VACANT SENATORSHIPS

There are now three New Brunswick vacancies in the senate and there does not seem to be any good reason why one of them at least should not be filled by a resident of the Saint John Valley. At Confederation New Brunswick was allotted twelve members of the senate, who were appointed by royal proclamation and fairly well distributed throughout the province. It surrendered two to Prince Edward Island in 1873 when that province came into the union. New Brunswick now has ten members in the upper house, which following the next Federal election will be the same as our representation will then be in the House of Commons. It is important that the members should be well distributed throughout the province and should fairly represent all classes of the population. At the present time not a river county from Saint John to Madawaska is represented in the upper house, and it was certainly not the intention of the Fathers of Confederation that such inequality should exist. The County of York was honored at Confederation with a Senator, and was represented in that body up to the time of the death of Hon. F. P. Thompson ten years ago. The County of Carleton has never had a representative in the red chamber.

SEA SERPENTS

Reports of sea serpents loom up quite frequently and are usually accepted with more or less mental reservation. The latest report of this kind emanates from British Columbia and is vouched for by reputable people. The serpent it is claimed was seen in the Gulf of Georgia off of Vancouver Island. Its length was estimated at eighty feet and it is said that it moved through the water with great rapidity. One man who claims to have seen the monster a year ago, declined to say anything about it at the time for fear of being ridiculed. The clerk of the British Columbia Legislature and an official of the Vancouver Library are among those who claim to have seen the phenomenon quite recently. The records show that officers of the British navy claim to have seen a sea serpent off the coast of Africa in 1857.

SMALL TOWN STUFF

The Orono, Ontario News, says: "Small town stuff" from the Fredericton Daily Mail, gives out some hot stuff in this line to those places that imagine they are so much higher up than our lowly burghs. Well, the latter are able to balance their budgets, which many of those big noises are a long way past due. "Small town stuff" as a rule has a dollar or two deposited in the bank while many of the big town noise are standing in line at the relief stations waiting a handout. "Small town stuff" nine times out of ten are picked upon when someone wants a man they can depend upon. Yes, the big-town noise makers may produce that part all right but results are what counts these strenuous times—not gas-bag fireworks.

The City Council is to be commended for the efforts it is putting forth to have a substantial building for offices and stores erected on the vacant lot in Queen Street. The matter was dealt with at a special meeting last evening and substantial progress seems to have been made. The lease of the two vacant lots will be turned over to a local syndicate, which will undertake to erect a building at a cost of \$40,000. Real estate in Fredericton has as a rule proved a profitable investment in the past and nobody should get the idea into his head that this city has seen its best days.

Irvin S. Cobb, the well known American humorist, paid a tribute to the Royal Canadian Mounted Police in a radio talk one night this week. After observing that the Mounties are celebrating their sixtieth anniversary of the establishment of the force, he went on to say that the Mounties and the old time Texas Rangers would make a wonderful combination. "If I were a kidnapper," he went on, "with them after me, I would carry a lily in my hand so I would be ready for the morgue."

With nine candidates in the field Coun. Robert McAllister, M.L.A., for Saint John County led the poll in the Parish of Simonds in Tuesday's municipal election. He led in every polling booth and had a total of 338 votes against 314 for the next highest candidate.

Diehards hang on to their ideal of olvely, summery autumn desperately wearing their light raiment into the cold, raw, cloudy days until at last reluctantly forced to get into heavier underwear, high shoes, vest and overcoat. The next day or the next, the weather turns hot and stays so for two weeks—inciting a diehard to scold hard.

It is now said that horses also suffer from encephalitis. Most any person who recalls the horse and buggy days will agree with the theory, remembering Old Dobbin and his poky ways as they must.

Bad Man Kelly says he wouldn't want to sell Urschell any life insurance. If he will make inquiry of any of the old line companies he'll probably discover he's not rated as such a prime risk himself.

A thirteen-year-old boy ran away from his Manhattan home on September 21 and reached Los Angeles, "tired but broke," on September 30. What could he do if he had an airplane and a little change?

A Persian kitten landed in a Providence back yard, evidently from an airplane that had just passed overhead. It probably drew on most of the nine lives on the way down.

As to the question whether Communists or Nazis set the reichstag fire, a sane world opinion would not put it past either of them.

Some people are so anxious to make the most of things that they stretch the truth.

THROUGH OUR SIEVE

After a diet of pollyanna foods bologna sausage tastes immense.

The best statesman knows when to say no; but it may beat him.

There are men who have haloes that you can't see. It depends on your own eyesight.

A capable man turns aside from his business to accept office probably because he wants excitement.

One of the great carefree feelings is to know that you have no jewelry that anybody will want to steal.

If you can't put on the little paper cap at the banquet, you had better go home. It is not your place.

Mother thinks a grand slam means the one father gives the door after he's been licked in an argument.

But think what you miss if you quit smoking to save your life and then die of something else.

Important question is how to make a living—and the other half are struggling to find some man who will help them to stop working for a living.

A man whose wife left him 44 years ago has made up his mind to sue for divorce in Massachusetts. On the surface, that would seem to set a new mark to slow-motion conclusion-jumping.

HAS LARGE ASSETS

Chicago, Ills., Oct. 19—The National Life Insurance Company of the United States is in financial difficulties and a receiver has been appointed. It has assets of \$175,000,000, and the Attorney General is confident that they will exceed the liabilities, and that policy holders will suffer no loss.

Decide Further Exemptions on Gasoline Tax

Plan Announced At Conclusion Of Government Meeting — Will Cover Wider Variety Of Industries

At the conclusion of the provincial government meeting here last night it was announced by Premier L. P. D. Tilley that the government planned to make further exemptions from the provincial gasoline tax. The regulation will take effect on November 1st, the beginning of the government fiscal year, and will cover a much wider variety of industries in which gasoline is used.

Formerly, only farmers and fishermen were free of the tax of seven cents per gallon when that gas was used for purposes other than operating a motor vehicle upon the public highway. Under the present arrangement operators in these two industries are given a rebate of the tax when the gasoline is used in pursuit of their work and the new regulation will give the same privilege to others.

Those who will benefit under the plan will include lumber operators, and operators of mills, tractors, dredging, manufacturing, well-digging, dye works, cleansing, pressing, tailoring, lighting plans, freight boats, towing boats and motor boats.

Last year, according to the public accounts of the province, the refund to fishermen, farmers and manufacturers, the latter being in effect at the time, amounted to \$59,303.01. Net receipts from the gasoline tax were shown as being \$767,768.67.

PARENTS ASSOCIATION HELD REGULAR MONTHLY MEETING

The regular monthly meeting of the Parents Association of Fredericton were held last evening at the Palms with the vice-president, Dr. A. W. G. Good, in the chair. The meeting opened with the singing of "O Canada". Routine business was conducted and the secretary reported the outstanding bills which were reported to be paid.

The Day Nurseries committee report showed that they were desirous of co-operating with any other organization to form a day nursery where needy mothers may leave their small children in competent care while they are engaged in work to support them. It was pointed out that at a previous meeting it was reported that many mothers had to leave their children unprotected while being occupied in support of them.

The membership committee was asked to consider and report on the matter of Home and Schools clubs. They reported that clubs were functioning very successfully in Ontario where there are over 300 local associations providing a common meeting ground for teachers and parents. The committee recommended that the teachers in the city be asked to co-operate in forming these clubs along the Ontario plan of organization.

Dr. W. C. Kierstead gave an inspiring address on the duty of parents and his remarks were listened to with much interest. The program provided by the music committee was much appreciated.

HERE TO HUNT

Mr. and Mrs. Ralph D. Stowell of Alden, N. Y. and Robert S. Dunsford, of Lowell, Mass. are in the capital today. The party will spend the next few days on a hunting outing in this province.

WILL INVESTIGATE

London, Ont., Oct. 19 — The City Council of this city will next week send a special committee to Northern Ontario to obtain first hand knowledge of sentiment conditions.
