CARLETON ENDORSES THE BOODLE BRIGADE

Smith and Sutton Were Elected Over Upham and McCain by Substantial Majorities--Government Forces Made Liberal Use of the Resources of Civilization --Electors Yielded to the Appeal to Vote For Smith and Save the Party.

Woodstock, N. B., Sept. 21.—The government candidates, Smith and Sutton, were elected today by very substantial majorities. Smith had 566 majority over McCain and 600 over Upham. Sutton had 495 over McCain and 535 over Upham.

Carleton has endorsed graft and dishonest government. The Opposition here were told by their friends all over the province that it was useless to contest Carleton county with the great campaign funds in the hands of Teed and Flemming, as disclosed by the royal commission. Had the people of any other county but Carleton given such a verdict in favor of the New Brunswick government the public would be far more alarmed at the prospect, but here in the nest of pillagers of the province, here in the county of the deposed Premier, here where party politics in some circles drown all considerations of public decency and public interest, the verdict of today will simply add to the determination of every man in the province who is in earnest for better government.

The Opposition party is disappointed without a doubt. Many promises to McCain and Upham of personal support did not materialize. The party whip has sounded night and day since nomination day, when the Government party became alarmed at the Opposition sentiment. Night and day the county has been patrolled by government men in motor cars with the one cry: "Vote the ticket; if you don't Smith is beaten and the Conservative party doomed!" And these men soothed the displeased with all kinds of promises and money; so it is a dearly bought victory—a victory that the province will pay for in the end.

Opposition Campaign Clean.

The Opposition party did not buy a single vote and did not spend a cent for liquor. The false and foolish statements of the Standard regarding Opposition "rum and money" did not deceive anybody in Carleton county.

John Connor, the right of way man for the Valley Railway, and E. R. Teed were two prominent figures about the polling booths in Woodstock town. They are actuated by personal feelings against Opposition investigations and not by any love of B. F. Smith. Flemming's friend, Dr. Rankin, was another hustler at the polls.

Candidate Upham was at Woodstock and Northampton polls, while McCain stood at East Florenceville. The whole contest was a fight between two powers—public opinion and money. The case of the government and the contractors surrounding it, was desperate. For the Opposition to win meant disaster, and every available influence was brought to bear to gain the victory.

The Opposition has nothing to regret. If the campaign failed to convince Carleton county to a proper appreciation of its duty and sense of honor, the rest of the province has taken note of the evidence and will take the measure of the administration when the hour comes.

The Vote by Polls.

The vote by polls was as follows:

Majority is Reduced.

An analysis of the returns shows considerable gain in Woodstock, and gains in Wilmot and Johnville, and in several other centres. Smith had 150 less majority than over Simms two years ago, though there were 700 more votes polled.

The personal promises and inducements held out by Smith would unseat and disqualify him in a federal election. The New Brunswick election law provides no penalty beyond the loss of \$80 and the loss of franchise. To proceed against a briber someone must sue him in a magistrate's court or county court for \$80, and with the juries selected by Government officials the executive committeemen here feel that it would be nearly useless, but still there are many who would like to see a clean Opposition campaign followed by some prosecutions.

CONFERENCE OF CHIEF WITH POLICE COMMISSION

Judge Wilson Was Not Present-- Formal Meeting Will be Held Later.

The Police Commission conferred informally with Chief W. H. Finley yesterday afternoon. Judge Wilson was unable to be present, so no decision was arrived at definitely. When he is able to attend, action concerning the reorganization of the force will be taken.

Chief Finley has rented the residence in King street near Wilmot's Alley which is owned by Mr. F. B. Edgecombe, and will remove his family and household effects from Newcastle. He was sworn in yesterday and the order for his uniform has been given.

Policeman Marshall's promotion to sergeant will be made shortly.

HOSTILE AEROPLANE VISITED DOVER

London, Sept. 22.—A German seaplane today flew over Dover and dropped three bombs. The missiles caused no casualties, according to an official announcement, and the hostile seaplane was chased away by anti-aircraft guns.

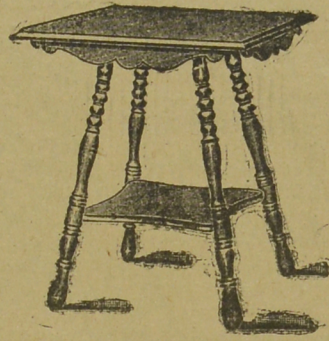

We believe that any man who would attempt to match his logic against a woman's tears is one kind of a padded cell candidate.

SEPTEMBER EXCURSIONS TO THE CANADIAN METROPOLIS

"Montreal, Alt. 48.3, Population 700,000, the commercial metropolis of Canada, and sixth largest city in North America. Beautifully situated at the foot of Mount Royal, on an island in the St. Lawrence river, about 700 miles from the estuary of that mighty artery through which pulsates so large a portion of Canada's commercial life. The city is built on the site of the ancient Indian village of Hochelaga, first visited by Jacques Cartier in 1535. Over 250 years ago the early French navigators established a trading post for furs here, and it was the last section of French Canada to pass into the possession of Great Britain in 1760. At the head of ocean navigation, with command of one of the three water routes by which the products of the West can reach Europe, Montreal has seven miles of fine wharves of masonry, vast warehouses and grain elevators, and the largest floating dry dock in the world. Numerous railway lines make Montreal a centre for a vast and constantly growing traffic. Montreal is a city of great enterprises, where mighty results are achieved, with a record for stability equal to that of any of the great cities of America, and is advancing year by year to a still greater future. Besides its commercial greatness, the city has the additional charm of historic attractions, and there are many places of interest which link the present with an eventful past. With imposing public buildings, universities, educational institutions, magnificent churches, fine business blocks, substantial manufacturing establishments, splendid hotels and handsome residences, the city possesses all that is calculated to make a city attractive. Evidences of prosperity and wealth are everywhere."
