

THE RIVER COMMISSION MAKES MANY SUGGESTIONS

The United States members of the International St. John River Commission have announced the terms of their report, the recommendations being as follows:

That the storage dams mentioned in the report be built at the joint expense of the United States and Canada.

That by reciprocal legislation or otherwise, there be established an International Board of Commissioners, consisting of three members; one to be appointed by the government of the United States, one by the government of Canada, and the chairman by the joint agreement of the two governments for the purposes following:

To regulate the use of all waters stored by the dams above recommended wheresoever said waters are to be used and to make rules in respect thereof.

To supervise the making of any improvements in the channels of the river and its tributaries for which the two governments may from time to time make provision.

To regulate the sorting of intermingled logs on all parts of the river and its tributaries to which their jurisdiction in respect of such sorting shall be made to extend and to make rules in respect thereof and to see that the same are obeyed.

The commissioners on behalf of the United States maintain that said jurisdiction over the sorting of logs should extend from the booms at or near Fredericton, including the same to the headquarters of the river and its tributaries wherever sorting works now are or may hereafter be established and whether the same be wholly in Maine or wholly in Canada.

The commissioners on behalf of Canada maintain that such jurisdiction should be limited wholly to the parts of the rivers which are boundary waters within the provisions of the Treaty of 1842.

That prize or no mark logs should be sold each spring by public auction at such time and place as may be agreed upon by the owners of intermingled logs in the river, such prize or no mark logs to be separated from other logs at such sorting works on the river as the purchaser may designate and there to be scaled and delivered to the purchaser.

That the proceeds of sale of no mark of prize logs, less the expense of driving, sorting and scaling the same, be equitably distributed among the owners of marked logs entitled in such distribution.

That the provisions of the existing legislation in respect to the distribution of the proceeds of prize logs de-

livered to the purchaser at booms near Fredericton be amended to conform to the last two preceding recommendations.

Grand Falls: The commission has stated its general views in regard to Grand Falls. The company controlling the shore rights was requested to submit its plan of proposed development for approval. No plan was submitted and the commission is not able to make specific recommendations in respect thereto.

The Telos Canal and Chamberlain Dam: Mr. Madigan, commissioner on behalf of the United States, declines to make any recommendation in regard to Telos Canal and Chamberlain Dam for the following reasons:

1. That it is not within the jurisdiction of this commission.

2. That the right to divert the waters of the said lake as at present has become absolute as a matter of law.

3. That valuable vested interests on the Penobscot River have been acquired since the right so became absolute.

4. That a conservation of Churchill Lake and its tributaries will afford sufficient water for the Allagash River.

The Canadian commissioners and Mr. Keegan, one of the commissioners on behalf of the United States, recommend as follows:

That if the storage dams for log driving purposes recommended in this report be built, it will not be necessary to meet the requirements of log driving to change the conditions now existing at Chamberlain and Telos Lakes, but, if such dams are not constructed, that measures be taken to determine, by international agreement, or by obtaining the judgment of some competent tribunal whether, by prescription or otherwise the continued diversion of water by means of the Telos Canal and dam and the Chamberlain Dam is lawful; and, if found to be unlawful, that the said works be taken over by and at the expense of the State of Maine, and, operated under the supervision of the said Board of Commissioners for the joint benefit of the St. John and Penobscot Rivers, giving to each river, so far as may be possible, an equal share of the stored water, as the exigencies of log driving conditions may require, and that the cost of maintenance and operation be borne by the owners of logs in both said rivers in proportion to their respective quantities of logs, or, failing such an arrangement, that the Chamberlain and Telos Dams be taken down, the Telos Canal closed up, and the waters of the Chamberlain system allowed to run in their natural channel down the Allagash River.

IN PASSING.

The Evening Sun, upon the authority of the Yerkes Observatory of Chicago, reports that Jupiter and Venus met Sunday. They did not linger but gave each other the "high sign" as they whirled by four hundred million miles apart.

JUPITER TO VENUS.

Hello, my little chicken, you're the winner of the group; While you're surging round the circle and a splurging round the loop, Here's a little stunt in transit that will corrugate your face; Just you figure up your mileage at the rate you charge through space

VENUS TO JUPITER.

For a gentleman so ancient you talk not unlike a goat, And you look like Uncle Hiram with your whiskers all afloat, Did I hear you speak of figures? Well I register no kicks, Though I never wore a corset I'm the "model 36."

—Olin L. Lyman.

YOU KNOW 'EM

The citizen
I most abhor
Is he who fights
Old Europe's war.
—Cincinnati Enquirer.

The one whose goat
We'd like to get
Is he who asks:
"You fell off yet?"
—Macon Telegraph.

The one that really
Makes me grieve,
Is he who says:
"I got you, Steve!"
—Detroit Free Press.

And one whose corpse
I'd like to view,
Is he who calls me
"Hey, there you!"
—Judge.

We'd like to draw
The hangman's noose
On him who wears
Those gray-topped shoes (shoes)

WHAT NATURE WILL DO FOR CANADA.

Sixty per cent. of all Canada is designed by Nature for growing trees, and nothing else. The picture shows what Nature will do on a patch of useless sand and gravel near Guelph, if given a chance. The pines were planted a few years ago, and are fast rising to a valuable wood lot.

MR. ONELINER

HERE let it be said

HAT I do not believe

N PUNISHMENT, capital

OR CORPORAL.

TO take a small, naughty youth

OUT behind the barn

OR into the time honored woodshed

And while the everlasting daylight

out of him

WITH a trunk strap

OR hair brush

(WHAT about that, mother?)

IS NOT, to my way of thinking,

A fit, decent or even successful method

THE boy is not benefited.

WHEN he stops smarting

HE plots one's destruction.

I FIRMLY believe

THAT murder lurks in the minds

Of recently chastised bad boys

And given strength and opportunity

THEY might prove dangerous.

THAT is one reason.

Another is that I believe the kid is

NOT made better, but worse.

BY LICKINGS.

Kindness alone—kindness and persuasion—

ARE the only correctives

WORTH WHILE.

And again—the parent is very apt to

WORK off a lot of personal spite

Once the trunk strap gets to swishing.

(Intermission of fifteen minutes.)

THE moralizings above

WERE MADE

JUST before Mrs. Oneliner

CO-BOSS of my household.

CAME in tearfully to me

AND told me a tale

JOHNNY Oneliner, my son and heir,

Has been getting a bit above himself

FOR several months.

He has been worrying his grand-

mother,

WHO lives with us.

And the old lady has had such a bad

cold

(She can't even speak, poor thing.)

That she is not to be worried,

I WON'T have it.

Consequently I have just returned

from the woodshed,

WHERE John and I

Have been having a little session.

I FEEL BETTER

And John feels worse. Much worse—

But what would you do, dear reader.

IF a tearful wife

Confided to you that your son

Had surreptitiously been feeding his

grandmother,

N her gruel.

The canary bird's song restorer?

YOU would do what I did—

Whale the stuffing out of him.

AND moralizing be hanged!

LOTS OF WILL!

Fumes—I'm going to quit smoking.

Tombs—You haven't got the will

power.
Fumes—The devil I haven't. Why,
I've quit four times already this

GIRLS! HAVE WAVY, THICK, GLOSSY HAIR FREE FROM DANDRUFF

Save Your Hair! Double Its Beauty In a Few Moments-- Try This!

If you care for heavy hair, that glitters with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine.

Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff; you cannot have nice, heavy healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life and if not overcome it produces a feverishness and itching of the scalp, the hair roots fanish, loosen and die; then the hair falls out fast.

If your hair has been neglected and is thin, faded, dry, scraggy or too oily, get a 25-cent bottle of Knowlton's Danderine at any drug store or toilet counter; apply a little as directed and ten minutes after you will say this was the best investment you ever made.

We sincerely believe, regardless of everything else advertised, that if you desire soft, lustrous, beautiful hair and lots of it—no dandruff—no itching scalp and no more falling hair—you must use Knowlton's Danderine. If eventually—why not now?

CHICAGO NATIONALS AFTER PITCHER GENE PICKARD

Chicago, Feb. 21.—The Chicago Nationals today reopened negotiations with Harry Sinclair and Pat Powers for Gene Pickard, the left handed pitcher, last year with the Kansas City Federals. Failure to agree on Pickard's cash value prevented a deal some time ago.
