WANT CLEANER POLITICS.

"I believe that we have arrived at a time when the people of Canada want cleaner politics. I have never believed it necessary to be dishonest in public life, while being honest in private life. I believe the people of Canada are looking for better things, and are expecting service from the public men, men who occupy positions of trust in the different. And never in the history of Canada has there been a more opportune season than while this struggle is on. Let us have cleaner politics and more honest business in the conduct of our public affairs."—Premier Norris, of Manitoba, at London, Ont.

MESSAGE TO YOUNG MEN.

"After a long life I shall remind you that already many problems rise before you; problems of race division, problems of creed differences, problems of economic conflict, problems of national duty and national aspiration. Let me tell you that for the solution of these problems you have a safe guide, an unflinching light, if you remember that faith is better than doubt, and love is better than hate.

"Banish doubt and hate from your life. Let your souls be ever open to the strong promptings of faith and the gentle influence of brotherly love. Be adamant against the haughty; be gentle and kind to the weak. Let your aim and your purpose, in good report or in ill, in victory or in defeat, be so to live, so to strive, so to serve as to do your part to raise the standard of life to higher and better spheres."—Sir Wilfrid Laurier at London, Ont.

COMMISSIONS GALORE.

The Government has appointed another commission to advise the western farmers in connection with the retention of sufficient seed grain for next year's crop. This makes the 89th commission appointed by the present government since coming to office in the fall of 1911. Government by commission has become an established fact in the Dominion.

Talking about commissions, has anyone heard anything recently of the one which was appointed on Oct. 19th, 1915, under the chairmanship of Sir James Loughheed to investigate the questions of increased agricultural production, agricultural education, transportation, farm credits and the providing for after the war conditions? The commission comprised Senator Loughheed, J. W. Flavell, William Farrell, of Victoria, S. J. B. Rolland, of Montreal, E. N. Hopkins, of Moose Jaw, Hon. W. B. Ross, of Middleton, Nova Scotia, Dr. J. G. Rutherford, of Calgary, William Smith, of Columbus, Ont., and J. C. Watters, of Ottawa. It held several sittings at various points, but for the past eight months has dropped out of sight. Meanwhile Sir George Foster announces that he will call a conference of business men shortly to consider after the war problems. And the Senate has appointed a committee under the chairmanship of Hon. F. L. Beique to consider the same question.

Another commission which is about due to report is the Davidson Commission, which was appointed in the spring of 1915 to enquire into charges of graft and corruption in connection with war purchases. That commission has taken evidence on a score or so of matters, but so far not even an interim report has been received from it.

St. John Telegraph: There is no issue in this country with respect to loyalty. From the moment when Great Britain went to war the public sentiment of the Dominion of Canada responded instantly, and truly, to the great cause. But for political purposes, for the base uses of partisanship, in an effort to secure some further hold upon the spoils of office, a certain number of Conservative politicians have steadily and persistently sought to promote division in Canada, have attempted to persuade thoughtless elements everywhere that our country is of two minds in connection with this war. This attempt has been carried on largely by insinuation, but the activity in this respect has been very extensive, and it has been promoted vigorously by the worst types of Government newspaper organs. When men like McNaught are stood up against the wall, the despicable character of their conduct is instantly revealed.

Sir George Foster, who is sometimes described as Canada's Trade Wind, is

shortly to take another trip to the old country. Sir George seems to take delight in getting as far away from Ottawa as possible.

The annual report of the Bank of Montreal shows that this grand old financial institution has made wonderful progress during the last twelve months. It now has deposits of 300,000,000 of which \$210,000,000 bear interest, while its assets have reached the enormous total of \$365,000,000. The exceptionally strong position of the Bank of Montreal enables it to render good service to the country in war time, and no doubt it will play an important part in the development which is likely to follow the conclusion of the war. The Fredericton branch of the Bank of Montreal is under the able management of Mr. G. N. C. Hawkins, an experienced banker who has spent his life time in the Maritime Provinces and is thoroughly familiar with business conditions in Eastern Canada.

The emigration from Canada to the United States for the past six months as per the official figures supplied by the Immigration Service of the United States Department of Labor, show that 33,340 male aliens have entered the United States from Canada. With the urgent call for recruits which is being sounded each day, with the special appeals which have been made by munition and other manufacturers, and the condition of labor in Canada, it would appear that nothing is of greater importance than to stop this emigration of citizens from Canada to the United States.

The German pirates appear to be making a specialty of torpedoing hospital ships these days. They have evidently got tired of making war on innocent women and children in English coast towns, and now are devoting their attention to sick and wounded soldiers of the Allies. The day will come when they will be made to pay dearly for their foul crimes against humanity.

At Halifax on Thursday fifty-three returned soldiers were invited to the city hall and presented by the mayor with neatly engraved cards thanking them for services rendered the country as members of the Canadian Expeditionary Force. The idea is a good one and might be adopted by other places.

For the first time in the history of the United States, three California women will sit in the Electoral College next January. The voters of California have conferred this honor on Mrs. W. C. Tyler, Los Angeles; Mrs. Spinks, San Francisco, and Mrs. Wylie, Fresno. Mrs. Tyler was a delegate to the last National Democratic convention.

Toronto Globe: The New York World says that "the temperamental diversions in speech or judgment of Sir Sam Hughes possibly irritated the Royal side of the Dominion Government." Perhaps; but "the Royal side" took Sir Sam's gaucheries and temperamental diversions with the patience and dignity of an English gentleman. The Duke of Connaught had nothing to do with the fall of Sir Sam.

Through Our Sieve

Guess there's no need of takin' the canoe outa cold storage.

Some folks are so optimistic—they'd find music in a shoe horn.

Frankly, no furnace is ever half the trouble a fellow imagines it is.

We're waitin' for the day when eggs will be \$1.50 a pair and chickens 50c. a dozen.

Saw a lovely breastpin in a jeweler's window yesterday—a real hen's egg set in a circle of pure butter.

One consolation in being married is that you are not filled with cold fright every time a pretty woman tries to be agreeable to you.

To say of a man that he will make a good husband is much the same sort of compliment as to say of a horse that he is perfectly safe for a woman to drive.

DECLINE SUBSTITUTES

Had Awful Attacks Of Heart Trouble

FOR 5 OR 6 YEARS.

Diseases and disorders of the heart and the nervous system have become frightfully prevalent of late years.

One can scarcely pick up a paper but he will find recorded instances of sudden deaths through heart failure, or of prominent men and women unable to prosecute their ordinary business or profession on account of a breaking down of the nervous system.

We do not desire to unnecessarily alarm anyone, but to sound a word of warning.

When the heart begins to beat irregularly, palpitates and throbs, has shoot-pains through it, it is time to stop and think.

To all sufferers from heart and nerve troubles Milburn's Heart and Nerve Pills can give prompt and permanent relief.

Mrs. Frank Arseneau, Newcastle, N. B., writes: "I had awful attacks of heart trouble for the past five or six years, and as I had tried many kinds of medicine without getting any better I decided to give Milburn's Heart and Nerve Pills a trial, and to my surprise I found ease from the second dose. I continued taking them until I had used six boxes, and now I feel as well as can be."

"At the present time my sister is using them for nervousness, and finds great comfort by their use."

Milburn's Heart and Nerve Pills are 50c., or three boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.
