Plan For More Activity During Year; Minot Brewer, President

At the annual "Acadia Night" held in the recreation hall of Brunswick Street Baptist church last evening, plans were made for increased activity among the Acadia graduate representatives residing here during the ensuing year.. The activities will likely take the form of more social gatherings and possibly a few public entertainments.

About forty were present at a particularly enthusiastic meeting last evening at which the following officers were elected: President, M. H. Brewer; vice-president, Dr. W. J. Wright; secretary, M. H. Mason; executive, Miss Beatrice Phhillips and W. K. Tibert.

Dr. Patterson Talks

A feature of the entertainment was an address by Dr. W. F. Patterson, president of Acadia University, who talked on Acadia past and present. At the conclusion of his talk he showed lantern slides of the Acadia buildings before and after the recent fire; also slides showing the classes and professors of earlier ears. There were also talks from His Worship Mayor W .G. Clark, President M. H. Brewer and Dr. C. C. Jones. A part of the entertainment program was a series of readings given by Mrs. William Fox of Gagetown.

A luncheon was served at 7:30 o'clock, by the Women's Missionary Society of the church and several toasts were proposed and resonded to by Rev. W. G. Guiou and one to "Acadia" by Major I. B. Rouse. A period of reminiscence was enjoyed later during the program and old Acadia songs were sung by the assembly before breaking up.

DEEP SNOW IS NO DETERRENT TO LUMBERMEN

Local Lumberman Says Conditions Better Than Last Year

MORE WORK ON JOB

Operators Have Made Roads For Hauling To Streams

Lumber operators in this part of the province have remained undismayed in the face of unusual snow conditions which time after time this winter have threatened to blot out progress in the woods. Despite the 110 inches of snow there is reason to believe that the present winter will be a successful one for operators, both from point of employment and prices.

A seven inch fall of snow this morning added to the disadvantage, however, which faces the lumbermen in their work of hauling the logs to the streams, preparatory to spring driving activities.

Keep Rounds Cleared

In many cases the operators have surmounted the snow barrier by keeping the roads cleared as each fall comes on and the work of hauling has gone on quite steadily. Only in a few cases have the workers been held up for any length of time.

from this city said today that the cut form this city said today that the cut this year is actually more than last year and that more mills were in operation together with more employment. The price also is higher than in other recent years which would indicate general improved conditions in central New Brunswick. More men are employed in the woods this year than during the past two winters.
