THE CITY COUNCIL

Although an eleventh hour fine tooth comb hunt had to be made for candidates for the city council, the three vacancies were filled and a satisfactory choice seems to have been made. Ald. Hedley Forbes was prevailed upon to reconsider his decision to retire, and permitted himself to be renominated for a second term. Ivan McKnight, a former alderman, was prevailed upon to offer for the vacancy in Carleton ward, Earle Doohan, was nominated for Queens ward, and Dr. H. S. Wright in King's ward. The two last named are new to civic politics but are nevertheless well equipped to lend a hand in the city government. His Worship Mayor Clark, who several years ago established a record for continuity and length of service as chief magistrate, was renominated for his ninth term. His Worship as a former bank director, is recognized as an authority on financial matters, and enjoys the absolute confidence of banking institutions. That he has been a faithful and efficient custodian of the civic finances is attested by the fact that during his eight years in office bonds to the amount of one hundred thousand dollars have been retired. This means a substantial saving in both interest and sinking fund, and one that taxpayers great and small should appreciate. His Worship's association with the company now engaged in erecting a business block in Queen Street, is further proof of his intense loyalty to the city of his adoption. We feel sure that the members of the new council will work together for the advancement of the city's interests.

While many people are under the impression that the protracted cold spell of last week established a new record for frigid weather, an old timer informs the Mail that it scarcely held a candle to the memorable Cold Friday of February 8th, 1861. It was so cold and windy on that occasion he says, that in the country districts birds fell dead out of the air. Of course there were no swallows or humming birds moving about at that period, so that the birds that were knocked out must have been members of the Jay family, gories and chickadees, and such like. Our informant says it happened and there are few to dispute his word. The thermometer on Saturday last registered thirty degrees below zero, so we are quite justified in passing it along as Cold Saturday.

That good old parish of Queensbury was honored yesterday when the members of the York County council, elected Harry Morrison, senior councillor of the parish, to the office of warden of the Municipality of York. The son of a former councillor, Warden Morrison has long been a member of the board, and has rendered both his parish and the county as a whole splendid service. He has given close attention of his duties has a good grasp of municipal affairs and enjoys the esteem of his fellow members to a marked degree. He well deserved the honor conferred upon him and will worthily discharge his important duties.

Mayor Clark in the course of his radio talk over a nation-wide hook-up on Sunday, very properly made mention of the fact that a maple leaf from this city was awarded first prize in a recent contest conducted by the Canadian Pacific Railway. There were ten thousand entries and has been pointed out Fredericton's entry was "the fairest of ten thousand." Fredericton is such a large city that a number of its citizens are served by a rural mail route. One of these captured the prize for the most beautiful maple leaf, but her home is within the city limits of Fredericton, a fact which some newspaper overlooked.

There is no doubt whatever that the hardy free traders who, have been operating rum ships in the Gulf of St. Lawrence, have been responsible for a serious loss of revenue to the Dominion in recent years. That they are bold and resolute is attested by the fact that only a few weeks ago they ran away with a prize crew placed in charge of their ship by the Royal Canadian Mounted Police. The fleeing craft made for its base at St. Pierre, where it was captured by the aid of the French authorities. It is a generally accepted belief that where one craft is rounded up at least a dozen lodge the customs authorities and cache contraband cargoes.

Burlington, Wisconsin, has a liar's club which on New Year's day awarded the championship medal to a resident of Pennsylvania. His story in brief was that his grandfather owned a large clock, which has run so long that the shadow of the pendulum in swing had worn a hole in the back of it.

It is said that those who in writing letters yesterday used the date line figures 1, 2, 3, 4, will not be able to repeat the trick until the lapse of one hundred years.

New Developments Alters the Charges Against Three

Discovery that Ronald Steele, employee of a Queen St. store, sustained a fractured skull in a fracas here on the night of December 23 last will cause altered charges to be laid against three young men.

Fred Atherton, Harry McLaughlin, of this city and Alex. Ferris of Riley Brook, N. B., will face charges of causing grievous bodily harm and creating a public disturbance when they appear for preliminary hearing before Magistrate Limerick next Friday at 10 a.m. The three men were originally charged with assault and creating a disturbance but the altered charge was laid when the seriousness of Steele's injury was realized.

The Criminal Code provides a maximum penalty of life imprisonment for causing grievous bodily harm with deliberate intent or a maximum of three years where intent is lacking.

The accused trio were scheduled for preliminary hearing this morning, but the new development has caused the case to be set over until Friday.
