

WHEN THE GRAVE YAWNED FOR HIM

Sandy Goulette Took Dodd's Kidney Pills For Bright's Disease

NOW HE CAN DO HIS DAY'S WORK AS WELL AS HE COULD TEN YEARS AGO—OFFERS PROOF OF HIS STATEMENT.

Old Fort Bay, Labrador, Que., Jan. 28.—(Special)—Cured of Bright's Disease when the grave yawned before him, Sandy Goulette, an old settler here, wants all the world to know that he owes his life to Dodd's Kidney Pills.

"I was swollen out of shape from head to foot. I was so short of breath I could hardly stand," Mr. Goulette states. "The doctor could do nothing for me. The minister gave me the holy sacrament and a good old priest came and told me that I could not live much longer."

"I was sick all winter and in the spring I telegraphed two hundred miles for two boxes of Dodd's Kidney Pills. I took three pills the night they came and I got relief before morning. I took Dodd's Kidney Pills and they cured me."

"If anyone doubts this statement, they can write me and I will give them names of people who know me and who will vouch for me. I am able to do my day's work as well now as I could ten years ago."

Dodd's Kidney Pills are no cure-all. They simply cure the kidneys.

T. P. O'CONNOR'S WEEKLY CABLE LETTER

(Continued from page two.)

ficient services of their men on the battlefield.

Mr. H. J. Morgan, a law professor in one of our greatest London colleges, has been trying to work out the idea in detail; another gentleman, who has been a student of politics for many years, has gone down to an isolated house in a remote country district and is evolving a scheme which will be presented in due time.

Signs of the Times.

A step in advance was the admission of Sir Robert Borden, Premier of Canada, to a meeting of the Cabinet Council, and this fact announced in the papers produced an immense sensation. The third step was taken when Mr. Harcourt, as Secretary for the Colonies, announced that when the terms of peace came to be discussed, the rulers of our dominions would be consulted and would have a voice in declaring what these terms should be. These steps, momentous and important, lead inevitably to other and to larger advances. I can therefore prophesy with some confidence that Imperial Federation is on the march, and will pass in not many years from now, from an ideal and a dream to a practical realization.

GERMAN REPORT.

Berlin, Jan. 28.—The Overseas News Agency says:

"According to the Frankfurter Zeitung, reported from the far eastern press, special agreements have been reached between Japan and England, concerning preponderance to Japan in the far east."

HOW TO BRACE THE NERVES AND STRENGTHEN THE SYSTEM

You sleep badly, appetite is variable. You eat but gain no strength. Morning tiredness makes you wish it were night. When night comes, refreshing sleep is hard to obtain. You are run down, your blood is thin and watery, your nerves have grown weak the thought of effort wearies you. You need Ferrozone; it makes blood—red, strong blood. An appetite? You'll eat everything and digest it, too. Strength? That's what plenty of food gives. Ferrozone gives hope, vigor, vim endurance. Use Ferrozone and get strong. Results are quick—cure is lasting. All dealers in 50c. boxes.

A PATRIOTIC EDITOR.

Hartland Observer:—Here is a chance to do something for the comfort of the soldiers.—The womenfolk over at Victoria have prepared a dainty supper tonight (Wednesday) for the purpose of raising money for the Soldiers' Comfort Association. It is a short notice, but The Observer urges a good representation from Hartland. You can go, do a good deed, eat a good supper and you won't have to hang your head so low in prayer meeting when you get back. The editor is unable to go but he is willing to pay the way of two people who will. Get ready and call at the office for the price of the tickets.

Beauty gets the best of it. We have heard a young woman declaim against the slaughter of pretty birds for hats, with her mouth full of chicken.

In the race for wealth a man always finds himself out of breath at the finish.

STARVATION IMMINENT IN BELGIUM

Unless More Food, Particularly Wheat is Received From Canada

Brussels, Jan. 28.—The setting in of the more severe winter weather has been marked by a noticeable increase in numbers in the bread lines of the Belgian Relief Commission, and the quarters where the bread is dispensed are daily becoming the stage on which more and more pitiful scenes are enacted. And the most lamentable part of it all is that as the demands on the relief commission increase the supply decreases until starvation is imminent unless more food products, particularly wheat, are received from the Canadian sources, which gave so generously earlier in the stages of the war.

Several months ago five ships from Montreal, Que., and Halifax, N.S., laden with clothing, wheat, flour and potatoes were moored and unloaded in the ports of Holland and their cargoes quickly shipped to Brussels and other cities where needed. Over \$2,000,000 of goods were received through the offices of the Belgian Relief Fund of Montreal and its branches all over the Dominion of Canada, but since that time these supplies have become exhausted and the committee here is seeking more to keep the population from starvation.

The old prison where the daily supply of bread and soup is distributed, in the midst of the poorer section of the city, forms a fitting background to the staging of a nation's destitution. Its gray and dingy walls rear themselves as a setting for the thin, clad, weeping mothers, and the little children shrinking from the surroundings and the things that they feel intuitively but cannot comprehend.

Scarcely a day goes by that the committee workers do not listen to the tale of the bereavement of some one of these "Spartan mothers." Grief everywhere and to it starvation is rapidly being added unless the British empire, whose battles the husbands and fathers and brothers of these same women fought in the early days of the war, comes more effectively to their aid. Belgium is looking to Canada as the big producing dominion of the empire for her wheat—wheat to grind into flour to make the bread that is fast becoming the only sustenance of Belgium. Without the wheat they cannot live and they know that millions of women and children in Canada will not let them die.

NO MEDICINE TO EQUAL BABY'S OWN TABLETS

Mrs. E. Cutler, St. Lazare, Man., writes:—"I have used Baby's Own Tablets for the past ten years for my five children and can truthfully say there is no medicine to equal them." The Tablets regulate the bowels and stomach, cure constipation and indigestion, expel worms and makes teething easy. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Brockville, Ont.

Slants Of Humor

Most great men do not look the part. You'll notice every day. That when a man is very smart He never acts that way. —Cincinnati Enquirer.

Some boobs, upon the other hand, Appear so very smart, It puzzles us to understand Why they don't act the part.

BANG! "Did you hear about my brother getting shot?"

"No. Where did he get shot?"

"He got it at the hardware store."

SAYS THE GIRL ON THE FILM: A man is "sweet" on a girl when he brings her not less than five pounds of candy a week.

"Pa, what is affection?" "Affection, my boy, is carrying three extra tires on an automobile that never gets more than four blocks away from a garage."—Detroit Free Press.

Dr. W. A. Evans, formerly health commissioner of Chicago, tells of a young country physician who called on an old farmer suffering from heart trouble.

"There's a curious swelling over your heart," said the physician, "I'll probably have to remove."

"No, bigosh," exclaimed the farmer "that's my pocketbook."

AN IDEAL TONIC

When your head is dull and heavy, your tongue furred, and you feel done-up and good for nothing, without knowing what is really the matter with you, probably all that is needed to restore you to health and vigour is a few doses of a reliable digestive tonic and stomachic remedy such as Mother Seigel's Syrup. Take it after each meal for a few days and note how beneficial is its action upon the stomach, liver and bowels—how it restores tone and healthy activity to these important organs, and by so doing enables you to gain new stores of vigour, vitality and health.

MOTHER SEIGEL'S SYRUP

The new 1.00 size contains three times as much as the trial size sold at 50c per bottle.

5015

SUBSCRIPTIONS TO THE BELGIAN FUND

Following is a statement of the receipts of the Belgian Relief Fund from Dec. 23rd, 1915, to Jan. 28th, 1916, both inclusive, submitted by the Treasurer, Mr. T. G. Loggie.

"Santa Claus" 5.00
Mrs. W. S. Thomas, Fredericton 20.00
The total amount received up to Jan. 28 was \$5,739.11; expended, \$5,340. Balance on hand, \$398.17.

Opposition Platform

The following platform was adopted at the Opposition Convention held in St. John recently: In the event of the Opposition being returned to power, we pledge ourselves:—

NO PARTIZAN CONTROL OF CROWN LANDS.

1. We pledge ourselves to completely reorganize the Crown Lands Department, so that its administration shall be entirely severed from politics and administered on sound business principles under systematic plans by a non-partizan commission specially appointed for that purpose, responsible to the Legislature and working in co-operation with the Dominion Commission of Conservation.

TAKE THE HIGHWAYS OUT OF POLITICS.

2. We pledge ourselves to take the highways out of politics, giving the expenditure of the money collected from the people and the control of the labor, together with the Government appropriations, into the hands of supervisors, chosen by the people of each parish, to whom a detailed and audited account must be rendered every year at the annual meeting, and a duplicate thereof forwarded to the Department of Public Works, the work of the supervisors to be under the inspection of a competent provincial engineer.

We also pledge ourselves to set aside the money collected from the licenses upon automobiles and other motor vehicles, together with an equal appropriation from the revenues of the Province each year, to pay the interest upon the bonds to provide for permanent roads, which shall be constructed as rapidly as possible. PROHIBITION PROVINCE WIDE.

3. We pledge ourselves at the first session of the Legislature to pass a law prohibiting the sale of intoxicating liquors within the Province to the fullest extent allowed by the Constitution, and within three months after the passage of said Act to submit the same by referendum to the electors of the Province, and should the majority of votes cast be in favor of the said law, then to bring the same into force by proclamation within one year thereafter.

ELECTION LAW.

4. (a) To amend the electoral law so as to make it impossible for members of the Legislature to traffic with the Government and still retain their seats.

(b) To make it possible for young men, when they reach the age of 21 years, to register their names and be placed forthwith upon the voters' lists, instead of waiting for the tedious machinery of revision as it now exists.

(c) To divide the counties into electoral districts which shall each be represented by one member.

(d) We will also consider amendments to the election law to make bribery in municipal as well as provincial elections impossible.

PROVINCIAL FINANCES.

5. To obtain at once a correct statement of the financial condition of the Province in order that the people may have definite knowledge of the vastly increased public debt and the enormous obligations of guaranteed bonds they will be called upon to pay; and to so reduce the cost of the administration of affairs and the number of useless officials as to avoid the necessity for direct taxation now confronting us.

AGRICULTURE.

6. To give the farmers all the practical assistance that the resources of the Province will permit, to improve agricultural methods and the quality and quantity of the stock upon the farm; to reduce the enormous salary list in the department, and to spend the educational grant received from the Federal Government without regard for political patronage.

VALLEY RAILWAY.

7. To complete the Valley Railway from a point on the Transcontinental Railway at or near Grand Falls, to St. John, and insist upon the Dominion Government carrying out the terms of the original legislation and allow the Province forty per cent. of the gross earnings thereof.

EDUCATION.

8. To always maintain and improve the educational service of the Province and to co-operate with the Federal Government in carrying out the recommendations of the commission upon technical education.

IMMIGRATION.

9. The inauguration of a vigorous immigration policy to properly place before intending immigrants, whose number will be large after termination of the war, the advantages of the agricultural possibilities of New Brunswick.
