AN IMPORTANT INDUSTRY

The flour and feed milling industry, with 1,290 establishments had a total capital investment of \$38,233,212 in 1932, and employed 5,586 persons with salaries and wages at \$5,576,395. The cost of materials used was \$63,177,656 and the value of products totalled \$84,748,000. During 1931 there were 1,265 establishments with a capital of \$61,069,192 employing 5,671 persons and paying them a total of \$6,032,189 in salaries and wages. The cost of materials was \$71,771,797 and the value of products \$95,728,540.

Production held up fairly well in 1932 as compared with the previous year. The output of the principal products of the industry was as follows in 1932, the figures in brackets being those for 1931: Wheat flour 14,866,307 barrels (14,887,998), oatmeal and rolled oats 824,439 barrels (\$915,583), bran, shorts and middlings 522,991 tons (527,205), and chopped feed 764,806 tons (\$61,497).

The industry, which has existed to meet the domestic needs for more than 300 years, is one of the Dominion's oldest manufactures, but it is only within recent times that its progress has become spectacular. The War and the demand it created gave a great impetus to this trade. The 394 flour mills, many of them of the most modern types and highest efficiency, have a capacity far in excess of Canada's demand. During 1928, productive capacity reached about 121,000 barrels per day. Since then the industry has been adversely affected by the difficulties which beset the Canadian grain trade and the great decline in the prices of grains. Export of what flour declined from 10,737,266 barrels in 1928 to 5,131,781 barrels in 1932, but in spite of the decrease Canada continues to be one of the leading exporters of wheat flour.

In the Legislature yesterday, when the bill relating to the Port Royal Pulp and Paper Company was up for third reading, Leader Dysart tried to have it referred back to the committee of the whole for further consideration. He admitted that he was not in his place when the bill was before the committee, which was of course no fault of the government. Naturally Premier Tilley saw no reason for delaying the business of the House to allow Leader Dysart to embark on a fishing expedition and the bill was given its third reading. If Leader Dysart had any worth while objections to the bill he should have been in his seat and given expression to them when it was before the committee.

The debate on the budget, which has been going on in the Legislature for over three weeks, will be brought to a close this afternoon. Upwards of thirty members, including six cabinet ministers, took part and the various issues pertaining to provincial policies were pretty well threshed out. All of the fifteen members of the opposition took part and the Northumberland members, excepting Mr. Savoie, got in an extra speech on an amendment moved by Leader Dysart. Now that the flow of oratory has run its course the people of the province will breathe easier.

The United States Senate yesterday by a vote of 46 to 42, far short of the two-thirds requirement, rejected the St. Lawrence waterway treaty. The treaty was negotiated some time ago by the late President Hoover and Premier Bennett, and President Roosevelt strongly urged its ratification by the Senate. The president has stated that he will reintroduce the measure in some form. There never was at any time any marked enthusiasm for the treaty in the Maritime province and it is unlikely that any tears will be shed because it has been rejected by the U. S. Senate.

The members of the Senate who voted to legalize gambling devices in Canada, according to a list published by the Sherbrook Record, included the following: F. B. Black, Sackville, N. B.; T. J. Bourque, Richibucto, N. B.; W. E. Foster, Saint John, J. A. MacDonald, Shediac N. B., and C. W. Robinson, Moncton, N. B.

WOULD CLAIM U.S. ONLY IT'S TOO FAR AWAY

Berlin, Germany, March 15—If the Nazi doctrine is that wherever Germans live, German soil, distance and possibly other considerations help to prevent the inclusion of the United States in the Third Reich.

An excellently illustrated cultural booklet issued today in connection with the exhibition of German handicraft which is to run for six weeks in Berlin from April 21, shows the United States with 11,000,000 Germans, second only to the Reich with its 65,000,000 as a German country. Austria with 6,500,000 Germans and Czechoslovakia with 3,600,000 nestle snugly against Germany, being colored the same on the world map.

NEW PRESIDENT OF CANADIAN LEGION ELECTED

OTTAWA, Mar. 14—Brig.-Gen. Alex Ross, C.M.G., D.S.O., of Yorkton, Sask., was tonight elected Dominion president of the Canadian Legion at the fifth convention of that Association here. General Ross succeeds Major J. S. Roper, M.C., of Halifax, who had held that office since July, 1930.

The office of grand president of the Legion, made vacant by the death last November of Sir Arthur Currie, was given to Lieut.-Gen. Sir Percy Lake, K.C.B., K.C.M.G.

Washington, March 15—Thomas Corcoran, an author of the stock market control bill, quotes a broker as saying the bill should not make brokers liable for the activities of their wives. The broker said too many Wall street men take chorus girl brides "who marry to blackmail them, and this would make the blackmail easier."

The Rock of Ages

THE MONUMENT you erect should be chosen with care; it will never be changed or discarded. It should be a source of satisfaction and comfort for a lifetime. Many original and artistic monuments stand in local cemeteries as examples of the fine work we have erected. Each has individuality and character of its own—not that sameness so often found in the ordinary monument. On request we will present and explain our catalog of exclusive yet inexpensive designs of monuments made from Marble and Granite.
