been through the Warden's Chair, has been the only chairman of the Municipal Home Committee and for twelve years he has been chairman of the finance committee.

The meeting accepted Coun. Seymour's decision to retire with reluctance, and proceeded with the nomination of other candidates.

Those chosen were Ex-Coun. Tilley Bird of Burr's Corner, Benjamin Waugh of Douglas, Coun. Dell Pugh of Burr's Corner and Newton Dunphy of Douglas. The voting was by ballot and Messrs Bird and Waugh led the poll, but the others were only a few votes behind. It is understood that all four candidates will take the field, and it is just possible there may be others. Ex-Warden Frank Saunders of Prince William, who was in the city today, announced that he will offer for re-election to the Municipal Council. His colleague, Coun. Robert Graham will also take the field again.

Miss Mary Vesey, of St. Stephen, is visiting Mr. and Mrs. W. S. Thomas.
